ACADEMIC CATALOG

This 2024-2025 Academic Catalog documents the information, policies, procedures, requirements, and programs related to the educational and student experience for Bennett College students, faculty, and staff. The Academic Catalog is the publication that documents all academic policies, regulations, and program requirements for a given academic year for all undergraduate students and programs.
The provisions of this Catalog are not to be construed as an irrevocable contract between the student and Bennett College. This Catalog, the Student Handbook, and other documents and regulations of the College are part of the provisional relationship the student has with the College. Policies and procedures and curricula are continually being reviewed to ensure the College remains relevant and a prominent producer of women leaders. These materials are made available to the student at or before admission and enrollment. The student, on admission, is obligating herself to submit and be governed by the reasonable rules and regulations contained in these materials. The Catalog in effect upon student enrollment should be considered the primary and obligatory reference for the degree requirements. Students should read these materials and familiarize themselves with their obligations. Bennett College encourages students to consult with their success coaches, advisors, and other appropriate College officials for clarification of current policies and requirements related to their collegiate experience. The College reserves the right to change fees, tuition, or other charges; to add or to delete courses; to revise academic programs; or to alter regulations and requirements as deemed necessary. Bennett College offers both equal education and employment opportunities.

This 2024-2025 Academic Catalog was approved by the Bennett College Board of Trustees at their meeting held June 14-15, 2024.

The 2024-2025 Academic Calendar is available on the Bennett College website at: www.bennett.edu/academics/calendars/

- National Collegiate Honors Council
- North Carolina Consortium for the International and Intercultural Education
- North Carolina Independent Colleges and Universities
- Southern Association of Student Financial Aid Administrators
- The College Board
- Transnational Association of Christian Colleges (TRACS)
- United Negro College Fund
- Women's College Coalition

Non-Discrimination Policy
In accordance with the U.S. Office of Education’s Office for Civil Rights Title VI of the Civil Rights Act of 1964, Bennett College prohibits discrimination based on race, color, religion,
Title VI’s protection from race, color, or national origin discrimination extends to students who experience discrimination, including harassment, based on their actual or perceived: (i) shared ancestry or ethnic characteristics; or (ii) citizenship or residency in a country with a dominant religion or distinct religious identity. Title VI prohibits discrimination based on race, color, or national origin against students of any religion, such as students who are Jewish, Christian, Muslim, Sikh, Hindu, or Buddhist, when the discrimination, for example, involves:

- racial, ethnic, or ancestral slurs or stereotypes.
- how a student looks, including skin color, physical features, or style of dress that reflects both ethnic and religious traditions; and
- a foreign accent: a foreign name, including names commonly associated with shared ancestry or ethnic characteristics; or speaking a foreign language.

Title IX
Bennett College is committed to complying with Title IX of the Education Amendments of 1972 by maintaining a safe and healthy learning and working environment in which no member of the College is, based on sex, sexual orientation, or gender identity, excluded from participation in or denied the benefits of any College program or activity. The protections of Title IX apply to students as well as individuals seeking admission to, or who are employed with, the College. If you have any questions about the application of Title IX, you may speak to Bennett College’s Title IX Coordinator: Mr. Jermaine Thomas.

Introduction to Bennett College

Faith Statement
As a United Methodist Church-related institution, Bennett College affirms the doctrinal foundations of the United Methodist Church, including the tradition of reflective reasoning, the fostering of free exchange of ideas, educational opportunities for all people, and the conduct of business and programs in accordance with standards of Christian ethics and morality. The doctrinal beliefs undergirding our mission and philosophy are enumerated in the Articles of Religion of the United Methodist Church (The Articles of Religion of the Methodist Church).

History of the College
In 1873, Bennett College had its beginning in the basement of the Warnersville Methodist Episcopal Church (now known as St. Matthew’s Methodist Church). Seventy young men and women started elementary and secondary level studies. In 1874, the Freedman’s Aid Society took over the school, which remained under its auspices for 50 years. In 1878, a group of emancipated slaves purchased the present site for the school. College-level courses and permanent facilities were added. In 1926, the Women’s Home Missionary Society joined with the Board of Education of the church to make Bennett College in Greensboro, NC, formally co-educational, a college for women. The challenges that were overcome to establish Bennett in the early century demand that women of color are prepared for global leadership in a world driven by technology.

For more than 150 years, Bennett has cultivated socially responsible and civically engaged women leaders. Today, the private four-year institution for women operates at the intersection of liberal arts and technology to expand human capacity for social justices and civil rights. Bennett is the only historically Black college for women in the state of North Carolina and is one of two in the country. As a United Methodist Church-affiliated institution, Bennett College promotes morally grounded maturation, intellectual honesty, purposeful public service, and responsible civic action.

Bennett College is a member of the Transnational Association of Christian Colleges and Schools (TRACS) 15935 Forest Road, Forest, VA24551; Telephone: (434)525-9539; info@tracs.org; having been awarded Accredited Status as a Category II institution by the TRACS Accreditation Commission on April 25, 2023. This status is effective for a period of up to five years. TRACS is recognized by the United States Department of Education (ED), the Council for Higher Education Accreditation (CHEA), and the International Network for Quality Assurance Agencies in Higher Education (INQAAHE).

Mission
Bennett College prepares women of color through a transformative liberal arts education to lead with purpose, integrity, and a strong sense of self-worth. Bennett provides educational access to students while promoting inquiry, civic engagement, social justice, lifelong learning, and equity for all.

FOCI Areas
- Leadership
- Civic Engagement
- Global Citizenship
- Innovation/Entrepreneurship
- Communications
Vision
Bennett College is renowned for its intimate, engaging learning community that produces phenomenal women scholars and global leaders.

Competitive Advantage
Bennett College's competitive advantage includes the following:

- Cultivates confident women leaders who are fiscally and socially responsible and civically engaged.
- Offers unique culture where faculty, staff, and alumnae build rapport with our students and participate in their development.
- Meets our students where they are academically and offers comprehensive support.
- Provides a broad-based, liberal arts education that helps students flourish in a global, ever-changing economy.
- Emphasizes the leadership development of women of color.

Diversity Statement
Bennett College welcomes students, faculty, and staff from diverse backgrounds recognizing that the educational experience is enriched and strengthened when multiple voices are represented and heard.

Philosophy
Bennett College’s undergirding philosophy is that a high-quality college experience should provide its students with strong academic and co-curricular programs that encourage their personal development, endorse life-long learning, and prepare them to meet the needs of an ever-changing society. Bennett College values and respects every member of its community. As a United Methodist Church-related institution, the College believes that education should be related to humanitarian ends.

At Bennett College, education takes place in an environment of open inquiry where teachers and students are immersed in educational processes that build community, foster authentic research, contribute knowledge, and advance scholarship and personal empowerment. Students will leave Bennett College prepared for success in the world of work and further studies, possessing a greater appreciation of the history and culture of Africa and the African Diaspora, the struggles and accomplishments of women, and a realization of their own ability and the possibilities to help change the world.

Core Values
The College embraces the following seven core values and ideals as guiding principles and core beliefs:

- Integrity
- Accountability
- Professionalism
- Excellence
- Leadership
- Teamwork
- Social and Economic Justice
Educational Objectives

- To encourage experiences for free and open inquiry in a college community that emphasizes enduring ethical values and respects ethnic, cultural, and religious diversity.
- To provide a liberal arts education augmented with specific experiences in training and research that leads to a career, promotes post-graduate education, and encourages lifelong learning.
- To empower women to become leaders through learning experiences that develop critical and analytical skills, personal and social development, and foster compassion.
- Provide information and opportunities to enhance and practice effective communication skills.
- Provide a learning environment supportive of spiritual, mental, and physical well-being.
- Provide resources and training that will enable students to become proficient and ethical users of technology in a global society.
- Promote the pursuit of social justice and political activism by encouraging and enhancing the desire to serve society through service learning, and community and public service.
- Cultivate external partnerships to provide students with educational resources, personal and professional networking opportunities, and career and work-related experiences.

Educational Plan

If students are to realize their full potential as educated persons and contribute to society to their maximum capacities, their training at the undergraduate level must be thorough and must provide the opportunity to develop a value system and philosophy around which they can organize their lives. Therefore, Bennett College is committed to rigorous treatment of the fundamentals of specific subject matter areas and to a sound liberal education.

The educational plan at Bennett College represents a structured whole. Three principal areas of campus life—the instructional, co-curricular, and residential—are brought to focus on a single effort to unify the educational experiences of the student. An attempt is made to maintain a delicate balance between the substance of general education and the career goals of the students. The theory behind this attempt is that the unity in such an organization, when experienced by the student, leads to a fuller understanding of the necessity to strive for completeness in personal growth and development.

On the Bennett campus, there is a deliberate attempt to provide varied learning experiences in each of the three areas, so that every student in planning her program may be selective without running the risk of discovering serious gaps in her education along the way.

A young woman can participate in a field-studies project growing out of classroom experiences; serve as co-chair with a faculty member to plan a college or community-wide activity; or serve as a student assistant in a residence hall, an administrative office, or a science laboratory course. All these activities are designed to aid in the development of greater sensitivity to social situations, as well as to create a positive attitude toward the
responsibilities of citizenship in a democratic society. With this educational design, the College is better able to take specific account of the total development of the individual student.

**Ethical Standards**

Bennett College is committed to academic excellence rooted in personal integrity. Bennett College believes that talent without discipline is useless, and knowledge without character is perilous. Because the College's reputation is ultimately determined by those who earn a degree and wear its name, Bennett College insists upon evidence of personal growth and integrity in addition to academic excellence.

Attendance at Bennett College is a privilege, not a right. If, in the judgment of the College, a student's academic performance or personal conduct is substandard, the institution retains the right to deny the student further enrollment or to deny the student a degree.

All instructors authorized to teach at Bennett College are selected because of their academic credentials, professional experience, and personal character. Instructors at Bennett College are considered uniquely qualified, not only to render objective and subjective judgement on the academic performance of students, but also upon the students' personal growth. Academic achievement, personal growth, and character will be considered in awarding a student a grade or a degree from Bennett College.

**Bennett College Code of Conduct**

By enrolling in Bennett College, a student signifies her willingness and agreement to live in accordance with the following minimal ethical standards:

- Each student shall be honest in all behavior and conduct with the College. Any form of cheating, plagiarism, falsification of records, or the deliberate giving of false information to College officials is a breach of the ethical standards of the College.
- Each student shall respect the personal rights, safety, and health of others. There will be no emotional, verbal or physical abuse of any individual at Bennett College. No student shall disrupt or disturb the study of others, nor should there be any disruption of College activities.
- Each student shall respect personal property. No student shall damage or misuse the property belonging to others, and there will be no damage or misuse of College property or facilities.
- Each student shall obey and honor specific standards of the College. Each student shall refrain from the possession, use, or distribution of any form of alcoholic beverage and/or controlled drug or substance while on the property of the College.
- Each student shall respond to administrative or faculty directives.
- Each student shall satisfy her financial obligation to the College.

Violations of ethical standards found to be Code of Student Conduct infractions may result in disciplinary action. Such action may take the form of any of a series of sanctions, including, but not limited to, reprimand, probation, or in more extreme cases, suspension or expulsion from the College. Suspension or any disciplinary action short of expulsion is not considered punishment, but part of the educational process. A student may be suspended for an indefinite period of time, depending upon the offense. Expulsion is permanent.
The Student Conduct Officer serves to promote a safe and secure learning community of civility and integrity, while treating each student with dignity and respect.

**Pre-Alumnae Council**

The Pre-Alumnae Council (PAC) at Bennett College is a part of the National Pre-Alumni Council and National Alumni Council of the College Fund/UNCF. The purpose of the PAC is to stimulate the interest and participation of students enrolled at UNCF member institutions and to encourage them to become active members of their respective alumnae associations. The organization also seeks to preserve and instill loyalty and fellowship among member institutions of the College Fund/UNCF, their faculties, staffs, students, and alumnae. Members of the Pre-Alumnae Council travel to local and national meetings, participate in on-campus programs, and serve as ambassadors of the College.

Bennett College has graduated over 7,000 young women since 1930.

**College Responsibilities**

Each student has the right to expect Bennett College to conduct its business and programs in accordance with the highest ethical, moral, and legal standards.
The Campus Resources & Facilities

The only historically African American college for women in the state of North Carolina and one of two historically Black colleges for women in America, Bennett College is in the southeast section of Greensboro, North Carolina. The campus comprises 65 acres of land and 35 buildings. In addition, the College owns 11 acres of land in Sedalia, North Carolina.

The Global Learning Center houses administrative offices of the President, and the Offices of Institutional Advancement. The GLC has four classrooms, four study rooms, a 124-seat auditorium, and a multipurpose room equipped with state-of-the-art technology.

Susie Jones Alumnae House, the oldest structure on campus, was built in 1915. It is used to house alumnae and campus activities and offices. Renovations were completed September 2023.

Wilbur F. Steele Hall, erected in 1922, is named for Reverend Wilbur Steele, president of Bennett from 1881 to 1889. This building served as the College’s dining hall until 1948 and later as the Humanities Building. Today, Steele Hall houses the College’s art gallery and a Hyflex classroom.

Robert E. Jones Residence Hall, built in 1922, is named for the first African American minister elected as a general superintendent with full Episcopal responsibilities in the Methodist Church (Currently Unoccupied).

John H. Race Administration Building, erected in 1925, is named for a Methodist Church Publishing House official and trustee of Bennett College (Currently Unoccupied).

Enrollment Management Center, formerly The Children’s House, provides for the offices of Financial Aid and Admissions.

Pfeiffer Residence Hall, constructed in 1924, was the nucleus of the current Bennett College campus and the first of five structures that bear some variation of the names of Mr. and Mrs. Henry Pfeiffer, the institution’s most generous early benefactors (Currently Unoccupied).

Black Hall, built in 1937 as Henry Pfeiffer Science Hall and later renamed Ethel F. Black, who was a College trustee (Currently Unoccupied).

Annie Merner Hall bears the maiden name of Mrs. Henry Pfeiffer and was erected in 1937–38. It will open in the Fall of 2024 as a residence hall.

Thomas F. Holgate Library, was built in 1939, named for a former trustee of Bennett College, and funded by the General Education Board of the Methodist Church. Renovations to this building were completed in 2019.

Annie Merner Pfeiffer Chapel and Little Theater, erected in 1941, forms the north boundary of the quadrangle around which most of the major buildings cluster.

Carrie Barge Residence Hall, constructed in 1941, and bears the name of the College’s first chapel. Barge Hall was the third residence hall constructed during the presidency of Dr. David Dallas Jones (Currently Unoccupied).
Carnegie Negro Library, formerly a branch library of the City of Greensboro, was acquired by Bennett College in 1967 and renovated for use as a center for outreach programs. This facility houses the Department of Information Technology (IT).

Jessie M. Reynolds Residence Hall, built in 1948, was named for Mrs. Reynolds, a Bennett College trustee from 1936 to 1948 and president of the Woman's Division of Christian Service of the Methodist Church from 1940 to 1948 (Currently Unoccupied).

David D. Jones Student Union, erected 1949–50, was named for the president of the College from 1926 to 1955 and is said to have been the first building erected as a student union on a predominantly black college campus in North Carolina. It houses the dining hall, central storeroom, snack bar, post office, SGA offices, Commuter Student Lounge, LaBelle Shop, and recreational areas as well as the offices of Career Services, Residence Life, Student Activities and Business and Finance.

The Martin Dixon Intergenerational Center, the Bennett College laboratory preschool for 3 and 4-year-olds is named for Bennett Alumna Joyce Martin Dixon. Bennett has entered into an agreement with Guilford Child Development (GCD), and the Martin Dixon Intergenerational Center will now become one of their childcare sites.

The President’s Home forms the south base of the College quadrangle and was constructed in 1955.

Laura H. Cone Residence Hall was built in 1961–62. Mrs. Cone was a Bennett College trustee and chairperson of the Trustee Committee on Buildings and Grounds (Currently Unoccupied).

The Ida Haslip Goode Health and Physical Education Building is named for a long-time trustee of Bennett College who was also president of the Women's Home Missionary Society of the Methodist Church. The gymnasium contains an Olympic-style swimming pool, a standard basketball court, a combined stage and ballet studio, a corrective exercise gymnasium, faculty offices, four classrooms, and a seminar-conference room.

Willa B. Player Residence Hall was named for the first woman president of Bennett College (1955-1966) and occupied for the first time in the fall of 1967 (Currently Unoccupied).

Henry Pfeiffer Science Building was built in 1968. In addition to classrooms and laboratories, this structure contains computer laboratories, one electronic classroom, an animal laboratory with an adjacent greenhouse, individual research laboratories, the Office of the Registrar and the faculty development resource room.

The Johnnetta B. Cole Honors Residence Hall, completed in 2010, is the largest residence hall. This facility has a capacity for 144 honor students, guest suites, seminar room to accommodate lectures and special programs and a computer lab for the residents.

Pfeiffer Science Computer Laboratories, the computer labs serve all students on campus in a wide variety of disciplines. The computer labs, located throughout Pfeiffer Science Building, are used as electronic classrooms for specific classes as well as for
general academic purposes. The labs are available for student use throughout the day and evening hours.

**Rose Catchings Complex**, built in 1981, houses the administrative office of Academic Affairs and the Office of Institutional Effectiveness, Student Health Services, Counseling Services and Human Resources.

**Julianne Malveaux Journalism and Media Studies Building**, renamed in 2014, was adapted for reuse as an academic building in 2009. This historic building was originally constructed in 1935 and named Merner Pfeiffer Heating Plant served as heating plant for the campus. The facility now houses Journalism & Media Studies and is equipped with state-of-the-art technology to fully support the curriculum and instruction for this degree program.
Admissions

Bennett College welcomes applications from women who seek an excellent liberal arts education and who possess the ability, determination, and character necessary to meet Bennett’s standards.

Students may apply to enter the College at the beginning of the fall or spring semesters and Minimester 2 of either Fall or Spring semester. Bennett adheres to a rolling admissions practice, which means that the College will continue to accept applications until the class is full. The College encourages submission of College Level Examination Program (CLEP) score reports, the Advanced Placement (AP) score reports, and International Baccalaureate (IB) score reports. Students should consult with their high school counselor for additional testing information. Additionally, admissions decisions will be sent as soon as possible after a student’s application file is complete. The Office of Admissions staff use a combination of factors to determine if an applicant should be admitted. The College also honors the College Board Application Fee Waiver form if properly completed and signed. Please contact the Office of Admissions to inquire about different types of application fee waivers.

Bennett College does not discriminate based on race, color, disability, religion, sexual orientation, or national and ethnic origin in the admission of its students.

Cost of Attendance
Costs of attendance is defined as the total cost of attending college to include tuition, fees, room, board, books and supplies, transportation, and miscellaneous expenses. College costs are typically broken down into two categories – direct costs and indirect costs.

Direct costs are those for which students will be billed directly by the Student Accounts Office. These include tuition, fees, room and board. The Bennett College health insurance plan is also a direct cost for those students who are required (i.e. – international students), or choose, to purchase the plan. The direct cost of attendance is decided by the Board of trustees.

Indirect costs refer to those expenses that students incur by attending college, but which are not billed directly to their account. Indirect costs include travel, books, supplies and other miscellaneous personal expenses which can vary considerably from individual to individual.

When calculating the cost of attendance and determining a family’s financial need, the College takes into consideration both direct costs and an estimate of indirect costs.

Details of Cost of Attendance can be found HERE.

Application Procedure for Freshwomen
A complete admissions application packet consists of the following:

- Official Bennett College Application
- An official high school transcript or GED certificate with graduation date included.

*Note: An admissions decision can be made using an unofficial high school*
transcript. The final official high school transcript must be received by August 1 for the Fall Semester or December 1 for Spring Semester.

- An official college transcript (for students who are dual enrolled and have earned early college credits).
- Official Standardized Test Scores (SAT/ACT) (Optional)
- Letters of Recommendation (Optional)
- Sign-up with uncf.org.
- Submit immunization records (see below HEALTH RECORDS).

Final Official high school transcripts can be received via electronic exchanges (including the National Student Clearinghouse, Parchment, Scribble, etc.); sealed transcript by a high school official, or as an e-transcript that comes directly via email to Office of Admissions or Office of the Registrar.

SAT/ACT score reports can be received electronically, via mail, email or print out provided from the student’s SAT/ACT access portal. SAT/ACT score reports can also be provided by the Guidance Counselor or other school official.

High School Requirements
GENERAL ADMISSION: Must have a minimum High School GPA of 2.5.
EMERGING SCHOLARS: Must have a minimum GPA of 2.0.

Emerging Scholar Status
The Emerging Scholar Status provides admission for students who have indicated potential success as determined by the Office of Admissions. Students with Emerging Scholar status must adhere to specific guidelines set forth by the Division for Student Success and Retention. It is recommended that prospective first-year students should take an academic program in high school that will prepare them for a successful Bennett experience.

First time applicants with a grade point average not meeting or exceeding minimum requirements will be considered for admissions using a holistic review process. Therefore, all applications are welcomed and are subject to gaining admissions through the Emerging Scholars Program.

Secondary School Subject Area Requirements
Applicants must meet the following five (foreign language optional) secondary school subject area requirements (16 units):

<table>
<thead>
<tr>
<th>Subject Area</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>English (4 courses emphasizing grammar, composition, and literature)</td>
<td>4</td>
</tr>
<tr>
<td>Math (Algebra I, Geometry, Algebra II, Trigonometry, Pre-Calculus, or other)</td>
<td>4</td>
</tr>
<tr>
<td>Foreign Language two (2) course units (recommended, not required)</td>
<td>2</td>
</tr>
<tr>
<td>Natural &amp; Physical Science, Biology, Chemistry, Physics (at least 1 lab science)</td>
<td>3</td>
</tr>
<tr>
<td>Social Science (Government, Civics, U.S. History, World History)</td>
<td>2</td>
</tr>
<tr>
<td>Academic Electives (Physical Education, Health Education, Music, Computer Science)</td>
<td>3</td>
</tr>
<tr>
<td>TOTAL</td>
<td>16-18</td>
</tr>
</tbody>
</table>
Applicants who take the AP (Advanced Placement) exam and score a 3 or better may receive advance placement credit in the following subject areas: Art, Biology, Computer Science, Economics, French and Government and Politics. To receive credit in chemistry, history, or music a student needs to score a 4. The College Registrar will determine how much credit applicants are eligible to receive based on score.

Non-Traditional applicants who have not attempted to earn any college credits after high school are considered first time college students and must follow the First Time Applicant requirements.

**Application Procedure for Transfer Students**

A complete admissions application for transfer students consists of the following:

- A completed admissions application.
- An official transcript for each college and/or university attended.
- An official final high school transcript or GED certificate with graduation date included.

**NOTE:** All official transcripts can be received via electronic exchanges (including the National Student Clearinghouse, Parchment, Scribble, etc.); sealed transcript by a college official, or as an e-transcript that comes directly via email to Office of Admissions or Office of the Registrar.

**Application Procedure for International Students**

A complete admissions application for transfer students consists of the following:

- Official Bennett College Application.
- Official Transcript of all academic work (Translated in English) with transcript guide of secondary courses and validation of post-secondary A-1 level courses. Transcripts must be submitted to the World Education Services (WES) for verification and evaluation purposes.
- TOEFL or TOEFL iBT scores (TOEFL minimum score 550 and TOEFL iBT minimum score 79)
- Statement of Financial Readiness
  - A form I-20 will not be issued until the student has been accepted and the Statement of Financial Readiness is provided to the college.

Additionally, upon arrival on campus, all international students who are not citizens of the United States, **MUST** report to the Bennett College Office of the Registrar with an official passport, visa, and other relevant documents attesting to their status as students or visitors. Copies of documents will be made for official College use. The student may be required to complete additional documentation from the Center of Global Studies.

Applicants who are not from an English-speaking country should take the Test of English as a Foreign Language (TOEFL) and either Scholastic Assessment Test (SAT) or American College Testing (ACT) and have the results sent to the Office of Admissions. Transfer students from foreign institutions must have their transcripts evaluated by an institution that is a member of the National Association of Credential Evaluation Services (NACES). Click the following link for additional information [http://www.naces.org](http://www.naces.org).
Re-enrollment Admissions Policy
Students seeking readmission to Bennett College are required to be in good academic standing with a grade point average of 2.0 or better. The student is required to receive clearance to re-enroll in the following areas before a decision can be made: Academic Affairs, Student Experience, Health Center, Financial Aid and Business Office. All students seeking readmission to Bennett College with a grade point average below a 2.0 or who left Bennett on academic sanction must be reviewed and approved by the Admissions Committee and must clear all administrative offices listed above.

If any college coursework was attempted since last being enrolled at Bennett College, official transcripts from those post-secondary institutions must be submitted. The transcript(s) must indicate a grade point average of 2.0 or higher.

Any student dismissed for academic misconduct must submit an application for re-admission regardless of the length of time they were dismissed.

Academic Records of Returning Students
If a student who has left the college returns within a two-year period after her last semester of previous enrollment, evaluation of her academic credits from her first enrollment will reflect the requirements that were in force at the time of her leaving. If a period greater than two years has lapsed since her last semester at Bennett, her academic credit evaluation will reflect the academic requirements of the current curriculum pattern for the desired major. The student will be held to all policies and procedures as outlined in the current academic catalog.

Transgender Admissions Policy
Bennett College admits self-identified women and people assigned female at birth who do not fit into the gender binary. Within these parameters, Bennett College does not discriminate based on gender identity and expression in its admission policy, scholarship, and loan programs or in the educational program, co-curricular activities, and residential facilities. Bennett College does not accept applications from men. Those assigned female at birth who identify as men are not eligible for admission. The College will continue to use female pronouns and the language of sisterhood, both of which powerfully convey important components of our mission and identity.

Definition: Transgender describes those individuals whose gender identity is different from the sex they were assigned at birth. A transgender male is someone who identifies as male but was assigned the sex of female at birth; a transgender female is someone who identifies as female but was assigned the sex of male at birth.

- All applicants for acceptance to Bennett College must meet the requirements for admission.
- Applicants assigned a female sex at birth who have undergone a legal change in gender to male prior to the point of the application are not eligible for admission.
- Where there is a conflict between the student’s self-identified gender and the gender that appears on legal documentation such as an academic transcript or documents provided as part of the financial aid process, the student is strongly encouraged to contact the Office of Admissions for a discussion around the desire to attend a women’s college and how they self-identify in terms of gender.
Once admitted, the student must continue to self-identify as a woman throughout their matriculation at Bennett College.

If a student decides to self-identify as a male, the student will no longer be eligible to receive a degree from the College.

If, during a student’s time at Bennett College, the student decides that, as a women’s college it no longer offers the appropriate educational environment or self-identifies as a male, the College will offer guidance and resources to assist in making choices that are best for that student.

**Part-Time Students**
Students enrolled in fewer than twelve (12) semester hours are classified as part-time.

**Special and Unclassified Students**
A non-degree seeking student may enroll in courses at Bennett College as a special student. A special student can apply to change her status to that of a regular student upon the successful completion of 12 credits hours of work at Bennett College. Students who seek course credit to qualify for admission to graduate or professional school are given unclassified status.

**Notification of Acceptance**
An applicant is notified in writing of the status of her application after the receipt and review of all required credentials. Under no circumstances should applicants report for registration without having received written notification of acceptance. Upon notification of acceptance, the applicant is requested to send a non-refundable enrollment fee to secure a place in the class. Please contact the Office of Admissions for the enrollment fee amount.

**Health Records**
Prior to entering Bennett College, each student is required to submit proof of required immunizations in accordance with the North Carolina General Statutes, Article 6, Part 2: Immunizations.

The Health Center must have complete immunization records for each student including:

- Tdap Booster (tetanus/diphtheria/pertussis) – Booster, Tdap booster is not required for students over the age of 64 years.
- Please indicate the date of at least 3 DTPs (diphtheria/tetanus/pertussis) done prior to the booster.
- Polio series should be completed with 3 vaccinations.
- Record of 2 MMR vaccines for measles, mumps, and rubella. This vaccine is not required of any student born prior to 1957.
- Meningococcal conjugate vaccine for meningitis required for all freshwomen and new students (MenACWY): two (2) doses for students born after 01/01/2003. One booster dose must be after age 16.
- The PPD skin test (to rule out tuberculosis) must be placed and read before coming to campus. If PPD is greater than 10mm induration, a chest x-ray must be obtained. If the chest x-ray is abnormal, INH treatment should be initiated or other TB prophylaxis treatment.
- Hepatitis B vaccine – 3 doses required for any student born after July 1994
- Varicella – 2 doses (required if born on or after April 1, 2001).
Failure to provide immunization records will result in cancellation of registration and removal from campus.

North Carolina Community College System Articulation Agreement

Beginning in 1998–99, Bennett College accepts students from the North Carolina Community College System as transfer students to the College under the terms and conditions set forth by the Comprehensive Articulation Agreement (CAA) prepared in response to House Bill 739 and Senate Bill 1161, (1995 Session for the General Assembly).

According to the Comprehensive Articulation Agreement:

I. Bennett College agrees that any student who earns an Associate in Arts or Associate in Science degree from a member college of the North Carolina Community College System (under the terms and conditions of the Comprehensive Articulation Agreement) and who meets the College's admission standards is eligible to apply and may expect the following if admitted:

- A student who has completed the General Education Core as outlined by the Comprehensive Articulation Agreement shall be considered to have fulfilled the lower division, institution-wide general education requirements of Bennett College. To be eligible for inclusion in this policy, the student must have an overall grade point average of 2.0 and earned grades of C or better on all general education core courses.

- An additional 20–21 semester hours of approved college transfer courses or the completion of the Associate in Arts or Associate in Science degree shall be accepted as transfer credits, if successfully completed with an earned grade of C or better.

- A student who has successfully completed the Associate in Arts or Associate in Science degree with an overall grade point average of 2.0 and an earned grade of C or better in all courses shall receive 64 semester hours of credit and junior status upon admission to Bennett College.

II. Bennett College agrees that students who have attended a member college of the North Carolina Community College System without completing the degree requirements for an associate degree, but who otherwise meet the College's admission standards are eligible to apply and may expect the following if admitted:

- A student who has completed the General Education Core requirements with the proper distribution of hours as outlined in the Comprehensive Articulation Agreement but who has not completed an associate degree, shall be considered to have fulfilled the lower division, institution-wide general education requirements of Bennett College. To be eligible for inclusion under this policy, the student must have an overall grade point average of 2.0 and earned grades of C or better on all general education core courses.
A student who has completed any part of the General Education Core shall receive transfer credit for those general education courses that have been satisfactorily completed with a grade of C or better. Note: Study area of History/Philosophy/Religion (3 semester credits) is a course requirement for graduation for all students including transfers from the North Carolina Community College System.

Credit by Examination and Prior Learning
Bennett College welcomes students to use credit by examination and extra-institutional credit to help advance their academic career. Students are responsible for registration and completion of Credit by Examination and Extra-institutional Credit. All scores and transcripts must be sent to the Office of the Registrar. Minimum scores and grades for credit will be determined by the respective organization. Earned credit will be marked on the student’s transcript with a grade of ‘TR.’ Credit by examination and extra-institutional credit will not impact a student’s GPA. Students can complete a total of 24 hours between credit by examination and extra-institutional credit.

Advanced Placement (AP)
Through the College Entrance Examination Board, high school students can earn college credit through exam scores following the completion of college-level courses through their high school. Students must earn scores of 3 or higher. Earned credit is assessed in conjunction with Advanced Placement Program standards.

International Baccalaureate (IB)
Through the International Baccalaureate Organization's Diploma Program, high school students complete a two-year program culminating in examinations. Students receiving grades of 5 or 6 are eligible for college credit.

College Level Examination Program (CLEP)
CLEP allows current and incoming students to demonstrate prior knowledge in provided subject areas. The awarding of credit is determined by the American Council on Education's (ACE) recommendation for the subject area.

Extra-institutional Credit
Extra-institutional Credit represents collegiate level work offered by non-accredited and non-degree awarding organizations. Examples include Sophia Learning and StraighterLine. The organizations must be evaluated by the American Council on Education to offer college level credit. Credit is offered not by examination but through classes and coursework. Students are responsible for enrolling, completing, and submitting transcripts to the Office of the Registrar for all Extra-institutional Credit. Students must earn the equivalent of a C grade through the extra-institutional organization to receive credit on the transcript. Students can receive up to 15 hours of credit from extra-institutional organizations.

Credit for Prior Learning: Experiential Learning (CP)
Bennett College places experiential education and learning at the center of every student’s time at Bennett. As defined by the Association of Experiential Education, “Experiential education is a philosophy and methodology in which educators purposefully engage with learners in direct experience and focused reflection in order to increase knowledge, develop skills and clarify values.”
The program will approve or disapprove the student based on certain criteria: sophomore status, completion of core English and Math courses and good academic standing.

The program will provide clear written guidelines for portfolio (documentation of the college level learning gained from experiences through paid and unpaid work, community, and other activities outside of the traditional classroom setting) for students granted permission. Upon successful completion of portfolio, the student will be granted the appropriate credits and a grade of CP. The grade of CP will count towards credits earned only. A student cannot earn more than the maximum number of credits as set in the policy for Credit for Examination & Prior Learning.

We heavily emphasize experiential learning (service-learning, internships, study away and undergraduate research) as an essential component of the Bennett experience.

A successful experiential learning program provides the following:

- A solid basis for career/vocational decisions.
- Broader perspectives about the communities in which they live, local, national, and global.
- Integration of intellectual knowledge, “real world” experience and self-understanding.
- Skills for reflection.
- Connections to Bennett’s mission to “promote positive change in the world” as well as to the Core Values.
- Demonstrated competence in “real world” settings.

Payments
Bennett College requires promptness in the payment of student accounts. Statements of accounts are accessible via SONIS. Payment of a student's fees should be in the form of a cashier's check, certified check, money order, cash, or debit/credit card. The full name
of the student and her Identification Number should be included in any form of payment. MasterCard, Visa, AMEX, and Discover payments may be made via SONIS by logging into the student’s account or through the Office of Business and Finance either by telephone or in person.

Students are required to pay the balance of their semester costs (reduced by the payment plan and expected financial aid) prior to registration. If a student does not satisfy her financial obligation to the college, her schedule will be purged before the start of the semester. Each student is responsible for any balance on her account during the semester. No student who has an outstanding balance will be permitted to register for a subsequent semester. In no case can a student receive a diploma, a transcript, or a statement of honorable separation from the College before satisfactorily settling all her accounts with the College. Fees and expenses for room and board have been determined based on present conditions. The College reserves the right to make increases during the year if warranted by economic conditions.

A student is required to acknowledge in writing that her student account at Bennett College is in her name and is ultimately her financial responsibility. Furthermore, she must understand that any amount uncollected when she leaves the College could be subject to collection fees.

***ALL FEES MUST BE PAID BEFORE A STUDENT RECEIVES OFFICIAL TRANSCRIPTS.***

**Bennett College Tuition Payment Plan**

Student Accounts Webpage

Many parents and students seek convenient payment plans to meet the cost of college tuition and fees. To respond to the inquiries and needs of each family, Bennett College offers the Bennett College Tuition Payment Plan. Features of this installment arrangement include the following:

- Parents and students decide, in advance, on the amount to be paid in installments, in accordance with a defined payment schedule.
- Payments received will appear on the student’s account.
- The amount NOT covered by either the monthly payment plan or financial aid is payable prior to registration for each semester.
- The processing fee for this plan is $55 per semester.
- No credit reference is necessary for participation in this payment plan; however, failure to honor the agreement can result in forfeiture of this privilege.

For more information and to enroll, go to: mycollegepaymentplan.com/bennettcollege/

**First Year and New Students**

How to Apply Webpage

First-year and new students are required to pay a non-refundable enrollment deposit that should be submitted via SONIS. The deposit will be applied to the student's account and will reduce the amount due for the first semester. Please contact the Office of Admissions for the enrollment fee amount.
Returning Students: Students who plan to live on campus must pay the non-refundable $100 housing application fee no later than April 30 for the upcoming academic year.

Student Health Insurance
As required by the Federal Affordable Health Care Act all students must purchase Health Insurance if they are not already covered by an appropriate plan. An electronic waiver process is available at the following link: https://bennett.myahpcare.com/. The required plan covers preventive and emergency care for the entire year for students on and off campus. The Health Center is responsible for providing information about the Affordable Health Care Act and the plan available at Bennett College, as well as referrals to local healthcare providers.

Student Activity Fee
Some student organizations have established an activity fee for each student in the College (included in the comprehensive fee). Funds from the activity fee are managed by the elected student leaders of the College under the direction of the Division of Student Affairs.

Residence Halls
The Office of Residence Life assigns one student to a room. Students living in the residence halls are required to pay a $100 nonrefundable application fee each year. Any room damage caused by the student are charged to the student’s account and must be paid to register for future semesters or to graduate.

Student Teaching
Seniors are reminded that each student is personally responsible for the personal expenses of her student teaching experiences, including transportation and incidentals. Additionally, a fee is required for the Praxis II Examination.

Course and Laboratory Fees (where applicable)
Additional fees may be charged for courses in the following areas: art, biology, physics, chemistry, social work, education, physical science, physical education, and psychology. These fees are required to offset the additional costs related to certain courses. Course fees are 100% refundable through the end of the drop/add period (as indicated in the academic calendar), after which they are nonrefundable. These fees are outlined in the following list:

<table>
<thead>
<tr>
<th>Area</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biological Science</td>
<td>Up to $20.00</td>
</tr>
<tr>

<td>$20.00</td>
</tr>
</tbody>
</table>

NOTE: Academic related fees are subject to change upon notice.
**Charges for a Course Overload**

Charges for a course overload cannot be changed after the Drop/Add period even though the approval to drop a course has been received.

**Refunds for Tuition and Fees**

Bennett College will grant refunds to students provided the following conditions are satisfied:

- all financial obligations are met; and
- all payments applied to the student’s accounts create an overpayment (credit balance).

Under no circumstances will a refund be issued outside of the above conditions. Refunds from scholarships, grants, etc., will be made within the agency guidelines for issuance of refunds. A refund via the BankMobile will be issued after all obligations are cleared. All students receiving a refund will be required to register with BankMobile on our Student Refunds webpage.

Refunds recipients with PLUS loans will receive their payment via a check issued by BankMobile and mailed to the parent borrower’s address.

All withdrawals from the College must be made through the Office of the Registrar. After the official withdrawal, any applicable tuition refund will be made. The tuition refund (cost of attendance credit) shall be made in accordance with the following schedule:

<table>
<thead>
<tr>
<th>Timeframe</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>First Two Weeks</td>
<td>90% Credit</td>
</tr>
<tr>
<td>Three to Four Weeks</td>
<td>50% Credit</td>
</tr>
<tr>
<td>Five to Eight Weeks</td>
<td>25% Credit</td>
</tr>
<tr>
<td>After Eight Weeks</td>
<td>NO CREDIT</td>
</tr>
</tbody>
</table>

For students living on campus, charges for a minimum of three weeks board and lodging will be assessed regardless of the date of withdrawal.
Financial Aid

The Office of Financial Aid is a provider of accessible and affordable education experiences to students by offering a variety of financial opportunities.

The purpose of the Bennett College Office of Financial Aid is to assist students and their families with locating the resources necessary for financing their education. The Office of Financial Aid administers need-based and non-need-based funds in the form of grants, scholarships, loans, and work-study. These funds originate from federal, state, private, institutional, and other sources.

Applicants seeking financial aid must submit the Free Application for Federal Student Aid (FAFSA). The Free Application for Federal Student Aid opens annually on October 1. The priority deadline to submit the application is March 1st of each year. The application can be completed online at https://studentaid.gov/.

Electronic processing of the FAFSA generally takes 3 to 5 business days. After this time, you should receive a current Student Aid Report (SAR) from the Department of Education. Bennett College must be listed on your FAFSA for the Office of Financial Aid to receive your ISIR (Electronic SAR). Bennett College’s Title IV school code is 002911.

Physical Address/Location
Bennett College Office of Financial Aid
Enrollment Management Center 601 Gorrell Street
Greensboro, NC 27401
Enter the Campus through Gate 6.

(336) 517-2222 – office (336) 517-2204 – fax financial_aid@bennett.edu

We strongly encourage students and/or families to schedule an appointment.

Mailing Address
Bennett College
Office of Financial Aid
900 E. Washington Street Greensboro, NC 27401

Eligibility Criteria

Eligibility for financial aid is determined by the U.S. Department of Education from information provided on the FAFSA which is often referred to as the need analysis document. A need analysis is a systematic method of measuring the ability of the student to pay for educational costs and student’s eligibility to receive funds from federal, state, institutional, and/or other need-based financial aid programs. The FAFSA is the first step of the financial aid process. A completed FAFSA application is required to receive a financial aid award letter from Bennett College.

Cost of Attendance

Cost of Attendance is defined as the total cost of attending college to include tuition, fees, room, board, books and supplies, transportation, and miscellaneous expenses. For questions about tuition and fee schedule (tuition, fees, room, and board) contact the Office of Student Accounts, (336) 517-2121. Please refer to the Bennett College website for the most current cost of attendance information.
**Deadlines**

*Interested students can apply for federal student aid as early as October 1\textsuperscript{st} annually. We recommend that the FAFSA application be completed using the IRS data retrieval tool. Using the IRS data retrieval tool will allow the information listed on the federal tax return to be imported into the FAFSA application. The IRS data retrieval tool is the most efficient way to complete the FAFSA.*

For financial aid packages to be processed in a timely manner, prior to enrolling at Bennett College, it is imperative to adhere to the timeline. The deadlines below are strictly enforced as there are some programs that are based on funding availability, *e.g.*, SEOG, Work Study, State Programs, etc.

To receive the maximum possible award, please complete the FAFSA and submit all the requested documents by the annual priority deadline of March 1\textsuperscript{st}. Students selected for verification may be required to submit their tax transcripts to the Office of Financial Aid. Transcripts can be ordered by calling the Internal Revenue Services (IRS) at 1-800-908-9946 or visiting their website at www.irs.gov.

**Application Procedure**

Each student must complete the FAFSA and sign the application electronically with her FSA ID and password. The custodial parent, if the student is classified as a dependent student, will also need to sign the FAFSA using their FSA ID and password. Please follow the three steps below to complete the FAFSA application process.

- Complete the FAFSA at [https://studentaid.gov/](https://studentaid.gov/).
- Submit completed forms as requested by the Office of Financial Aid

**Types of Aid**

**Grants** — Grants are classified as “free money” or forms of financial assistance that do not have to be repaid. Grants are often based upon funding availability, financial need, merit, and academic progress. Federal and state grants are the two types of grant opportunities.

**Scholarships** — Scholarships are also classified as “free money” or forms of financial assistance that do not have to be repaid. Scholarships are often based upon criteria set by the donor, unmet need, merit, and funding availability. Scholarship inquiries for new students should be directed to the Office of Admission and inquiries for continuing students should be directed to the Office of Financial Aid.

**Work Study** — Work Study is a form of financial assistance awarded through on or off campus student employment opportunities. Interested students should complete the FAFSA as early as possible. Work Study is awarded based on eligibility and availability of funds.

**Loans** — Student loans are forms of self-help financial assistance that must be repaid.
Student loans are completely optional and are often used to aid in meeting the cost of attending college. Federal loans are available regardless of income level or credit history. Students and parents should always exhaust federal loan options first before considering a private loan.

**Federal & State Grants**

Federal Pell Grant — The Federal Pell Grant program is a federal grant funded through the United States government made available to all undergraduate students who demonstrate financial need. Eligibility and financial need are determined through successful completion of the Free Application for Federal Student Aid (FAFSA). Federal Pell Grants are the “foundation” upon which all other financial aid is awarded. The maximum annual amount for aid depends on the federal budget approved by Congress. Students must be U.S. citizens or eligible non-citizens either enrolled or planning to enroll for the upcoming term. There is a standard formula established by Congress used to evaluate the information reported on the FAFSA. The Expected Family Contribution (EFC) number recorded on the FAFSA determines the award amount. Federal Pell grants are a source of financial assistance that does not have to be repaid.

Federal SEOG Grant (FSEOG) — The Federal SEOG is gift assistance awarded to eligible undergraduate students pursuing their first bachelor's degree and demonstrating significant financial need. FSEOG is awarded to students who meet federal eligibility requirements.

Priority award consideration is given to students who:

- are Pell recipients or Pell eligible and have financial need
- meet other need related factors as defined by the current year packaging parameters.
- FSEOG is awarded to eligible students until funds are exhausted.
- Annual eligibility is packaged equally between fall and spring terms and cannot be combined.
- FSEOG is not awarded during the summer term unless funds are available.
- Current year packaging parameters pertaining to EFC and minimum and maximum awards based on federal guidelines.
- Annual FSEOG awards are calculated for the standard academic year based on annually updated eligibility data.
- Single term students are identified during awarding periods via system query and manually adjusted as appropriate.
- Enrollment and award amount are confirmed at census.

Federal TEACH Grant — Through the College Cost and Access Act of 2007, Congress created the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program that provides grants of up to $4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. Interested students must complete the FAFSA, be a U.S. Citizen or eligible non-citizen, maintain a cumulative grade point average of 3.25, and sign a TEACH agreement. If the student fails to complete the service obligation, the TEACH grant will be converted into a Federal Direct Unsubsidized Stafford Loan. The loan will then have to be repaid and interest will be charged from the disbursement date of the grant.
North Carolina Need Based Scholarship (NCNBS) — The NCNBS grant is available to North Carolina residents, who are enrolled or planning to enroll in college. The NCNBS program is a need-based scholarship contingent upon funding availability and early completion of the FAFSA.

DC TAG Grant — The DCTAG grant is available to students from the District of Columbia in the amount of $2,500 annually. The deadline is June 30 each year. For more information, please visit the Web site made available by the Office of the State Superintendent at www.osse.dc.gov.

DC Achievers Scholarship — The DC Achievers Scholarship Program is a multifaceted scholarship program that supports students from six high schools in Washington, DC with a high percentage of low-income students. It is funded by a grant from the Bill & Melinda Gates Foundation. The first cohort of applicants was selected in 2007 and entered college in 2008. Achievers Scholars receive support services while in high school and through their college career. For more information, please visit www.collegesuccessfoundation.org.

DC CAP Grant — The DC CAP grant is available in the amount of $2,000 to students who graduated from a D.C. public high school. The high school guidance counselor coordinates the process.

Scholarships
Scholarships are forms of “free” money that do not have to be repaid. Bennett College currently offers four types of scholarships: Institutional Scholarships, Endowed Scholarships, Restricted Scholarships and Non-Endowed/External Scholarships. Scholarships at Bennett College are donor specific and are awarded to students based on criteria. Scholarships are awarded as merit and/or unmet need.

United Negro College Fund
Bennett College is a United Negro College Fund affiliated institution; therefore, our students are eligible to apply for scholarships by creating a profile and completing an application at www.uncf.org/scholarships. Prospective student institutional aid awarded through Bennett College is determined by the Office of Admission where your SAT/ACT scores are recorded and your grade point average from high school is on file. You may call 1-800-413-5323 for further information regarding the process. If you are deemed eligible for a scholarship, the Office of Admission will forward your scholarship award to the Office of Financial Aid for inclusion in your award letter. If it is determined that you are a recipient, the scholarship award will be included in your financial aid offer letter or in some cases, a revised award offer letter.

Continuing student scholarships awarded through Bennett College will become available after final grades have been submitted and classifications have been confirmed through the Office of the Registrar. Please note that your academic progress and funding availability will determine your eligibility for “institutional” scholarships. Institutional scholarships are also prorated for students who choose to live off-campus. On Campus students receive the full amount of eligibility. All Institutional awards are considered “discounted” scholarships that are based on funding availability. Please check your Bennett email as we will send electronic announcements regarding scholarship opportunities that require an application.
Work Study
Federal Work Study (FWS) consists of student employment opportunities throughout the campus. Work Study at Bennett College is a form of campus-based financial aid where funding availability and FAFSA eligibility determine the recipients. Federal Work Study provides part-time jobs for undergraduate students with financial need, allowing them to earn money to help pay education expenses. The program encourages community service work and work related to the recipient's course of study. The FAFSA serves as the application. Student recipients are compensated once each month at a rate of $10.00 per hour.

All Federal Work Study recipients are notified through their financial aid award offer letter. Further contact will be made from the Work Study Coordinator to complete the necessary forms prior to participating in the program.

Loans
Federal loans allow students and their parents the opportunity to borrow money to help pay for college through programs supported by the federal government. Bennett College currently participates in the William D. Ford Federal Direct Loan Program. Federal loans offer borrowers benefits that are not typically found in private loans, which includes low, fixed interest rates, income-based repayment plans, loan forgiveness, deferment, and forbearance options.

Federal loans are available regardless of income level or credit history. Students and parents should always exhaust federal loan options first before considering a private loan. Completion of the FAFSA is required to apply for federal loans.

Types of Federal Loans
There are currently three types of federal loans available to assist students with paying for college. The three types of loans consist of Direct Subsidized Loans, the Direct Unsubsidized Loan, and the Direct PLUS loan (Parent Loan for Undergraduate Students). Each student is required to complete a master promissory note and a loan entrance counseling session upon accepting a federal loan as a first-time borrower. In addition, prior to separating from the college through withdrawal, transfer, or graduation, the student is required to complete a loan exit counseling session.

Direct Subsidized Loan
The Direct Subsidized Loan program is a need-based loan made available to students as a means of financial aid to help cover the cost of attendance. Direct loan amounts are determined based upon student enrollment and classification. The repayment begins six months after separation or graduation from college and if the student falls below half-time status. The government pays the interest on the subsidized loan while the student is enrolled. A credit check is not required for this loan; however, completion of the FAFSA serves as the application.

Direct Unsubsidized Loan
The Direct Unsubsidized Loan program is a loan made available to students as a means of financial aid to help cover the cost of attendance. Direct loan amounts are determined based upon student enrollment and classification. The repayment begins six months after separation or graduation from college. The student is responsible for the interest, which may be paid while the student is in school or accrued and then added to the principal balance when the student enters repayment. A credit check is not required for this loan, however completion of the FAFSA serves as the application.

Direct PLUS Loan
The Direct Plus Loan program is a Parent Loan program for Undergraduate dependent Students. PLUS loans are means of financial aid that allow the parent to borrow money to help the student pay the cost of attending college. PLUS loans require a credit check and, in some instances, an eligible co-signer. The repayment begins following the final disbursement for the year. Parents have the option to defer payment on the loan until after the student graduates. Interested parents must initiate the deferment request with Direct Loans. The amount of the PLUS loan cannot exceed the annual cost of attendance. If the parent is denied the parent plus loan due to credit, the student will become eligible to receive an additional unsubsidized loan in her name.

</tr>
</tbody>
</table>

The parent must provide documentation from the lender before an additional unsubsidized loan is offered to the student. The additional unsubsidized loan amounts are $4,000 for first- and second-year students and $5,000 for third- and fourth- year students.

Additional unsubsidized loans are available only to dependent students whose parent is denied the parent plus loan due to adverse credit or independent students.

Satisfactory Academic Progress (SAP)
In regulation Section 668.32, the U.S. Department of Education revised the requirements for Colleges & Universities to define and administer Satisfactory Academic Progress (SAP) standards for students receiving Title IV Federal Financial Aid. As required, the Bennett College SAP policy for Title IV students is the same as or stricter than the school’s standards for students enrolled in the same educational program who are not receiving Title IV aid. Aid recipients must maintain sufficient progress to assure successful completion of their educational objectives as measured by quantitative and qualitative standards. The Office of Financial Aid (OFA) is responsible for ensuring that all students who receive federal financial aid meet these standards. The College is responsible for conducting reviews at the end of every semester of its SAP Policy to ensure federal
compliance and dissemination to students. This policy utilizes up to 150% of total time for acquisition of the baccalaureate degree, a semester review cycle for eligibility and utilizes quantitative and qualitative measures of progress. To ensure Satisfactory Academic Progress, students must meet all the following standards and requirements.

I. Satisfactory Progress Requirements

Parameters:

- Minimum Cumulative Grade Point Average (GPA)
- Minimum Completion Standard for Attempted Credit hours
- Maximum Time Frame for Degree Completion

These requirements apply to the following programs: The Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant, the Federal TEACH Grant, Federal Work Study, Direct Loans, Federal Parent PLUS Loans, and all Institutional Aid. Bennett College also uses this standard to renew need-based aid. Recipients of DC, PHEAA, Rhode Island and NC Grant aid must also follow certain academic progress guidelines. Bennett College’s SAP policy meets the requirements of both federal and state agencies.

II. Qualitative and Quantitative Minimum Academic Standards

Qualitative Standard

Minimum Grade Point Average 2.0 (GPA) — Non-remedial coursework assigned with a letter grade of A, B, C, D or F contributes to the cumulative GPA. Students who have 25 or more attempted credit hours (excluding remedial coursework) must maintain a minimum 2.00 cumulative grade point average measured on a 4.00 scale at the end of each semester. Achieving a GPA of less than 2.0 will result in academic/financial aid warning the next term of enrollment.

The warning status will be removed when the student's cumulative GPA is 2.00 or higher at the end of the next term. Warning status will change to ineligible status if the student’s cumulative GPA is less than a 2.0 at the end of the next term. NOTE: Remedial coursework does not count in the GPA. Financial aid may be granted for up to thirty (30) credit hours of remedial coursework if the student is meeting all other standards. However, remedial courses are included in the quantitative calculation.

Quantitative Standard

Completion Standard for Attempted Credit Hours — Students are expected to complete and pass 67% of their cumulative attempted hours. Completing less than 67% of the cumulative attempted hours will result in a financial aid warning for the next term of enrollment. The warning status will be removed if the student completes 67% of their cumulative hours by the end of the next term. If the student still has not completed and passed 67% of their courses, they will become ineligible for financial aid. Courses assigned a letter grade of A, B, C, D, F, I, S, U, W or WP count in quantitative and maximum time frame calculation, as do transfer credits accepted toward degree programs and any repeated coursework.
Maximum Time Frame — Students who are receiving financial aid are expected to complete all requirements for a bachelor’s degree within a maximum timeframe of attempted program hours. A student reaches maximum timeframe after having attempted the credit hour equivalent of 150% of the program hours required for the current degree or certificate. The student will be INELIGIBLE for Financial Aid if unable to finish the degree or certificate program within the maximum timeframe. The student has the option of appealing the INELIGIBILITY (see section under Appeal and Reinstatement).

Withdrawals (W’s), Withdrawals W/o Penalty (WP’s), Incompletes (I’s), and Repeats — Withdrawals, WP’s, incompletes, and repeated courses will not be exempt from the calculation of attempted hours. Students will be required to complete the minimum number of credits as outlined in the above chart.

Remedial Coursework — Students may receive financial aid for up to thirty (30) credits of remedial coursework. The first 30 credit hours are excluded in determining maximum timeframe. However, remedial courses are included in the quantitative calculation.

Transfer/Second Degree/ Second Major /Consortium Coursework — Many students transfer to Bennett College. Only the credits transferred in count toward the maximum timeframe; we do not count the grades on those transfer credits toward the qualitative measure.

Many students return to Bennett for a subsequent degree and/or obtain a second degree. In many cases a portion of the earned credits from the first degree(s) count toward the subsequent degree. This transfer of earned credits reduces the number of credits the student will need to earn to complete the subsequent degree objective. Consequently, this also reduces the maximum time-frame applicable to the subsequent degree.

To determine the maximum timeframe for the subsequent degree, determine the number of credits in the subsequent degree program and multiply this figure by 1.5. Determine the number of credits from the previous degree(s) that transfer to the subsequent degree. The transferred credits are subtracted from the calculated number (program credits times 1.5) that constitutes 150 percent of the subsequent program. The result is the student’s remaining maximum time frame eligibility for the subsequent degree.
Many students attend multiple institutions under a consortium agreement. When a student’s program includes attendance at multiple institutions, it is the responsibility of the college that provides federal student aid to track the student’s satisfactory academic progress. In this case Bennett would track the progress during the Fall & Spring terms when aid is offered.

**Summer Semester** — Coursework taken during the summer semester is counted in the qualitative, quantitative, and maximum time frame standards.

**Minimester** — Coursework taken during the Minimester is treated as any other semester and is counted in the qualitative (GPA), quantitative (completion rate), and maximum time-frame standards along with the Fall, Spring and Summer semesters.

**Federal Return of Funds** — Federal financial aid recipients who withdraw or stop attending all classes before the 60 percent point in the term will owe money back to the federal government and/or Bennett College.

### III. Penalty for Failure to Meet Financial Aid Satisfactory Progress Standards

Students failing to meet the standards described in Section II for minimum hours completed and or minimum grade point average will be placed on Financial Aid **WARNING** for one semester. At the end of that semester, if the student has not met the minimum requirements, the student will be **INELIGIBLE** to receive student aid.

Students who are **INELIGIBLE** will be denied aid for a period of at least one semester. Reinstatement will be contingent upon attainment of satisfactory progress standards described in Section II by using the student’s own resources or an appeal and acceptance of an Academic Plan through the Academic Advising unit at Bennett College. Students will be notified in writing when they are in either Financial Aid **WARNING** or **INELIGIBILITY** status. Where unusual circumstances exist, students may appeal when **INELIGIBLE** as described in Section IV.

**Appeal of Financial Aid Ineligibility**

The Financial Aid Satisfactory Progress requirements may be waived under certain conditions and/or mitigating circumstances such as injury to the student, illness of the student, death, or illness of a relative of the student, or other special circumstances. If these mitigating circumstances exist, the student should appeal the **INELIGIBILITY** status & accept an Academic plan.

A student wishing to appeal when deemed **INELIGIBLE** for Financial Aid should submit a completed Financial Aid Appeal Form, accept an Academic plan, and submit any other supporting documents (letters, and/or invoices from doctors and/or hospitals, affidavits) to the Office of Financial Aid. Given the importance of such an appeal, original materials must be sent by regular mail, fax, or scanned and sent electronically. Students may also bring original documents to the Office of Financial Aid. All appeals materials must be received by the Office of Financial Aid by the close of business fifteen (15) working days, after receipt of the notice of suspension.

A list of possible circumstances and suggested documentation to substantiate them are listed below. Please note, this list is not exhaustive. If you provide circumstances and documentation not mentioned, your appeal will be considered just the same. Additionally, providing a mitigating circumstance with supporting
documentation from the list below does not guarantee approval. All appeals are reviewed on a case-by-case basis for legitimacy and merit.

</tbody>
</table>

Examples of Unacceptable Circumstances (included but not limited to):

- Need for Financial Aid
- Withdrawal to avoid failing grade.
- Too many courses attempted due to change in major.
- Repeating courses for better grade to be accepted into different major.
- Limited number of tests/assignments
- Disagreement with instructor
- Voluntary change in work hours

**Reinstatement of Financial Aid**

A student deemed **INELIGIBLE** for Financial Aid may apply for reinstatement of financial aid & be placed on **FINANCIAL AID PROBATION** when one of the following conditions prevails:
• The INELIGIBILITY has been successfully appealed and the student has accepted an Academic Plan as outlined in Section III; or

• The student has earned the minimum GPA and hours needed to meet the Satisfactory Progress of requirements as described in Section II and/or is adhering to the Academic plan.

In addition, students may be able to increase their GPA by successfully completing courses at Bennett College without financial aid. The Office of Financial Aid will notify the student in writing of the SAP Appeal decision. The decision of the SAP Appeal is final.

Reports will be run each semester to determine Satisfactory Academic Progress for students receiving financial aid. Information concerning Satisfactory Academic Progress will be maintained in the student’s file. Students may appeal one time per academic school year while enrolled.

Withdrawals

Return of Title IV Funds, Refunds, and Withdrawal Policy

All schools that administer Title IV funds must adhere to the various rules and regulations concerning the Return of Title IV Funds (R2T4). The student must meet the eligibility requirements to be determined to be a Title IV recipient. After determination has been made that the student is a Title IV recipient, or has met the conditions for a late disbursement and funds have in fact disbursed, the institution, Bennett College, proceeds to enforce the following policy:

If a recipient of Title IV aid withdraws during a payment period (or a period of enrollment), the college calculates the amount of Title IV aid the student did and did not earn. Unearned Title IV funds are returned to the Title IV programs as soon as possible, but no later than 45 days after the date of determination of withdrawal. Students who are subject to verification are required to complete the verification process prior to withdrawal. The Process: When a student withdraws, the student is sent to the Office of Financial Aid with a withdrawal form issued by the Office of the Registrar to obtain a signature and complete a loan exit counseling session (if the student has loans). A copy of the form is maintained in the financial aid file of the student.

The official withdrawal form is then completed by other departments on campus and returned for confirmation to the Office of the Registrar. A calculation is completed based on the official withdrawal date and the unearned funds are returned to Title IV programs. Title IV programs and proceeds with the removal of the funds from the student’s account. The Office of Financial Aid will send written notification to the student reflecting the amount of aid that has been returned and a printout of the calculation is kept in the financial aid file of the student.

According to federal regulations, the Return of Title IV Funds (Return) regulations do not dictate an institutional refund policy. Instead, a statutory schedule is used to determine the amount of Title IV funds a student has earned as of the date he or she ceases attendance. The amount of Title IV program assistance earned is based on the amount of time the

student spent in academic attendance; it has no relationship to the student’s incurred institutional charges.

Refunds for official withdrawal from Bennett College are prorated based upon the percentage of weeks enrolled. Up through the 60% point in each payment period or period
of enrollment, a pro rata schedule is used to determine the amount of Title IV funds the student has earned at the time of withdrawal. After the 60% point in the payment period or period of enrollment, a student has earned 100% of the Title IV funds. No refunds are made for official withdrawals after 60 percent of the enrollment period has passed.

A school must return Title IV funds to the programs from which the student received aid during the payment period or period of enrollment as applicable, in the following order, up to the net amount disbursed from each source:

- Unsubsidized Direct Loans (other than Direct PLUS Loans)
- Subsidized Direct Loans
- Direct PLUS Loans
- Federal Pell Grants for which a return of Title IV funds is required.
- FSEOG for which a return of Title IV funds is required.
- TEACH Grants for which a return of Title IV funds is required.
- Iraq and Afghanistan Service Grant, for which a return of Title IV funds is required.

Academic Support Services

Library Services

Thomas F. Holgate Library

The Thomas F. Holgate Library, named for a former trustee of Bennett College, was built in 1939 as a gift of the General Education Board of the United Methodist Church. Holgate Library seeks to accommodate the educational programs, philosophy, mission, goals, and objectives of the College. In that regard, the College has made constant efforts to provide and maintain a balanced library program that fosters and aids the promotion and achievement of academic, professional, and personal excellence. The library building has undergone one minor renovation in 2004 and another major renovation in 2018 with an improved floor layout with input from the campus community via focus groups and surveys conducted by Dr Chow, UNCG Graduate Library School professor.

Thomas F. Holgate Library houses physical collections totaling over 153,787 print volumes and provides access to 270,418 eBooks via NCLive, Ebsco Host, ProQuest, Gale eBooks, NCLive Homegrown Collection and JStor covering all disciplines, 86 Databases for research and discovery, 20 periodical hard copy subscriptions, 26,235 journal titles with full text access via NCLive and an in-house media collection of over 2,400 items. To further augment the research and study process the library also provide, access to scholarly information via electronic media, Credo an encyclopedia database including 6,500 reference ebooks, and Ebsco discipline specific databases: Communication & Mass Media Complete, MLA International Bibliography, SociINDEX with full text, Psycinfo, Family & Society Studies Worldwide, Race Relations Abstracts, Violence & Abuse Abstracts, Child Development and Adolescent Studies. There is also access to 47,738 titles and 339,868 segments of streaming educational videos and documentaries for adult education and newly added 12,059 streaming video with 12,732 segments for kids via Films On Demand and NCLive Video. Holgate Library is home to several special collections: Robert Tarpley Taylor Music Collection, Women’s Collection, Unique Collection by and about Black’s Collection, JBC Collection (Johnnetta Betsch Cole Collection), and the Bennett College Archives which include; Chronicles of Bennett College history, Norris Wright Cuney Collection, Greensboro TRC (Truth and Reconciliation Collection), Jesse Lee Dickon Collection, Constance Hill Marteena Collection, Six African American Institutional Consortium 1968-1973 Collection, United Methodist Church Journal & Book Collection. Also, there is a special collection space for Teacher Education Instructional Materials, Social Work, Journalism and Media Studies, STEM and leisure reading materials on the library’s main floor. Patrons may also pick up duplicate copies of books from the libraries give away corner.

Library Technology Use Policy and Procedure

In support of the College’s mission of teaching, learning, and service, Holgate Library is equipped with up-to-date technology including wireless Internet access, 12 workstations/6 desktop computers, and 4 notebook computers for checkout and use in the library, 5 iPads for student checked for travel, 10 iPad for course related instruction. Computers and networks can provide access to Holgate Library resources on and off campus via NcLive Proxy Server, as well as the ability to communicate with other users worldwide. Such open access is a privilege and requires individual users to act responsibly. Operational hours are posted on the Holgate Library website.
Purpose

This Policy prohibits unacceptable uses of Bennett College library computers and educates users about their responsibilities.

User Eligibility, Rights & Responsibilities

The library computers are openly accessible and available on a first-come, first-served basis to students, faculty, and staff. The use of computers in the Holgate Library is a collective privilege, not an individual right. It is the objective of the library staff to maintain an atmosphere of constructive learning, academic freedom, and proper asset management and control. All users must abide by the established guidelines of the computer use agreement. Use of Library computers constitute acceptance of the agreement.

User Agreement:

- No person may use Library computer resources for any illegal or unauthorized act. Specifically, individuals may not use computer resources to violate any state or federal laws or any regulation of Bennett College including, but not limited to, any laws and regulations governing the creation, dissemination, or possession of pornography or other illegal documents or images; the possession or use of programs, files, or instructions for violating system security and the violation of copyright law.

- Changing, modifying, or eliminating Library computer configurations and loading any application or program software onto the library computers is prohibited.

- All hardware and software malfunctions must be reported to the library staff immediately.

- Internet computers are in a public environment and privacy is not guaranteed.

- Inappropriate use of computers can result in the revocation of privileges.

Penalties

Violations of these policies incur similar disciplinary measures as violations of the Bennett College Code of Ethics and Code of Conduct as cited in the Bennett Belle Student Handbook or state or federal laws, including criminal prosecution as appropriate.

Consortium Privileges

Holgate Library has a borrowing agreement with all members of the Triad Academic Library Association (TALA) libraries, enabling students and faculty in good standing at their home institutions to borrow from participating libraries. **Lending privileges** vary by institution. The agreement allows for students and faculty from each institution to borrow in person from the other institutions, and is a complement to Interlibrary Loan, used when students and faculty want to borrow from those collections but prefer the convenience of Holgate Library.

**Participating Libraries**

- Alamance Community College
- Bennett College
- Elon University
Before traveling to a participating institution, contact your home library to inquire about restrictions and policies in place. Call ahead to verify your eligibility to gain access to what you seek at the library you plan to visit.

**Academic Auxiliary and Support Programs**

**Academic Computing**

Academic Computing at Bennett College includes all aspects of the use of computers in the learning and teaching process. Students, faculty, and staff have access to a wide variety of resources for academic computing for classroom teaching, investigations, tutorial assistance, testing, bibliographic searches, data analysis, and preparation of reports, electronic mail, and access to the World Wide Web. Faculty use computers in the delivery of instruction during the class period and in making a variety of assignments.

**Computer Lab Rules**

The computer lab is designated as a study area for academic purposes.
Center for Global Studies

The Center for Global Studies is located on the 2nd floor of the Julianne Malveaux Journalism Building. The Center oversees all aspects of international education for the College and is designed to promote a global perspective throughout the Bennett community. Although the College has had a long history of international engagement, the Center is reenergizing the commitment to internationalize the campus and its curriculum. Rooted in social justice and civic engagement, the Center develops students, faculty, and staff as curious, engaged global citizens.

Global Studies Minor and Certificate

The Global Studies Minor and Certificate are programs designed to provide an interdisciplinary and global perspective on the arts, the humanities, the social sciences, the sciences, and mathematics. Both the Minor and Certificate are flexible and designed to complement majors and minors across the College, affording students the opportunity to reach beyond their majors or to take courses related to their majors outside of the context of the United States. The Certificate and the Minor will be useful for students in a variety of disciplines, particularly fields with international, multicultural, and regional content. The program will also enhance the prospects of those students pursuing further academic studies in fields such as business, law, education, sociology, social work, psychology, political science, international relations, languages, literature, the arts, as well as the sciences and mathematics. Students who successfully complete the requirements for either the minor or certificate will earn a Global Studies Minor or Certificate notation on their academic transcripts.

International Scholars

The Center is a resource to faculty and staff who are traveling abroad and to visiting international faculty. Center Staff also assist faculty who are interested in developing study abroad courses. Cultural programming, celebrations, and enrichment activities are scheduled throughout the year. In partnership with Fulbright, Bennett College welcomes Foreign Language Teaching Assistants (FLTAs) annually. In addition to teaching foreign language courses, Foreign Language Teaching Assistants give presentations about travel, culture, politics, music, religion, and life in their countries of origin.

Other International Organizations, Conferences and Programs

Each year, the Center coordinates a campus-wide program during International Education Week. A full schedule of activities is offered during the week. Contact the Center for Global Studies for the dates for the International Education Week programming.

The Center participates in several conferences and workshops throughout the year which are designed to provide networking opportunities and professional development specifically focused on international programs. We participate in conferences with NAFSA, Diversity Abroad, the North Carolina Association of International Educators, and the North Carolina Student Global Leadership Conference as a means of ensuring that Bennett continues to lead in the areas of global studies and international education.
Student Success and Retention

Student Success and Retention (DSSR) is dedicated to enhancing retention and graduation rates through student academic support services provided by the Office of Accessibility Services, Career Services, and Office of Student Success. The Division’s broad-based initiatives are aligned with the College’s mission to provide learning opportunities for all students. Our approach is evidence-based and designed to provide exceptional services to all students that will ensure proper access to academic support services.

Accessibility Services
In accordance with Rehabilitation Act of 1973 (Section 504) and the Americans with Disabilities Act of 1990 (ADA) and the Amendments Act of 2008 (ADAA), Bennett College will make reasonable adjustments in its policies and practices to ensure equal opportunity and access for qualified students, employees, and members of the public to applicable programs, services, activities, and facilities.

The Office of Accessibility Services (OAS) at Bennett College provides, coordinates, and advocates for services that enable eligible students with disabilities to receive equal access to higher education and all aspects of college life. To qualify for services, the student must self-identify with the Office of Accessibility Services and submit the required forms and current documentation to the Director of the Office of Accessibility Services.

Contact Information
(336)517-1501
oas@bennett.edu

Career Services
Career Services, http://www.bennett.edu/student-affairs/campus-services/career-services/, serves to promote the professional growth of each student by providing assistance with career planning and placement options, career development, and experiential education that address the issues of career selection and preparation. Services include graduate and alumnae placement, general career development activities, and special career planning workshops and seminars. Providing and arranging internships and other cooperative arrangements with area employers is also a responsibility of this office. The office plans and conducts annual career and graduate school fairs, hosts campus visits by graduate schools and prospective employers, and maintains and posts current listings of summer, part-time, full-time, and seasonal employment opportunities throughout the country and abroad. These activities are under the oversight of The Office of Academic Affairs.

Office of Student Success
The Office of Student Success is led by student-centered educators who meet the comprehensive needs of students at Bennett College. The leadership and staff, and its constituent units assert that their programs, services, and facilities are all organized and operated to be congruent with all aspects of student learning and development including, but not limited to, academic, cultural, emotional, intellectual, moral, and social-interpersonal themes. The Office of Student Success provides the following student services:
New Student Orientation
The Office of Student Success collaborates with the Office of Campus Life and Student Activities, to provide an engaging Freshwomen Orientation Week, and works closely with the First Year Experience Program Lead in implementing the First Year Experience Orientation Course. Additionally, the Office of Student Success facilitates an Orientation course for Transfer Students. Each Orientation course is designed to assist first year (and transfer students with less than 26 transferable credit hours), as well as transfer students with at least 27 transferable credit hours, with the positive integration into the academic community of Bennett College.

Academic Advising
Bennett College uses a shared structure for advising students known as a split model where advising is carried out by faculty in individual academic programs as well as by professional staff in Student Success and Retention.

Success Coaches and Advising
Upon enrollment, each student relates to a Success Coach who supports the student in achieving their goals for success in all aspects of college life. The Success Coaches serve as academic advisors, and work with faculty, faculty advisors, staff, administrative leadership, and others, to provide a holistic approach to academic advising and student success.

Throughout the student’s time at Bennett, the Success Coaches will proactively anticipate specific academic and student support services that can be provided based on the individual student’s needs and aspirations. Success Coaches focus on helping students develop a growth mindset that embraces development and problem-solving through individualized coaching, mentoring, advising, and encouragement for students, as they advance in their Bennett education and community life.

Tutoring Services
The Curriculum Learning Center (TCLC):
The Curriculum Learning Center is designed to give students an opportunity to become proficient, active learners, and to develop the confidence needed to increase their skills and succeed academically. The Curriculum Learning Center helps students create learning strategies necessary for today’s analytical and critical thinkers by providing instructional support services to all currently enrolled students. There is no fee for any of the following services provided by The Curriculum Learning Center:
  - Professional and Peer Tutors for gateway and various 100-200 level courses
  - Group tutoring sessions.
  - Individual tutoring sessions
  - Academic Skills Workshops
  - Success Seminars
The Writing Center (TWC):
The primary purpose of the Writing Center at Bennett College is to offer students a place where they can discuss their writing and writing processes with trained writing consultants. Everyone writes differently; therefore, the Writing Center tailors its help to each student’s needs. The Writing Center provides one-on-one consultation in preparing various kinds of written communication from all academic disciplines. The Writing Center supports the enhancement of writing by providing supplemental instruction and resources to help students become more confident, effective writers.

Emerging Scholars Program
Students matriculating to the College with a high school cumulative grade point average of 2.5 or below, are admitted under the Emerging Scholars (ES) Program. During their first year at Bennett College, Emerging Scholars Program participants are restricted to a maximum of 15 credit hours per semester and are provided with academic support programming to promote their overall success.
Student Experience

Student Experience, [http://www.bennett.edu/student-affairs/](http://www.bennett.edu/student-affairs/), provides a co-curricular program of educational development for the Bennett College student to include activities and services to meet the cultural, social, spiritual, and recreational needs and interests of students—all designed to enhance and support their academic experience.

Campus Life
The College offers a holistic approach to the development of students by providing an enriched living-learning campus setting that is intellectually and spiritually stimulating. As a church-related college, Bennett cultivates the ethical principles and spiritual values essential to nurturing each woman as she moves toward making a positive contribution to society. While offering the advantages of a large university through the Consortium, the small campus gives each student a sense of belonging. The smallness of the campus provides numerous opportunities to develop close personal relationships with faculty, staff, and peers, as well as opportunities to engage in co-curricular experiences.

Religious Life
Bennett College, as a United Methodist related institution, is constantly striving to emphasize the acquisition of moral and spiritual principles and to promote faith development. We are committed to helping today’s young woman answer the basic questions of life: "Who am I and what does it mean to be in the world?" Partnering with faculty, staff, community churches, other college communities, and agencies beyond the local church, Bennett seeks to encourage a new generation of gifted young women to develop academic, social, and leadership skills, along with spiritual gifts.

It is the goal of the College to promote interaction with the local faith community to ensure a safe and supportive environment where students can express and develop their faith.

Student Government Association
The Bennett College Student Government Organization is open to all students irrespective of race, religion, or nationality, by virtue of enrollment at Bennett College. This statement is referenced in Article 1 Section 4: Members of the SGA Constitution. This organization represents all students in planning, organizing, and directing major campus programs for the student body. The SGA also works with the administration in addressing issues pertinent to all students.

The Student Government Association provides early experience in leadership, which, in turn, serves as a useful background for later public service. Bennett College, having confidence in the ability, character, and judgment of its students, believes that their participation in the governance of the College community will be helpful and valuable in promoting the general welfare of all students.

Students have been given the authority to organize the Student Government Association and to develop and adopt a constitution and by-laws that reflect the Executive and Legislative processes governing student life.

Student programs are carried on through a system of shared responsibility that involves administrative officers, faculty members, and students working cooperatively on concerns affecting the entire College community.
To fulfill its goal of developing student leaders, the College encourages student participation in the Student Government Association. The officers of this association are elected annually in the spring.

**Student Senate**
The SGA Vice President chairs the Senate in identifying student concerns and making recommendations for solutions to benefit the entire campus community.

**Student Organizations**
Bennett women have many opportunities for creative leadership through participation in campus organizations and activities. These include class government, student union advisory board, Greek letter sororities, civic organizations, and clubs related to academic disciplines. There are also leadership opportunities through residence life. Students also can initiate organizations that may not currently exist at the College by working with the Office of Campus Life.

The work of these organizations and their contributions to the College are significant and meaningful to the Bennett family and the larger community. Additional information on student organizations can be found in the Student Handbook or by contacting the Office of Campus Life.

**Counseling Services**
Counseling Services is staffed by a licensed professional counselors and graduate-level or license-seeking interns who provide mental health counseling, assessment, consultation, and crisis intervention to assist students in effectively managing daily stressors. The Staff assist students in discovering their identity, encourage growth and teach behavioral techniques that will help them fulfill their academic commitments to the College. Counselors are available to provide psychotherapy and support. Counseling Services partners with student organizations, faculty, academic divisions, and community stakeholders to provide cognitive and behavioral health and wellness programs that engage students and the campus community. Counseling Services also serves as an internship site for graduate students from surrounding colleges and universities. Counseling Services gives students a safe, relaxed, and confidential environment to work through individual challenges and stressors. The goal is to provide quality counseling and mental health services to enhance personal, academic, and intellectual growth. Counseling Services also helps students improve self-awareness, gain independence and skills to handle difficult situations.

**Contact number:** 336-517-2229.

**Health Services**
The [Student Health Center](#) is staffed by a Nurse Practitioner who provide acute medical services and promote the development of wellness and healthy lifestyles so that students can fulfill their academic commitments and progress toward degree completion successfully. They are available to assist students with referrals to local hospitals, medical offices, and ancillary health care services providers when health care needs exceed those offered in the Center. The Center also partners with student organizations, faculty, academic divisions, and community stakeholders to provide educational programs and activities that promote a life of wellness and balance. Our staff markets these events to students and the campus community.
The Student Health Center’s mission is to enhance the educational process by modifying and removing health-related barriers to learning, to promote an optimal level of wellness, to enable individuals to make informed decisions about health-related concerns and to empower the Bennett Belle Community to be self-directed. The regular office hours are Monday – Thursday, 9:00 am – 2:00 pm.

In addition to the on-campus Health Services and other resources, Bennett provides a variety of services to students through TimelyCare’s whole health plan. TimelyCare offers students 24/7 on-demand access to mental health and medical care. This service allows students to receive counseling after hours and throughout the summer while students are away from Bennett. Students can sign-up/register an account by downloading the TimelyCare mobile app (from the App Store or Google Play).

This is a student-centered virtual health and well-being service. Students can access services at no cost (FREE) via a phone or video call. Visits are available 24/7 on-demand or via scheduled appointments.

- **MedicalNow**: On-demand support for common health issues, including cold, flu, and allergies.
- **TalkNow**: 24/7, on-demand emotional support to talk about anything, including anxiety, relationships, depression, and school-related stressors. (Unlimited Calls. You can even call just to check-in and tell them how your day is going.)
- **Scheduled Medical**: Choose the day, time, and medical provider that best works for you.
- **Scheduled Counseling**: Choose the day, time, and mental health provider that best works for you. (12 visits per year)
- **Health Coaching**: Develop healthy lifestyle behaviors, including nutrition, sleep habits, time management, and mindfulness.
- **Psychiatry**: Appointments are available through referrals.
- **Self-Care Content**: Visit the Explore page within TimelyCare for guided self-care content including yoga and meditation sessions, as well as group conversations with our providers on a variety of health and well-being topics.

**Contact number**: 336-517-2230.

**Health Requirements**
Prior to entering Bennett College, each student is required to submit proof of required immunizations in accordance with the North Carolina General Statutes, Article 6, Part 2: Immunizations.

The Health Center must have complete immunization records for each student including:

- Tdap Booster (tetanus/diphtheria/pertussis) – Booster, Tdap booster is not required for students over the age of 64 years.
- Please indicate the date of at least 3 DTPs (diphtheria/tetanus/pertussis) done prior to the booster.
- Polio series should be completed with 3 vaccinations.
- Record of 2 MMR vaccines for measles, mumps, and rubella. This vaccine is not required of any student born prior to 1957.
Meningococcal conjugate vaccine for meningitis required for all freshmen and new students (MenACWY): two (2) doses for students born after 01/01/2003. One booster dose must be after age 16.

- The PPD skin test (to rule out tuberculosis) must be placed and read before coming to campus. If PPD is greater than 10mm induration, a chest x-ray must be obtained. If the chest x-ray is abnormal, INH treatment should be initiated or other TB prophylaxis treatment.

- Hepatitis B vaccine – 3 doses required for any student born after July 1994
- Varicella – 2 doses (required if born on or after April 1, 2001).

Failure to provide immunization records will result in cancellation of registration and removal from campus.

Residence Life
Residence life provides the student with an important opportunity for learning and practicing the positive values of group living. While the College’s approach is designed to stimulate independence and maturity, the student must be dedicated to the concept of concern for the well-being of others.

Non-Academic Complaints
Upon receiving a non-academic complaint, the Executive Director for Student Experience or their designee will forward the complaint to the appropriate student services or non-academic administrative unit for resolution. The Executive Director or their designee will ensure that the complaint receives a timely response. The Executive Director or their designee may seek additional information, including asking to speak with the people involved in the complaint and requesting documents. As provided in the Student Code of Conduct, all students are obligated to cooperate with investigations conducted under this Policy. After completing its investigation, the Office of Student Experience will render a written decision and provide its decision to the complainant. A student who files a complaint and is dissatisfied with the decision may appeal as outlined in the Student Code of Conduct.
Academic Affairs

The following regulations govern academic activities at Bennett College.

Non-Discrimination Statement

Bennett College prohibits discrimination based on race, color, religion, national origin, sex, disability, sexual orientation, gender identity or expression, age, or status as a disabled veteran in admission, access to, treatment of, or employment in its programs or activities. Title VI’s protection from race, color, or national origin discrimination extends to students who experience discrimination, including harassment, based on their actual or perceived: (i) shared ancestry or ethnic characteristics; or (ii) citizenship or residency in a country with a dominant religion or distinct religious identity.

Title VI prohibits discrimination based on race, color, or national origin against students of any religion, such as students who are Jewish, Christian, Muslim, Sikh, Hindu, or Buddhist, when the discrimination, for example, involves:

- racial, ethnic, or ancestral slurs or stereotypes.
- how a student looks, including skin color, physical features, or style of dress that reflects both ethnic and religious traditions; and
- a foreign accent; a foreign name, including names commonly associated with shared ancestry or ethnic characteristics; or speaking a foreign language.

Honors Convocation

Bennett College celebrates academic excellence during honors ceremonies held each Spring semester. No semester academic honors are to be received at Honors Convocation with an unsatisfactory ACES grade for that semester.

President's List Requirements:
- Cumulative Grade Point Average of 4.0
- No Incomplete Grades
- Students participating in Study Abroad must submit an official transcript to the Office of the Registrar prior to the program date.

Dean's List Requirements:
- Semester Term Average must be one of the following: Freshwoman: 3.0 GPA and above; Sophomores: 3.20 GPA and above Juniors: 3.30 GPA and above Seniors: 3.40 GPA and above.
- No Incomplete Grades
- Students participating in Study Abroad must submit an official transcript to the Office of the Registrar prior to the program date.

Honor's List Requirements:
- Cumulative Grade Point Average must be one of the following: Freshwoman: 3.0 GPA and above; Sophomores: 3.20 GPA and above Juniors: 3.30 GPA and above Seniors: 3.40 GPA and above.
- No Incomplete Grades
- Students participating in Study Abroad must submit an official transcript to the Office of the Registrar prior to the program publication date.

Valedictorian/Salutatorian Policy

The title of valedictorian designates the student graduating with the highest academic standing in their class; the individual with the second highest standing is salutatorian. The...
following procedures were developed to ensure fairness and consistency in the selection of the valedictorian and salutatorian(s) for each graduating class at Bennett College. The career (overall) grade point average is the primary consideration for identifying the students with the highest and second highest academic standing.

In addition to holding the highest and second-highest career grade point averages in their class, qualified candidates for valedictorian and salutatorian must:

1. Have completed all graduation requirements
2. Have remained in good academic standing for the duration of their Bennett career.

If there is a tie for the highest career grade point average among the qualified candidates, the following factors will be used to select the valedictorian, in this order:

1. The candidate who has repeated no courses or has repeated the fewest courses at Bennett College.
2. The candidate who has earned no non-passing grades (U, F) or the fewest non-passing grades at Bennett College.
3. Community service time over and above minimum College requirements.

Following selection of the valedictorian, if there is a tie for second-highest grade point average among the remaining qualified candidates, all tied candidates will be designated salutatorians.

Recognition Day
The College observes Recognition Day each year during the Spring semester. Academic programs, units of the college, and organizations are provided the opportunity to present special academic and/or service awards.

Academic Expectations
Students are expected to abide by their professor's attendance policy as stated in their course syllabus and be in touch with their professors when an unavoidable absence occurs. Regardless of their other activities, students are responsible for completing all course requirements on time and to the best of their abilities. Furthermore, students are expected to adhere to the highest standards of academic integrity, including the appropriate use and citation of the work and ideas of others.

Class Attendance Expectations
Bennett College recognizes the positive effect of class and laboratory attendance and participation on academic success. Regular and punctual class attendance is expected of all students. Responsibility for class attendance rests with the individual student. Students must accept the consequences of failure to attend class.

Attendance Policy at Bennett College
Purpose: This policy sets forth Bennett College’s support for faculty course attendance policies. The College gives full discretion to faculty to determine a course and laboratory attendance and nonattendance policy that best supports the mode of instruction, teaching effectiveness, student learning, and learning outcomes. Bennett College recognizes that regular attendance is an important contributor to student success whether the course meets in person, hybrid/blended courses, or in online synchronous or asynchronous class meetings. Therefore, the College strongly encourages students to attend regularly and promptly classes, laboratories, lectures, films, guest speakers, class discussions, and group activities.
Policy: The College requires student attendance (online or in person) during the first 14 days of classes per Department of Education policies in the distribution of financial aid. Bennett College verifies student enrollment following the add/drop period in accordance with this regulation. Accordingly, during these 14 days of classes, student attendance must be taken by all faculty, including adjuncts. The College acknowledges that certain academic areas (such as the Education Program and the Department of Social Work) requiring accreditation from organizations/ agencies in addition to TRACS may have stricter attendance policies and accordingly the College will comply with the standards demanded by those agencies.

Following the first 14 days of required class attendance, any form of attendance used by an individual professor as a criterion for evaluation Board of Trustees Policy Number: ACAF 3.18 Date of Adoption/Revision: April 24, 2021 POLICIES and PROCEDURES must be clearly identified in the course syllabus and presented to students during the first week of classes so that students can calculate the impact of missing class or a laboratory on their grade. It is up to the instructor to excuse or penalize absences in a course as well as to penalize missed exams and other assignments.

By the act of enrollment, the student is responsible for knowing and adhering to the individual professor’s attendance policy in a particular course and laboratory and the individual professor’s policy on late or missing work. A student’s failure to comply with the first 14 days of classes per Department of Education policies in the distribution of financial aid and the individual professor’s attendance policy may result in dismissal from a course.

A student dropped from a course may appeal. A complaint should normally be filed within 10 working days of the underlying incident. The complaint must be filed with the Office of Academic Affairs. The Student Complaint Form is available HERE.

All students (including those who enroll in the class late) are responsible for work covered and assigned from the first meeting of a class.

A course for which a student registers and does not attend and is not officially dropped will be recorded as an “FN” grade on the student’s records.

Grading
The following symbols are used in the grading system at Bennett College:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
<th>Quality Points (per semester hour)</th>

</tr>
</tbody>
</table>

**S And U Grades**

**S** and **U** grades are reserved for recording student participation in the required Academic, Cultural and Enrichment Series (ACES) program, Orientation courses and other designated courses.

**Incomplete Grades**

An instructor may assign an incomplete grade (I) if the student’s work in a course has been of passing quality but is incomplete due to circumstances beyond the student’s control. The grade of (I) is given when a student has not taken her final examination at the scheduled time or has failed to complete some other requirement of a course for reason of illness or other emergency. For each grade of "incomplete, (I)" the faculty member must fill in and submit an **Incomplete Grade Report** to the Office of the Registrar. An (I) Incomplete grade must be removed through a Grade Change form by the deadline of the semester following the one in which it is received. Otherwise, the course will default to the grade on the Incomplete Grade Contract.

**IMPORTANT**: A student should not re-enroll in the course to remove an incomplete grade from their transcript!

**Steps to Removing an Incomplete**

- Complete missing work by the deadline to be graded by instructor.
- The instructor will submit a Change of Grade form (available in SONIS in the Faculty portal) to the Office of the Registrar.

**Timeline to Resolve Incomplete Grades**

<table>

</tr>
</tbody>
</table>

**Failing Grades**

- A grade of **F** is recorded on the student's record if they register for a course, fail to attend, and does not officially drop the course.
- A failing grade **FN** (non-attendance) is also recorded for a student dropped from a course for reason of excessive absences.
- A failing grade is recorded when a student's grade point average in a course is 59 points and below.
- A grade of **F** is recorded when an Incomplete grade has not been removed by the specified deadline.
A failing grade is recorded when a student is suspended from the College for inappropriate behavior after the midterm grading period.

Repeating Courses
In this policy, “repeat” means to enroll in a course for which a grade has already been assigned. Students may enroll in courses in which they earned grades below a C. Upon completion of the course, Bennett College will apply the highest earned grade to the calculation of the GPA and the earned hours. The lowest grade(s) in these attempts will populate on the transcript but will not be used in the calculation of the GPA and the hours will not be counted toward degree requirements. The recomputed GPA will be calculated from the courses in which grades of C or higher were earned. The maximum number of times that a student can repeat a course is three times.

Students cannot repeat a course for which they received an “I,” until the “I” is converted to a grade. If a course holds a grade of C or higher, students should consult with their advisor to discuss the usefulness of repeating the course. Students who received a grade of C or higher may only repeat a course with permission of the Dean of Faculty in consultation with program faculty to meet GPA requirements for program entry or graduation.

TRANSCRIPT EXPLANATION: Courses with an indicator of "R" in the Rpt column of the transcript will be excluded from the career total and cumulative GPAs but retained in the term totals.

Academic Renewal
The Bennett College Academic Renewal Policy provides previously enrolled students who have been absent from the College for at least three years to have the opportunity to pursue a single “fresh start” by removing all grades lower than a C in their grade point average. All grades remain as part of the student permanent record and are not removed. This policy is designed to facilitate the retention of previous students with an unsuccessful start by renewing their academic progress and encouraging them to complete their degree requirements at their home campus rather than seeking other options such as transferring to another institution.

Formerly enrolled students who have less than a 2.0 cumulative GPA and who have not been enrolled at Bennett College three years prior to applying for readmission are eligible to petition to the Office of Academic Affairs for academic renewal under the following conditions:

Students not enrolled at any higher educational institution three years prior to readmission:
The readmitted student must successfully complete two consecutive semester terms earning at least 24 credit hours, maintain a minimum grade point average of 2.0 for both consecutive semester terms, and maintain a satisfactory grade in ACES for both consecutive semester terms.

Students who have enrolled at other nationally and or regionally accredited institutions during the three-year absence from Bennett College:
The readmitted student must have successfully completed a minimum of 24 hours of transferable coursework following their last enrollment date at Bennett College with a minimum overall grade point average of 2.50.
Grade Forgiveness
After completing the appropriate forms and approvals and meeting the conditions for the Academic Renewal Policy, identified courses in which grades below a C were earned will be marked as forgiven. The forgiven grades of these courses will be shown on the transcript but will not be used in the calculation of the GPA and the hours will not be counted toward degree requirements. The Academic Renewal Policy allowing grade forgiveness may be used only once up to 18 credit hours of a semester during a student’s matriculation through Bennett College. In addition to the single usage of the policy, a student forfeits their eligibility to be recognized for academic honors (excluding Dean’s list) during matriculation and graduation.

TRANSCRIPT EXPLANATION: Courses with an indicator of "*" in front of the course number on the transcript will be excluded from the career total and cumulative GPAs.

College Withdrawal
A student wishing to withdraw from the College must complete a College Withdrawal Form, which can be obtained from the Office of Student Success. By completing a College Withdrawal Form, after meeting with the Office of Student Success, the student is indicating their intent to effectively sever their relationship with the College. A grade of W is recorded for all courses in a student’s course schedule when the student leaves the College before the end of the term without successfully completing their courses. Students who find it necessary to withdraw from the College must confer with Student Success, Financial Aid Office, Business Office, Residence Life, and submit the College Withdrawal form.

Notation of withdrawal and the effective date will be posted to the student's academic record. Instructors and college offices will be notified of all withdrawn students. The completed College Withdrawal form is filed in the student’s permanent record in the Office of the Registrar.

Note: The process is not considered complete until all required signatures are on the College Withdrawal form.

Leave of Absence
A leave of absence is a type of withdrawal and is available for students wishing to take time away from the College with the intention of returning the following semester. The leave of absence status is especially helpful for recipients of federal financial aid because they are not considered to be withdrawn provided, they do return and complete the following semester.

Students may apply for a leave of absence only during the last 60 days of the semester. A request for leave of absence must be submitted in writing and include the reason for the student’s request. There must be reasonable expectation that the student will return from the leave of absence. All leaves of absence must be approved. The leave of absence together with any additional leave of absence must not exceed a total of 180 days in any 12-month period. Failure to return from the leave of absence will impact the student’s loan repayment term, including the expiration of the student’s grace period.

A student’s return to the College is contingent upon the conditions outlined in Return to the College below.
Return to the College
Normally, a student may withdraw or take a leave of absence from the College only once during matriculation as an undergraduate. Students will be notified by the Office of the Registrar 30 days before the total 180 days allowed for a leave of absence has ended to confirm the student’s intent to register for the following term. Students who find it necessary to leave the College are required to petition the Readmission Committee to return. Students who have earned a minimum 2.0 cumulative GPA, with no previous withdrawal or leave of absence, are exempt from this requirement. The “Petition for Readmission” should identify any extraordinary circumstances contributing to the student’s academic performance and specify a plan of action to address the extraordinary circumstances or the resolution of the extraordinary circumstances. The “Petition for Readmission” will be considered by the Readmissions Committee, which is composed of the assistant vice president for enrollment management, student success and the care team as needed.

The Readmission Committee, in considering the Petition for Readmission, may decide to approve the request without conditions, approve with specific conditions, deny the request with recommendations, or deny the request without recommendations.

Additional Withdrawal/Leave of Absence Information
The effective date of withdrawal or leave of absence for the purposes of refunds is the date the student completes the College Withdrawal or Leave of Absence form with ALL required signatures (to include Residence Life as applicable) and is received by the Office of the Registrar. The student should sign and date the Leave of Absence or College Withdrawal form after securing all appropriate signatures and upon delivery to the Office of the Registrar. Notation of withdrawal/leave of absence and the effective date will be posted to the student's academic record. Instructors and college offices will be notified of all withdrawn students. The deadline date for submitting the withdrawal for each semester is the last day of classes. Students should contact the Office of Admissions for readmission information.

The repeat policy will not apply to courses taken during the academic semester from which the student is officially withdrawn.

Note: Students submitting a Leave of Absence form must adhere to the following: Upon return, students must be registered for the same courses as the term the leave of absence was requested. Failure to register for the same courses upon return is a violation of this policy and students may be subjected to financial implications. Exceptions may be made if the specific course(s) is not offered upon return. By submitting a leave of absence request, the student acknowledges understanding and takes full responsibility for the outcome.

Course Withdrawal without Penalty
Bennett College will allow a withdrawal without penalty (WP) from a current semester course or courses within the stated time allotment as published in the college academic calendar (usually following the week of mid-term exams). Withdrawal of courses without penalty will be included in attempted hours but excluded from all other grade point average calculations. The student must initiate this action by completing a Course Withdrawal (Withdrawal without Penalty) form, available in the Student Portal in SONIS, by the stated calendar deadline.
Request for a withdrawal (withdrawals without penalty) from a course or courses after the stated deadline as listed in the current semester academic calendar and prior to the end of the semester; requires a petition to the Office of Academic Affairs. Such petitions will not be granted without documentation of extenuating circumstances (medical, psychological, or administrative reasons). Withdrawals are indicated on the student’s transcript by a report of W and will not affect the student’s grade point average. Approvals or denials will be based on a formal review of the information provided to the designated Academic Officer of the office of Academic Affairs.

To withdraw from a course after the add/drop period:

- Meet with an advisor to discuss your intentions.
- Complete the Course Withdrawal form in the Student Portal of SONIS.
- Submit by the deadline as indicated on the academic calendar.

**Course Withdrawal after WP deadline**

To withdraw from a course after the Withdrawal without Penalty deadline:

- Obtain a Course Withdrawal Form available in the Student Portal in SONIS—registrar forms.
- Discuss with your advisor, provide supporting documentation and submit.

***Students should be aware that their petition may be denied.***

**Unofficial Withdrawal**

A student is classified as *unofficially withdrawn* from the College after being reported as never attending. Class rosters will be submitted by each course instructor to the Office of the Registrar in each term to determine possible student unofficial withdrawal status during the following periods during the Minimester: first 14 days of instruction and mid-term grading period (mid-term grade roster with attendance). If an administrative withdrawal action is taken against the student, the Office of the Registrar will record a grade of **WP** (Withdrawal without Penalty) for all registered courses until the Last Day for Withdrawing without Penalty. All unofficial withdrawals following the Last Day for Withdrawing without Penalty will receive a grade of **F** for each registered course. The unofficial withdrawal date assigned will coincide with the date of the first submitted class roster reporting the student’s absenteeism.

**Computing the Grade Point Average**

It is essential for a Bennett College student to know how to compute her grade point average (GPA) as it is an important part of academic standing assessment. A grade point average for students enrolled at Bennett College is based on work undertaken at Bennett College, approved coursework taken at Greater Greensboro Consortium institutions, and approved course work at other institutions.

The semester grade point average is determined by dividing the total quality points earned by the credit hours attempted in a semester.

The cumulative grade point average is determined by dividing the total of all quality points earned by all credit hours attempted.

**Changing Grades**

It is assumed that the grades submitted to the Office of the Registrar represent the best judgment of professors regarding student achievement. There are to be no changes in
grades received in the Office of the Registrar except by the written approval of the Vice President for Academic Affairs.

**Grade Reports**
Grade reports are available online in SONIS following the midterm grading period and at the close of each semester.

**Satisfactory Academic Progress (SAP)**
Federal law establishes that all students must make Satisfactory Academic Progress (SAP) toward their degree to remain eligible for financial aid. All undergraduate students at Bennett College must meet the requirements as outlined under Financial Aid – Satisfactory Academic Progress I – IV. Refer to the previous section for additional information regarding SAP under the Financial Aid section.

**Academic Standards Policy**
The minimum standard for satisfactory academic standing for all Bennett College students is a 2.0 (C) cumulative grade point average.

**Academic Warning and Probation**
Students whose cumulative grade point average fails to meet the criteria established by Satisfactory Academic Progress (minimum 2.0) will be given an Academic Warning for the next semester. If at the end of that semester the cumulative average is still below the required minimum, students will be placed on Academic Probation for the following semester.

**Academic Dismissal**
The administration reserves the right to dismiss a student from the College for not maintaining GPA requirements. Any student on Academic Probation who fails to meet the grade point average requirements for Satisfactory Academic Progress will result in Academic Dismissal. An academically dismissed student may petition for readmission to the College. See Section below Reinstatement Policy for petition procedure.

**Academic Dismissal/Reinstatement**
Bennett College measures academic progress for each term throughout the student's enrollment. All students enrolled in credit courses at the College are required to meet the established standards for satisfactory academic progress. Students **academically dismissed** are considered not meeting the College’s minimum standards of academic progress. Students academically dismissed are required to discontinue enrollment for the next semester. If there is a procedural error in grade assignment or in calculation of the student’s cumulative GPA, an appeal of academic dismissal may be made to the designated Academic Officer of the Office of Academic Affairs. This appeal must: a) be in writing, b) be accompanied by substantive evidence to support the appeal (e.g., a letter from an instructor confirming the error; documentation of a serious, intervening medical, psychological, or personal issue), and c) be submitted no later than two weeks following the notice of academic dismissal. The appeal does not result in automatic reinstatement. An academically dismissed student who provides new evidence of interest and determination to continue studies at Bennett College may apply for reinstatement after an absence of two full semesters. Appeals for reinstatement should be submitted to the Office of Admissions, and an application for readmission should be submitted. Students who are reinstated will continue to be on probation until the cumulative GPA reaches or exceeds 2.0.
Reinstatement Policy
Any student on Academic Probation who fails to meet the grade point average requirements of a cumulative grade point average of a 2.0 for Satisfactory Academic Progress will result in Academic Dismissal. An academically dismissed student may petition for readmission to the College. She may petition for re-entry by submitting a “Petition for Readmission” to the assistant vice president for enrollment management. The “Petition for Readmission” should identify any extraordinary circumstances contributing to the student’s academic performance and specify a plan of action to address the extraordinary circumstances or the resolution of the extraordinary circumstances. The “Petition for Readmission” will be considered by the Readmissions Committee, which is composed of the assistant vice president for enrollment and student experience, registrar, director of academic advising, chaplain, and three (3) members of the faculty appointed by the Vice President for Academic Affairs.

The Readmissions Committee, in considering the Petition for Readmission, may decide to approve the request without conditions, approve with specific conditions, deny the request with recommendations, or deny the request without recommendations.

Procedure for Reinstatement
A student who wishes to be reinstated must submit a letter of appeal to the Office of Admissions describing why they wish to return to Bennett College, and their activities during the dismissal period that would support a reinstatement decision. An example of such an activity would be completion of academic course work at an accredited institution with grades of C or better. The student must also apply for readmission through the Office of Admissions. All applications for reinstatement to Bennett College will be reviewed by Student Success, Counseling Service, Financial Aid Office, Business Office, Residence Life, and Office of the Vice President for Academic Affairs, Assistant Vice President for Enrollment and Student Experience, and the Office of Admissions.

Reinstatement Interview
For reinstatement to a fall semester, arrangements for a reinstatement interview must be made and the interview must take place between March 1 and July 1.

For reinstatement to a spring semester, the arrangements must be made, and the interview must take place between October 1 and December 1.

To arrange a reinstatement interview, schedule an appointment with the Office of Admission. Late requests for a reinstatement interview will be deferred to the following semester.

Academic Classification
Students must have completed the following minimum number of earned semester hours for each classification:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Earned Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sophomore</td>
<td>26 earned semester hours</td>
</tr>
<tr>
<td>Junior</td>
<td>58 earned semester hours</td>
</tr>
<tr>
<td>Senior</td>
<td>90 earned semester hours</td>
</tr>
</tbody>
</table>
**Academic Residence Requirement**
All candidates for degrees must take their last 30 hours in residence, except for students in special degree programs officially arranged by Bennett College including study abroad and coursework completed via consortial agreements.

**Academic Renewal**
The Bennett College Academic Renewal Policy provides previously enrolled students who have been absent from the College for at least three years to have the opportunity to pursue a single “fresh start” by removing all grades lower than a C in their grade point average. All grades remain as part of the student permanent record and are not removed. This policy is designed to facilitate the retention of previous students with an unsuccessful start by renewing their academic progress and encouraging them to complete their degree requirements at their home campus rather than seeking other options such as transferring to another institution.

Formerly enrolled students who have less than a 2.0 cumulative GPA and who have not been enrolled at Bennett College three years prior to applying for readmission are eligible to petition to the Office of Academic Affairs for academic renewal under the following conditions:

**Students not enrolled at any higher educational institution three years prior to readmission:**
The readmitted student must successfully complete two consecutive semester terms earning at least 24 credit hours, maintain a minimum grade point average of 2.0 for both consecutive semester terms, and maintain a satisfactory grade in ACES for both consecutive semester terms.

**Students who have enrolled at other nationally and or regionally accredited institutions during the three-year absence from Bennett College:**
The readmitted student must have successfully completed a minimum of 24 hours of transferable coursework following their last enrollment date at Bennett College with a minimum overall grade point average of 2.50.

**Student Work and Intellectual Property Rights**
Intellectual property created solely for the purpose of satisfying a course requirement is owned by the student and not the College or the student's professor.

Exceptions to this policy occur when/if:
- The College becomes the owner of student work if the student assigns ownership rights of the intellectual property to the College in writing, or written assignment of such ownership rights to the College is made a condition for participation in a course.
- The College owns the answers and questions on tests and examinations, unless otherwise indicated by the course instructor. Tests and examinations include but are not limited to print, electronic and audio or visual formats.
- Student research projects are funded by outside sponsors. If the sponsor requires ownership of the intellectual property produced by the student as a condition of sponsorship, the College will advise the student before the student begins the project. The student will be required to sign a waiver prior to beginning the project.
Student Academic Affairs Complaints and Concerns

Bennett recognizes the need to have procedures in place to address and respond to academic affairs concerns raised by students. Within the context of classroom concerns such as a challenge to a grade in a course or if a student wishes to have an issue or concern examined by the Vice President for Academic Affairs, the student should send a written request for a meeting to VPAA@bennett.edu. Prior to requesting a meeting with the Vice President of Academic Affairs, the student should have exhausted other means of resolving their issue through the advisor (where appropriate), the faculty member, and Dean of Faculty.

Every student is encouraged to attempt to resolve all grievances covered under this Policy at the lowest possible level. When the student feels comfortable doing so, she may first attempt to resolve the issue by approaching the person(s) whose decision or action is being contested to seek a resolution. Otherwise, she may file a written complaint as provided below.

A complaint should normally be filed within 10 working days of the underlying incident. The complaint must be filed via the Student Complaints Form under the Quick Links Tab on the Bennett College Website. The complaint must provide the following information:

- The alleged facts of the complaint
- The Policy or provision of the Student Code of Conduct that the student alleges has been violated.
- The corrective action that the student requests
- A complaint must be based on a claimed violation of a Bennett College Policy or provisions of the Student Code of Conduct or the Belle Honor Code. Any student who brings a complaint has the burden of proof and must provide documentation and evidence—including testimony of the student or others—to support the allegation.

Academic Complaints: Upon receiving an academic complaint, the Office of the Vice President for Academic Affairs or their designee will ensure that the complaint receives a timely response. The investigation is usually conducted within thirty (30) days of the date that the complaint is filed. The Office of the Vice President for Academic Affairs may seek out additional information, including asking to speak with the persons involved in the complaint and requesting documents. As provided in the Student Code of Conduct, all students are obligated to cooperate with investigations conducted under this Policy. After completing its investigation, the Office of the Vice President for Academic Affairs will render a written decision and provide its decision to the complainant.

The State Authorization Unit of the University of North Carolina System Office serves as the official state entity to receive complaints concerning post-secondary institutions that are authorized to operate in North Carolina. If students are unable to resolve a complaint through the institution’s grievance procedures, they can review the Student Complaint Policy (PDF) and submit their complaint using the online complaint form at https://studentcomplaints.northcarolina.edu/form.

Attorney General’s Office
Mail Service Center 9001
Raleigh, NC 27699-9001

Petition for Exception to Academic Policy
Students who, after consultation with their advisor, believe that an exception to an academic policy or procedure is warranted, should petition for such exception. A written petition for an exception to an academic policy should clearly state the policy and the rationale for the exception. The written petition will be reviewed by the Vice President for Academic Affairs, in consultation with the appropriate person, office or committee, for a decision on whether the exception will be made.

Violations of Academic Integrity
The primary responsibility for academic integrity lies with individual students and faculty members of the college. A violation of academic integrity is a breach of the Bennett College Honor Code, the Code of Conduct, and the Code of Ethics. Specific examples of academic dishonesty and potential sanctions are outlined in the Student Handbook in the section covering the Honor Code and the Code of Conduct. Examples of sanctions are also listed in the catalog under the section covering the Bennett College Code of Ethics.

Alleged violations of academic integrity will be addressed by the faculty member with the student, in consultation with the Dean of Faculty. Violations may also be referred to the Office of the Vice President for Academic Affairs for review and resolution.

ONLINE AND DISTANCE LEARNING - Grievance Resolution
Policies and procedures outlined in Bennett’s Student Handbook (pages 39-49) serve as references for the complaint procedures and process. In regard to online and distance education, Bennett recommends that students, both past and present, use the below link to report issues or concerns or to file a complaint.

For Online and Distance Education Issues, Concerns, and/or Complaints

Contact Information Dr. Sara Wrenn, Dean of Faculty & Associate Professor of Psychology 900 East Washington St. Greensboro, NC 27401 (336) 233-8006 sara.wrenn@bennett.edu

Bennett College is committed to meeting the needs of students as an approved institution under the State Authorization Reciprocity Agreement - North Carolina (SARA-NC). The agreement establishes comparable national standards for the interstate offering of post-secondary distance education courses and programs across state lines.
The primary focus of this agreement is to set uniform national standards by providing post-secondary distance education courses and programs across state borders. National standards are established by the agreement for the interstate delivery of post-secondary distance education courses and programs across state boundaries. Along with basic protections for students, the agreement mandates that Bennett provides contact information to current and potential students so they can file complaints with the college, its accrediting agency, and state agencies that deal with complaints in the student's home state.

Students should initiate the complaint process with the person involved or at the departmental, school, or institutional level. Bennett College has a centralized reporting system that allows for escalation in the event of a concern, complaint, or grievance. Students can file complaints and grievances by following the instructions on Bennett’s filing-a-complaint webpage, which are specifically designed to direct them to the person or office who can resolve their complaint.

A complaint must be based on a claimed violation of a Bennett College Policy or provision of the Student Code of Conduct or Belle Honor Code. Any student who brings a complaint has the burden of proof and must provide documentation and evidence—including testimony of the student or others—to support the allegation.

Students may email grievances/complaints to studentcomplaint@Bennett.edu.

You may also call 1-800-413-5323.

**Student Grievances – Online/Distance Learning**
A grievance is a formal complaint made by a student arising from an alleged action of the College or any of its faculty members, administrators, staff or students. Such action is one that is claimed to be unauthorized or unjustified and diversely affects the status, rights, or privileges of the student, including actions based on race, color, religion, gender, sexual orientation, ethnicity, age or disability.

Any student who has a complaint shall make a reasonable effort to resolve the matter on an informal basis before initiating a grievance. Students may request a grievance hearing. A grievance hearing committee will be organized, and a committee decision will be presented to the Dean of Faculty and the Vice-President of Academic Affairs.

All student grievances proceeding correspondence will be handled via email or otherwise documented and placed in a secure file. An electronic copy of all correspondence will also be maintained. Copies of this information will be placed in the student’s official school file.

**Student Grievance Policy – Online/Distance Learning**
A grievance shall herein be defined as any act allegedly depriving a student of any of the rights set forth in the statement of “Student Rights and Responsibility”, or any State Federal, or local codes.

**Informal Action**
The student (or group of students), who believes that an injustice has been done to him/her (them), shall first attempt to resolve the complaint by informal discussion with the employee(s) involved.
If the problem is not resolved in Step 1, an informal discussion should take place with the person at the lowest level of authority directly above the person(s) at which the complaint is directed, where authority exists to take corrective action.

The Dean of Faculty shall attempt to resolve the problem through informal meeting and discussion among the pertinent parties while remaining neutral on all issues involved. This informal meeting and discussion will attempt to involve the levels of administration concerned with the problem and should be completed within ten (10) school days. In the event the informal procedure fails, the formal procedure would be implemented.

**Formal Action**
The grievant may obtain a student grievance form from the office of the Dean of Faculty. After completion of this form, specifying the time, place, nature of the complaint and remedy or correction requested, it should be submitted to the Dean of Faculty. This request must be submitted within (5) five school days after the failure of the informal procedure. A day is defined as any day Monday through Friday that all normal college business is conducted.

The Dean of Faculty shall call a meeting of the Student Grievance Hearing Committee. This committee is comprised of the Dean of Faculty, the administrative designee, the Faculty Senate President or designee, and the Student Government President or designee. The Dean of Faculty shall be chair of the committee and shall not have a vote on the committee’s decision. The Faculty Senate selects four voting members and submits names to the Dean of Faculty. The administrative designee shall serve as the Hearing Committee Executive Secretary, a voting member of the committee, and shall keep necessary records of the hearings. Grievance Committee members are to deal with all grievances in a confidential manner, except when both parties agree to a public hearing.

**Formal Hearing**
The Student Grievance Hearing Committee shall conduct its proceedings according to the following procedures:

The Student Grievance Hearing Committee must meet within ten (10) school days after informal action has been completed and the grievant has requested a formal hearing.

The chair must notify both parties involved within five (5) school days before the hearing along with the written complaint, a copy of the Statement of Student Rights and Responsibilities, and a copy of the Grievance Policy.

Four members shall constitute a quorum by which business may proceed. The quorum must include at least one student member, one faculty member, and one administrative member.

Both parties shall have the right to present personal statements, testimonies, evidence, and witnesses. Each party shall have the right to be present, to be accompanied by the person of this choice, and to question witnesses who are present.

The Student Grievance Hearing Committee shall discuss the charge, hear the testimony, examine the witnesses, and receive all available evidence to the charge.
The hearing shall be closed to the public unless otherwise agreed upon in writing by both parties.

The Student Grievance Hearing Committee shall make decisions in private. The Committee shall record all findings and decisions. Copies of the findings and decisions, including majority and minority reports, are to be sent to each party and the Vice-President for Academic Affairs. The Committee’s decision shall be final unless appealed.

A recording of the proceedings shall be kept in a confidential file in the Office of the Dean of Faculty and shall be available upon request to parties directly from the personnel files of the participants. After a period of four years, the grievance file shall be destroyed.

Reprisals of any kind will not be taken by the Board of Trustees or any of its agents, any party of interest, or any other participant in the grievance procedure by person of such participation.

Evidence and testimony given in each case presented shall not be the sole cause of initiating or filing further grievances.

If the grieved party does not respond within the time limits defined herein, the grievance is considered terminated, and no further action will be taken.

The number of working days indicated at each step herein should be considered a maximum and every effort must be made to expedite the process. Time limits may be extended by mutual consent in writing or by decision of the Student Grievance Hearing Committee.

The Student Grievance Hearing Committee should attempt to reach a decision by discussion and consensus on a workable solution. Voting should be the last course of action.

The Appeal Process
If either party is dissatisfied with the recommendation of the Student Grievance Hearing Committee, he/she may appeal within ten days to the Vice-President for Academic Affairs if he/she is not a party to the grievance. If the Vice-President for Academic Affairs is a party to the grievance, and the other party is dissatisfied with the recommendation of the Hearing Committee, an appeal may be submitted directly to the President. If the Vice-President for Academic Affairs is not a part of the grievance her/his decision is final.

Upon receiving the findings and recommendations of the Hearing Committee, and after examination of the appeal as requested by either party, the president may accept or reject the committee’s decision.

If the Vice-President for Academic Affairs rejects the committee’s decision, he/she shall submit his/her decision with the stated reasons for the objection to the Student Grievance Hearing Committee within ten school days. The Student Grievance Hearing Committee shall reconsider its decision within five school days and resubmit it to the president for his/her final decision.

The Vice-President for Academic Affairs shall send his/her final decision to both parties and the Faculty Senate within five school days.
In the event that a student, faculty, or staff member matriculates through the adopted and approved grievance process, outlined in the Human Resource Manual, Student Handbook, and/or Faculty and Staff handbook, and believes that the resolution reached remains unacceptable, the student has the right to escalate said grievance by filing a complaint with a relevant and appropriate government agency outside of the Bennett College campus.

One such agency is the Transnational Association of Christian Colleges and Schools (TRACS). The student may reach TRACS by mail at P. O. Box 328, Forest, VA 24551: by Telephone at (434)-525-9539; or by E-mail at info@tracs.org/. The above process may be followed related to any relevant and appropriate government agency.

OUT OF STATE STUDENTS:
Out of state students enrolling in programs must follow the institution’s published grievance process first. Out of state students may also email studentcomplaint@bennett.edu or call 1-800-413-5323.

If the student is not satisfied, he/she may contact the SARA North Carolina Director by U.S. Mail to SARA North Carolina Director, NCSEAA, P.O. Box 41349, Raleigh, NC 27629 or email at complaint@saranc.org. The grievant must also provide written documentation from the college/university verifying that the institution’s appeal process has not been followed.

The Bennett Minimester Program and Definition of Credit Hour Policies
The Bennett Minimester program divides the fall and spring semesters into three “Minimesters” consisting of one two-week term and two seven-week terms (NOTE that some courses may stretch across two Minimesters–14 weeks or the entire16-week semester). Bennett Minimesters allow students to take fewer classes at a time allowing for more concentrated focus and less divided academic attention. The Minimesters within each semester are a unique and innovative method of course offering at Bennett College. Students who are working professionals often find the Minimester schedule easier to balance their study time with other outside demands.

Federal Definition of the Credit Hour
For purposes of the application of this policy and in accord with federal regulations, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time, or

2. At least an equivalent amount of work as required outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours (TRACS Credit Hours Policy, Accreditation Manual 2021).

Semester Credit Hour Definition
One semester credit hour will be awarded for a minimum of 750 minutes of formalized instruction that typically requires students to work at out-of-class assignments an average
of twice the amount of time as the amount of formalized instruction (1,500 minutes). It is acknowledged that formalized instruction may take place in a variety of modes. While awarding semester credit hours typically occurs for instruction delivered in accordance with an institution’s standard semester calendar, it may also occur for instruction that may not follow the typical pattern of an institution’s standard semester calendar if the criteria for awarding such credit is met.

These procedures are for all students who are registered within courses at Bennett College. Courses offered for credit by Bennett College are taught in formats shorter than the full semester length, with proper safeguards of quality. To earn a comparable unit of credit, class meeting times are adjusted during the abbreviated Minimesters. Semesters I (Fall) and II (Spring) are approximately thirty-two weeks in total length. Each semester is sixteen weeks in length. The semester includes three Minimesters—one of two-weeks in length and two of seven weeks in length. If recommended by the program area to offer the course, and approved through the administrative channels, the shortened course procedure is as follows:

- a. The semester hour system is based upon one contact hour per week (50 minutes of instruction) or its equivalent for a semester of 16 instructional weeks. Instructional hours for the shortened format courses generally maintain this standard, and any deviation must be approved through regular channels. Thus, a three-credit-hour course must have 45 contact hours.
- b. Any regular credit course may be taught in the summer term, if offered, utilizing the extended class periods applicable to summer.
- c. Courses to be offered in shortened format must have prior approval at departmental or area and College levels.
- d. Faculty must formally advise the Dean of Faculty of courses to be taught in shortened format each semester.
- e. It is recognized that not all courses such as internships and voice lessons are appropriate for shortened format. Before developing such shortened courses, the program or area proposing short courses should take into consideration such factors as amount of reading and analysis required, maturity of students, need for concentrated immersion in subject, and, in general, the nature of the learning required.
- f. Admission to short courses follows standards for all regular credit courses. Administrative issues such as the use of different drop and withdrawal dates, refunds, and grading must be established prior to the beginning of any course.

**General Education Block Transfer Credit Policy**
Bennett College will award transfer credit for general education courses successfully completed from an approved accredited institution and institutions participating in statewide general education agreements. This policy applies to community college graduates with an Associate of Arts (A.A.), Associate of Science (A.S.) degree, Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T). Please contact the Office of the Registrar for procedures applying to this policy.

**Summer School Credit Hours Policy**
A total of 12 credit hours may be earned in any one summer, if offered by Bennett College. A total of no more than 7 credit hours may be earned in any one summer at an accredited institution other than Bennett College.
Transfer Credit/Transient Student
Bennett College awards full credit in terms of semester hours and quality points for all courses that are satisfactorily completed during the academic year or summer sessions at approved institutions. Before taking a course at another institution, a student must receive the signatures of the advisor and the Dean of Faculty. The Transfer/Transient approval form available from the student’s advisor must be completed and approved by the Vice President for Academic Affairs and must be filed with the Office of the Registrar. A transcript of the work completed must be filed with the Office of the Registrar when the work is completed. Permission for a student to enroll in a course for transfer credit may be denied if the course is being offered at the home institution, and/or a home institution course can be substituted for the transfer course.

Transferable Credit Evaluation
Students who have completed courses at another accredited college or university may submit the official transcripts for evaluation and acceptance as transfer credit. The following will be considered by Bennett College in assessing the potential for credit acceptance:

1. The Office of the Registrar will determine the courses and credits accepted as meeting general education requirements, transferable electives, and major courses.
2. Accepted transfer credits must have a minimum grade of C. Only transfer credit hours are added to the student’s record. The GPA is only affected if the student is participating in the Greater Greensboro Consortium Program. See section on Greater Greensboro Consortium.
3. Bennett College will accept only those courses equivalent in content to its courses or relevant to current academic subject areas.
4. Bennett College will accept up to 36 credit hours of equivalent or comparable content transferable courses toward the general education requirements. All other transferable coursework will initially be accepted as electives.
5. The student’s major program has the discretion to accept any elective credit as a substitution based on course content for the required degree program. Substitution forms must be completed by the student’s major program with appropriate signatures and submitted to the Office of the Registrar to have the elective transfer credit for degree program requirements officially considered.
6. Independent of prior transfer credit hours accepted, a student must complete a minimum of 30 hours at Bennett College.

Greater Greensboro Consortium
The Greater Greensboro Consortium is a program uniquely designed to expand the course options available to degree seeking students at Bennett College. All students can cross register for courses at seven other schools in the Greater Greensboro Consortium:

- Elon University
- Greensboro College
- Guilford College
- Guilford Technical Community College
- High Point University
- North Carolina A&T State University
- The University of North Carolina at Greensboro

Credits earned from consortium credits will apply towards the student enrollment at Bennett College and effects the student’s GPA. All rules, regulations, and deadlines apply
at the host institution. The high moral standards of personal behavior outlined in the Bennett College Code of Conduct are expected when attending classes within the consortium.

ATTENTION SENIORS: It is the student's responsibility to ensure Consortium transcripts are submitted to the Office of the Registrar prior to commencement exercises. If transcripts are not on file, a student cannot participate in commencement exercises.

Course Overload
A minimum of 12 semester credit hours are required to be classified as a full-time student. The full-time designation is required for receiving state, federal and several other funding sources for student financial aid.

The College generally recommends a maximum semester course load of 16 semester credit hours. However, some curriculum patterns may require 17 to 18 semester credit hours. Although rarely suggested, special course overload privileges of up to 21 semester credit hours are extended to students whose overall grade point average is 3.00 or above. Any exceptions to the course overload requirements for a maximum of 21 credit hours in each semester must receive the written approval of the Dean of Faculty.

Course Registration
Registration as it relates to Bennett College: the following procedures must be completed in a satisfactory manner for a student to be classified as officially enrolled for a designated term. Students will proceed with course registration following the procedure outlined below:

Student Registration
- Meet individually with faculty advisors to discuss progress in the major and course recommendations, then meet with a student success coach to plan their schedule for the upcoming semester. The student success coach will then register the student for their courses in SONIS.
- Following the first day of the semester or minimester, all course schedule changes must use the course Add/Drop form with advisor and student signature. After the first-class period, instructor permission must be obtained to register.

Enrollment is completed for a student to proceed to class when the below Check-in process is successfully cleared, and an electronically validated identification card is issued or updated.

Check-in is completed by the following offices:
1. The Health Center
2. Office of Residence Life
3. Office of Financial Aid
4. The Business Office: Student Accounts/Cashier (payment of cost of attendance) Student ID
5. The Division of Student Success and Retention: Academic Advising

Students have the option to check-in and clear with the above offices prior to move-in. Outstanding requirements for check-in will be communicated by the respective office listed above.
Sequential Registration
A student can neither enroll for the second term of a sequential course in which she has received a failing grade in the prior semester, nor enroll in a course without successfully completing prerequisites.

A student may preregister for the second term of a sequential course or a course with a required prerequisite; however, if she receives a failing grade in the first term or prerequisite course she may not enroll and her registration for the course will be cancelled.

Independent Study
Independent Study supports intellectual activity by bringing together outstanding students and professors in stimulating research experiences. Prior to registration the student should seek an independent study option form (located in SONIS under “Faculty” tab) from her advisor. A student may pursue research topics of special interest under the Independent Study Program. Students may earn three (3) credit hours for independent study each semester. A minimum cumulative grade point average of 2.80 and a junior or senior classification is required.
Office of the Registrar

Confidentiality of Educational Student Records
The Office of the Registrar complies with the provisions of the Family Educational Rights and Privacy Act (FERPA) of 1974. The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education.

Student Rights under FERPA
The Family Educational Rights and Privacy Act (FERPA) affords students who attend postsecondary institutions with the following rights with respect to their education records.

These rights include:

The right to inspect and review the student’s educational records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic program, or another appropriate official, written requests that identify the record(s) they wish to inspect. The University official will decide for access and notify the students of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed. This right applies to education records, except financial records of the students’ parents/guardians; records connected with an application to attend the University if that application was denied; confidential letters of recommendation for admission, employment, awards, or recognition, for which the students have waived their right to access; or those records which are excluded from the FERPA definition of education records.

The right to request the amendment of the student’s education records that the student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA. Students should write to the University official responsible for the record, clearly identify the part of the record they are requesting to be amended, specifying why it is inaccurate, misleading, or in violation of their privacy rights. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of their right to a hearing regarding the request for the amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

The right to consent before the release of any personally identifiable information from the student’s education record, except in the following circumstances where FERPA permits disclosure without consent:

- To school officials with legitimate educational interest
- To other schools to which a student is transferring
- To specified officials for audit or evaluation purposes.
- In connection with financial aid to a student
- To organizations conducting certain studies for or on behalf of the school
- To accrediting organizations.
- In compliance with a judicial order or lawfully issued subpoena
- To appropriate parties in cases of health and safety emergencies
o To parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954
o To parents of students under the age of 21 regarding violation of any Federal, State, or local law, or of any rule or policy of the institution, governing the use or possession of alcohol or controlled substance
o To the victim of any alleged perpetrator of a crime of violence or non-forcible sex offense concerning the results of a disciplinary hearing with respect to the alleged crime
o Regarding the results of a disciplinary proceeding related to a crime of violence or non-forcible sex offense if the student is found to have violated the school’s rules or policies
o When the information being disclosed is considered Directory Information unless the student has followed the official procedure to notify the University in writing to withhold the release of Directory Information.

**Directory Information** is information in a student’s education record that would not generally be considered harmful or an invasion of privacy if disclosed. At Bennett College, Directory Information consists of:

- Student’s first and last name
- Major field of study
- Dates of attendance
- Enrollment status
- Anticipated graduation date
- Degrees awarded.
- Awards (including scholarships)

Additionally, Bennett College designates some information as **Limited-Use Directory Information**. The use and disclosure of this information is restricted to:

- College officials who have access, consistent with FERPA, to such information and only in conjunction with a legitimate educational interest and,
- External parties contractually affiliated with the College, provided such affiliation requires the sharing of Limited-Use Directory Information.

**Limited-Use Directory Information** consists of:

- Local and permanent address
- Student e-mail address
- County, state, or US territory from which the student originally enrolled.
- Telephone numbers.
- Participation in officially recognized activities and sports.
- The most recent previous educational agency attended by the student.

Military recruiters are entitled to student’s names, addresses, telephone listings, date and place of birth, levels of education, academic majors, and degrees received.
Student information will not be provided to individuals or organizations other than to those (and for the reasons) identified above without written consent of the student. Students can find the consent form on their student portal in SONIS. Once submitted to the Registrar, the consent will be maintained in the student’s permanent record unless or until it is modified or rescinded.

The right to file a complaint with the U.S. Department of Education concerning an alleged failure by the University to comply with the requirements of FERPA by contacting the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington DC, 20202.

Custodians at the College include:

- Office of Admissions
- Academic Advising
- Alumnae Affairs
- Career Services
- Counseling Services
- Wellness and Accessibility Services
- Office of the Registrar
- Residential Life
- Student Experience
- Health and Wellness
- Division for Student Success and Retention

**TRANSCRIPTS**
All current and former students at Bennett College can request official transcripts by visiting www.getmytranscript.com. Online requests are the only method for requesting transcripts.

**TRANSCRIPT HOLDS**
A hold on a student’s record prevents the release of a transcript. The Office of the Registrar will not process any transcript requests from students who have an outstanding balance or unfulfilled obligations to the College.

**CHANGE OF NAME OR SOCIAL SECURITY NUMBER**
For Bennett College to maintain accurate records and for the student to receive important and timely information from the College, it is imperative a student’s name and social security number are correct in our database. The student must notify the Office of the Registrar of any name changes (or a student identifies their name/SSN number is incorrect in our database) as soon as possible. Students may access the CHANGE OF NAME AND/OR SOCIAL SECURITY NUMBER FORM in SONIS. For change of name of social security number, legal documentation will be required.

**DEGREE COMPLETION REQUIREMENTS**
Bennett College confers the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Social Work, and Bachelor of Arts and Sciences in Interdisciplinary Studies.
Minimum Credit Hours and Grade Point Average

The Bachelor of Arts, Bachelor of Science, Bachelor of Social Work and Bachelor of Arts and Sciences in Interdisciplinary Studies degrees represent the satisfactory completion of at least 120 semester hours, an overall average of at least C, and a grade of at least C in each course that the student has taken to satisfy the requirements for graduation in her major field, a grade of at least “C” in the English component of specified General Education requirements and complete the last 30 hours in residence except for students in special degree programs officially arranged by the College.

Community Service

The mission of Community Service and Civic Engagement at Bennett College is to serve as a liaison for students and community resources within the greater Greensboro, North Carolina area. Students are challenged to fulfill their civic responsibility by exploring various dimensions of entrepreneurship, global education, communication, and social justice.

Community Service is intentional volunteer work that benefits the local community. It is often done near the area where you live, so your own community reaps the benefits of your work. You do not get paid to perform community service but volunteer your time. Community service can help many different groups of people: children, senior citizens, people with disabilities, even animals and the environment. Volunteers seek meaningful relationships with a community agency or an approved work site to perform duties that are dedicated to problem-solving initiatives in education, public safety, the environment, and other human needs. Through Community Service, student volunteers build networks and form partnerships that often lead to internship opportunities or full-time employment.

Beginning with the class of 2025, the Community Service requirement will return to eighty (80) hours. Transfer students must complete a minimum of twenty (20) hours for each year of matriculation at the College.

Please contact: 336-517-2200 or communityservice@bennett.edu.

Graduation Clearance

Students will be provided with an Application for Graduation based on credit hours completed and classification as senior status. Each graduating senior is required to obtain graduation clearance by the following:

- Alumnae Affairs Senior Clearance Form
- Business and Finance Office Clearance
- Complete required community service hours
- Office of Financial Aid Exit Counseling
- Complete Project Success Financial Literacy Courses
- Holgate Library Clearance
- Check Out of Residence Hall (Residential Students Only)
- Pay Senior Class Dues
- Satisfactorily complete a Senior Essay
- Career Services Clearance

Senior Essays

The Senior Essay is administered by program faculty advisors. Pending approval by program faculty, essays will be forwarded to the Dean of Faculty by mid-April annually (early November for December graduates). This is a graduation requirement to be completed during the final semester of the student’s senior year.
Format:
- 500-1000 word typed essay (not to exceed five pages)
- 12-point font
- Times New Roman
- 1" margins
- Double-spaced
- APA-MLA format is determined by the program.

Guide: Describe how your major field of study has prepared you for graduate/professional school and/or the workplace.

- What areas of your major field have been of particular interest to you?
- What do you consider to be your strengths and weaknesses?
- How have your studies in your major field prepared you for leadership?
- How can your studies be applied to the resolution of global issues/problems?
- Your future as a professional in the field?

GRADUATION WITH HONORS
Graduates who have completed at least 64 hours at Bennett College are eligible to graduate with honors.

<table>
<thead>
<tr>
<th>Latin Honor</th>
<th>Required Cumulative Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.80 – 4.0</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.60 – 3.79</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.40 – 3.59</td>
</tr>
</tbody>
</table>

No academic honors are to be received at Graduation with a majority of Unsatisfactory ACES attempts.

COMMENCEMENT CEREMONY PARTICIPATION POLICY
Only students who have completed all required credit hours towards their degree will be allowed to participate in the commencement ceremony. Determinations of eligibility occur at the end of the drop/add period in the spring (Minimester 3) semester of the Commencement Ceremony. At that time, the Registrar will calculate each student’s expected credit total, which is the number of credits earned plus the amount for which a student is registered. If a student fails to obtain the required passing grade in expected course credit, they will not be able to participate in the Commencement Ceremony.

- The student must have met all financial obligations to the College.
- The student must have met all institutional requirements of the College.
- The student must apply for graduation before the published deadline.
- Students must pay the graduation fee.
- The Academic or Faculty Advisor and the student to review their degree audit in SONIS.
- The Academic Advisor will approve the degree audit and inform the Registrar accordingly.
o No diploma will be awarded until the student has been approved by their major program(s) as having completed all academic and institutional requirements and certified as having met all financial obligations to the College.

o The student who does not apply for graduation before the published deadline for any semester must apply for graduation during the next semester. Students who have applied for graduation but fail to meet the requirements must reapply for graduation by the published deadline for the semester in which they will fulfill the requirements.

**Diploma Replication**

All replications of diplomas will be printed in the most recent format and verbiage. Signatures displayed will be current position holders of the following: Chairman of the Board of Trustees, Secretary to the Board of Trustees, President of the College, and Vice President for Academic Affairs. The area of study, type of degree, and graduation date will be the same as the original document.
Academic Programs

Degrees Offered
Bennett College confers the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Arts and Science in Interdisciplinary Studies, and the Bachelor of Social Work. These degrees represent the satisfactory completion of at least 120 semester hours, an overall average of at least C, and a grade of at least C in each course that the student has taken to satisfy the requirements for graduation in her major field. The College currently offers 15 majors.

Declaring Majors
Students must officially declare their majors by the end of their sophomore year.

Majors:
- Biology
- Business Administration
- Computer Science*
- Elementary Education (K-6)
- Education Studies
- Interdisciplinary Studies (Africana Women’s Studies Track, Honors Traditional Track).
- Journalism & Media Studies
- Political Science*
- Psychology
- Social Work

*These majors are not accepting new students.

General Education Program
The General Education program at Bennett College consists of 35-36 semester hours of course work in the areas of:
- Communications
- Foreign Language
- Introduction to Research Methods
- Mathematics
- Physical Education
- Fine Arts
- Natural Sciences
- Social and Behavioral Sciences
- History/Philosophy/Religion

The 35-36 semester hours includes 23 credit hours from specific (core) courses and an additional 12-13 credit hours from electives in individual areas of study.

All Bennett College Students are required to complete 23 credit hours consisting of the following core courses:

Communications Subject Area (6 hours)
First Year Writing Courses: Each student must complete a two-semester sequence (LW 102-103) in English composition with a grade of “C” or better. The sequence develops student’s communication skills in written formats; this includes reading critically as well
as writing clearly in a variety of styles. After completing these courses students are expected to be able to write clearly and concisely in Standard English and to be generally prepared to do college level writing and editing.

- LW 102 Literature & Writing I (3)
- LW 103 Literature & Writing II (3)

**Foreign Language (6 hours)**
Students are required to complete 6 sequential semester hours of the same language.

**Introduction to Research Methods (3 hours)**
All students are required to complete an Introductory Research course with a grade of “C” or better by the end of their sophomore year. Pre-requisite LW 102 and LW 103.

**Mathematics Subject Area (6 hours)**
Mathematics and statistics courses give students competence in quantitative methods and an understanding of how those methods are used to describe and analyze the natural world. These courses also give students exposure to the theories and practice of mathematics, and to the unique nature of mathematical knowledge. They will have a practical component, giving students the opportunity to apply mathematical and statistical methods to "real-world" problems.

**Physical Education (2 hours)** Each student must complete 2 semester hours in fitness/physical activity.

---

Students are required to complete one course from each of the following areas of study. These courses may include approved interdisciplinary courses.

**Fine Arts (3 hours)**
Students are required to complete 3 semester hours of humanities coursework in the fine arts. Fine Arts courses provide students the opportunity to study the aesthetic dimension of human experience and to learn how people have given creative interpretations to events from differing perspectives.

**Natural Sciences (3-4 hours)**
Students must successfully complete 3–4 (with lab) semester hours of approved coursework in the natural sciences that include biology, chemistry, physical science, and physics. Courses will give students experience in the theories, principles, and practices of the natural sciences and will address the relationship of science with the modern world.

**Social and Behavioral Sciences Subject Area (3 hours)**
Students must successfully complete 3 semester hours of approved coursework in the social science disciplines. Social sciences courses include the disciplines of economics, sociology, geography, political science, and psychology.

**History/Philosophy/ Religion Subject Area (3 hours)**
Students must also complete 3 semester hours of approved coursework in the study area of history, religion, or philosophy.

---

Community Service

The mission of Community Service and Civic Engagement at Bennett College is to serve as a liaison for students and community resources within the greater Greensboro, North Carolina area. Students are challenged to fulfill their civic responsibility by exploring various dimensions of entrepreneurship, global education, communication, and social justice.

Community Service is intentional volunteer work that benefits the local community. It is often done near the area where the student lives, so the student’s own community reaps the benefits of the work. Students are not paid to perform community service but volunteer their time. Community Service can help many different groups of people: children, senior citizens, people with disabilities, even animals and the environment. Volunteers seek meaningful relationships with a community agency or an approved work site to perform duties that are dedicated to problem-solving initiatives in education, public safety, the environment, and other human needs. Through Community Service, student volunteers build networks and form partnerships that often lead to internship opportunities or full-time employment.

The College has mandated that all students graduating in 2024-2025 must complete a total of forty (40) hours of Community Service before graduation. Students graduating in
2026 and after will be required to complete eighty (80) hours of Community Service. Transfer students must complete a minimum of twenty (20) hours for each year of matriculation at the College.

Please contact 336-517-2200 or communityservice@bennett.edu.

Minors and Concentrations
A student may also select a minor area of study along with her major. Unless otherwise indicated by the specific minor, a total of 18 credit hours must be earned to satisfy requirements for a minor in selected disciplines.

An interdisciplinary concentration is required for the B.A.S.I.S degree in Interdisciplinary Studies. A total of 24 credit hours constitutes a concentration. Students seeking this concentration must have an approved curriculum plan by not later than the end of the Sophomore year.

Double Majors
Students who wish to pursue a double major must complete all General Education courses AND all requirements for both major areas. The Dean of Faculty must approve double majors by completing the Change of Major Form that is found in the Student Portal in SONIS.

Course Reuse
Courses can satisfy more than one requirement in a student's academic program under specific conditions. Students may reuse a course between: (1) their major and their minor; (2) a minor and general education requirements; (3) two separate majors. Major and general education course reuse is limited to specific instances in the major and are indicated in the major’s course requirements in the Academic Catalog.

NOTE: A course's credit hours are earned and counted only once, regardless of reuse.

Student Responsibility for Academic Program Requirements
Each student is responsible for the proper completion of her academic program as based on the requirements stated in the Academic Catalog. The assigned faculty advisor is available for consultation, but responsibility remains with the student. Additional advising assistance is also available through the Division of Student Success and Retention.

Academic Units
In keeping with its commitment, Bennett College offers a rigorous liberal arts education of excellence for its students. Faculty members are committed to the delivery of a liberal arts curriculum in an environment of open inquiry. The education program encourages the development of the critical and analytical thinking necessary for students to continue to educate themselves in the years after college, thereby making their education constantly relevant and lifelong. Faculty, staff, and administrators consider it a fundamental principle to provide for students a unique and flexible program of instruction, supplemented by rich experiences in group participation and community involvement. This program is designed to meet the need of an ever-changing global technological society. The standard of education provided by the College meets or surpasses the accreditation standards of the state, regional, and national accrediting agencies from which accreditation has been sought. Among these accrediting agencies are the Transnational Association of Colleges and Schools (TRACS) and the Council of Social Work Education (CSWE).
Academic Affairs, which is responsible for the administration of academic programs, currently consists of the following units under The Office of the VP for Academic Affairs: (1) the Student Success and Retention, (2) Holgate Library, and (3) the Center for Global Studies.

Collectively and collaboratively these units facilitate the mission of the College through its delivery of effective instruction, quality academic support services and engaging co-curricular programming. Faculty, staff, and administrators demonstrate and promote high academic standards and expectations through leadership, scholarship, research, and public service.

Academic Cultural Enrichment Series (ACES)*
The Academic Cultural Enrichment Series is designed to enhance the cultural, spiritual, and educational development of students through participation in a series of activities. These activities include special worship services, special convocations, lectures, and performing arts programs. This program is under the supervision of the Office of Academic Affairs. Such ACES programs will focus on academic and/or current issues that engage the campus and the community in stimulating dialogue. ACES Programs focus on personal development of students and include, but are not limited to, career preparation, presentation skills development, social behavior, and etiquette. Student participation in ACES programs is required. Students receive satisfactory or unsatisfactory grades determined by attendance. No academic honors are to be received at Graduation or Honors Convocation with an unsatisfactory ACES grade. ACES attire shall be dresses, skirts, and dress pants (no khakis). If there are any circumstances that may prevent a student from attaining the seventy-five percent (75%) quota of points for a given semester, she must apply for an attendance waiver with the ACES Coordinator during the first two weeks of any Minimester.

Students receiving ACES waivers must earn the designated number of points as outlined, which varies from semester to semester. FAILURE TO COMPLETE THIS REQUIREMENT WILL RESULT IN A “U” GRADE. Extenuating circumstances preventing compliance with this regulation must be presented for consideration.

An unsatisfactory grade in ACES may also impact one’s eligibility to run for student government and class offices and/or participate in membership intake activities for national sororities.
Academic Majors and Minors

The majors and minors offered by Bennett College are designed to empower students as critical thinkers, engaged citizens, and life-long seekers of knowledge, truth, beauty, spirituality, social justice, and global leadership. Faculty emphasize the connections between real-world experiences and scholarly theory and support the development of practical knowledge and soft skills necessary for personal and professional growth. Internships and para-professional work experiences are prioritized college-wide and are required for some majors. Bennett College’s academic majors and minors produce well-rounded students who are prepared for career entry and/or to pursue advanced degrees in their chosen fields.

The following academic majors are offered:
- B.S. in Biology
- B.S. in Business Administration
- B.S. in Computer Science (not accepting new majors)
- B.S. Education Studies
- B.S. in Elementary Education (K-6)
- B.A. & B.S. in Interdisciplinary Studies (2 tracks: Africana Women’s Studies and Traditional Track).
- B.A. in Journalism and Media Studies
- B.A. in Psychology
- B.S.W. in Social Work

The following academic minors are offered:
- Biology
- Chemistry
- Computer Science (not accepting new minors)
- English
- Entrepreneurship
- Global Studies
- Journalism and Media Studies
- Political Science
- Psychology
- Sociology
- Theatre
- Women’s Studies

In keeping with its mission, Bennett College encourages, promotes, and supports opportunities for undergraduate research, professional development, summer experiences, study or travel abroad, career-oriented writing, presentations, and community service.

The guidelines for being admitted to the major are:

- Students can declare a major in the first year of study, but they will not be formally admitted to the major until all the requirements for admission to the major have been fulfilled at the end of the sophomore year. They will be assigned an academic advisor in the Program of the proposed major in the first year of study.
The student will enroll in the first year and sophomore year major courses in the curriculum pattern of their potential major.

The student’s performance in major field courses and in other courses including General Education courses will be assessed by a program committee in each semester to monitor the progress of the student. Each major Program will determine indicators of satisfactory performance and progress in the major.

The minimum standard for a student to be formally admitted to the major at the end of the sophomore year is that a student must earn a minimum grade of “C” in major field courses in the first year and sophomore year. Each Program will establish the specific courses in the major curriculum pattern in which a grade of “C” will be required. The Programs will also determine additional conditions for allowing the student to be formally admitted to the major, including a minimum cumulative GPA.

The Program will inform the student in writing, that they have been formally admitted to the major when they have achieved all the requirements for admission.

In some cases, as with a transfer student, a student may be admitted to the major before the end of the sophomore year with the approval of the Program. The student must achieve all requirements for being admitted to the major.

If a student does not meet the standards to be formally admitted into a preferred major by a program, they may appeal the decision of the Program.
BIOLOGY
Bachelor of Science, Biology

Mission

The Mission of the Biology Program is to prepare students for careers in research, teaching, biological and medical fields, industry, and government, and for admission to graduate, medical, dental, allied health and other health professional schools. The Mission of the Bachelor of Science in Biology is in alignment with the Mission of the College to develop scholarship, leadership, and global acumen within the students of the Program. Through offering core biology courses supplemented with biology electives, the Program meets the needs of our students by providing a curriculum, which develops proficiency in the biological sciences needed to succeed in graduate school, professional school, and the science industry.

Student Learning Outcomes

Student Learning Outcome I

The student will demonstrate basic knowledge in specific Core Areas of Biology. They include:

1. Cell biology
2. Molecular biology and genetics
3. Organismal biology
4. Population biology, evolution and ecology and will successfully complete all courses required for the biology major.

Student Learning Outcome II (Knowledge Goals)

Upon completion of a major in biology, students will demonstrate an understanding of the following concepts in biology:

A. Matter and energy in organisms.
   a. Structure of biological molecules
   b. Catalysis and metabolic pathways
   c. Energy conversions in organisms

B. Structure-function relationships in cells and organisms.
   a. Cell structure and function
   b. Physiology of multicellular organisms
   c. Adaptations to the environment

C. Transmission of genetic information in organisms and populations
   a. Transmission genetics
   b. Molecular mechanisms of information coding, use, and transfer
   c. Population genetics

D. Evolution and the origin of organismal diversity
   a. Evidence for evolution
   b. Processes of evolution
   c. Patterns of evolution
   d. Diversity and classification of organisms

E. Structure and function of ecosystems.
   a. Intra-and interspecific interactions
b. Population growth
c. Energy flow in ecosystems
d. Matter cycling in ecosystems.

**Student Learning Outcome III (Skill Goals)**
Upon completion of a major in biology, students will demonstrate mastery of the following skills:

A. Formulation of scientific models based on observation of biological phenomena.
B. Evaluation of scientific models
C. Written, oral, and multimedia scientific communication.
D. Retrieval and evaluation of information from the scientific literature, electronic databases, and online resources
E. Use of scientific instrumentation and information technology
F. Use of basic laboratory techniques

**Student Learning Outcome IV (Skill Goals)**
Students will develop professional skills that will ready them for employment or further study in the field of biology and prepare themselves for entry into professional schools and graduate programs.

**Core Courses for the Biology Major:**
The Biology major consists of 79-82 credit hours consisting of 60-62 credit hours of core courses and 19-20 credit hours consisting required electives listed below. All Biology major required courses must be passed with a grade of “C” or better.

<table>

Total Hours 3-4
Global Leadership and Interdisciplinary Studies

Global Studies Minor and Certificate

The Global Studies Minor and Certificate are programs designed to provide an interdisciplinary and global perspective on the arts, the humanities, the social sciences, the sciences, and mathematics. Both the Minor and Certificate are flexible and designed to complement majors and minors across the College, affording students the opportunity to reach beyond their majors or to take courses related to their majors outside of the context of the United States. The Certificate and the Minor will be useful for students in a variety of disciplines, particularly fields with international, multicultural, and regional content. The program will also enhance the prospects of those students pursuing further academic studies in fields such as business, law, education, sociology, social work, psychology, political science, international relations, languages, literature, the arts, as well as the sciences and mathematics. Students who successfully complete the requirements for either the minor or certificate will earn a Global Studies Minor or Certificate notation on their academic transcripts.

Minor in Global Studies

The minor requires 18 credit hours, which includes the required foundation courses. GS 101 Introduction to Global Studies. Only 200-numbered course and above will fulfill the other Global Studies minor requirements. Please note that if a student has already taken a general education course to fulfill a requirement for another minor or major, she may not use the same course as part of her Global Studies minor curriculum plan.

Certificate in Global Studies

In addition to completing 18 credit hours as indicated above, the Global Studies certificate is an additional credential requiring a capstone project, which consists of a significant experience or course of study in another country, a substantive research paper, and a public presentation of the paper. Students wishing to acquire the certificate are therefore required to register for GS 100, which is a non-credit-earning seminar, to prepare them to live in a different cultural setting and to ensure that proper documents and other procedures are completed and understood prior to overseas travel. They must also register for Global Studies (GS) 498 in the fall or GS 499 in the spring, at the conclusion of study abroad, to receive one (1) additional credit for the capstone project completion and public presentation.

Students interested in the Global Studies certificate or minor should contact the Executive Director of Global and Interdisciplinary Studies. For both the minor and the certificate, the student is expected to maintain at least a C (2.0) average. Upon request, and in consultation with the Executive Director of Global and Interdisciplinary Studies, additional courses may also be approved for the minor or certificate, including courses that will be taken during Study Abroad and other courses that provide global content and increased global perspective.

Required Foundation and Capstone Courses for the Global Studies Certificate:

GS 100 Pre-Departure Seminar for Study Abroad (Certificate) (Non-Credit)
GS 101 Introduction to Global Studies (Certificate and Minor) (3)
Introduces students to the concepts and methods utilized in the pursuit of global studies from an interdisciplinary and international perspective.
In addition, **14 credit hours** must be chosen from the following interdisciplinary courses:

Bachelor of Arts and Sciences in Interdisciplinary Studies
Africana Women’s Studies Track

Mission:
The mission of Africana Women’s Studies at Bennett College is to support the institutional goals of scholarly excellence, leadership preparation, and life-long learning through the development of an academic program based on the self-study of women locally and worldwide, with particular emphasis given to understanding the experiences, socio-cultural conditions, and histories of Africana women. Students will acquire research skills informed by feminist and Africana/Black feminist methodologies; develop critical reading and writing skills through learning communities; and further their understanding of feminist praxis through service-learning.

Students in the Africana Women’s Studies track of the Interdisciplinary Studies Major must complete a minimum of fifty-one (51) hours beyond the General Education requirements. Thirty-three (33) are part of a required core for all students majoring in Africana Women’s Studies. Twelve (12) are major electives that fall into four groups (A-D): Journalism and Media Studies, History, Political Science, and International Cultures. An additional six (6) hours of electives relevant to Africana and/or Women’s Studies (major elective Groups B-E) are also required.

Student Learning Outcomes:

SLO 1. Black Feminist Literacy. Students will demonstrate knowledge of major events, theories, and thinkers—in local, national, and international feminist and Black feminist scholarship from a variety of perspectives.
SLO 2. Africana Cultural and Political History. Students will be able to demonstrate knowledge of the national and international history and culture of people of African descent around the world, including social and political activism.

SLO 3. Critical Thinking. Students will learn to apply feminist analytical tools, informed by such considerations as class, race, politics, gender, religion, geography, creativity, ability, and sexuality to evaluate critically the experiences of women and girls historically and in the present.

SLO 4. Research Skills. Students will acquire basic intersectional and feminist-informed research skills, including (as appropriate) the effective use of libraries, archives, databases, oral histories and collecting observational data, and reading and synthesizing information from multiple sources and disciplines.

SLO 5. Intellectual Integration. Students should demonstrate their mastery of the knowledge and skills involved in Black feminist praxis by conceptualizing and executing a capstone project in the senior year that includes an annotated bibliography and research paper or creative project based on their coursework in the major.

Concentration: 6 Classes are required from the Major Concentration groups –see below—and must be approved by advisor.

Free Electives: Free electives or minor courses totaling 33 credit hours—usually eleven classes.

General Education: General Education Requirements and Required Area Electives

TOTAL 120

*Course is available for re-use to satisfy General Education area requirement.

Students must complete 3 credit hours of major electives from each of the following groups: Group A (Journalism and Media Studies), Group B (History), Group C (Political Science), Group D (International Cultures). In addition, students must complete 6 credit hours of open major electives consisting of additional courses from Groups B-E. Group E includes optional courses relevant to the major that may be used for these 6 credit hours. Interdisciplinary and/or special topics
seminars relevant to Africana Women’s Studies and one of the groups A-E may also be approved for these requirements.

Example Course Plan for the Bachelor of Arts and Science Interdisciplinary Studies – Africana Women’s Studies Track is detailed in Appendix I – Curriculum Plans. In close coordination with and approval of their advisor some students may create a different path or sequence of course enrollment.

**Bachelor of Arts and Sciences in Interdisciplinary Studies**

**Traditional Track**

**Mission**

The Interdisciplinary Studies Program - Traditional Track at Bennett College provides scholarly support to students as they create and develop their unique self-designed academic focus. The Traditional Track supports Bennett’s institutional goals of scholarly excellence, leadership preparation, and life-long learning. Participating students are provided with an academic framework that encourages completion of general education requirements and exploration during the first two years. Before beginning their junior year, the students declare academic areas of focus and submit a course plan for approval, choose two faculty sponsors from different academic disciplines, and complete an IS-Traditional Track Concentration Advising Document. All students must complete a supervised on-site internship (minimum 100 hours) related to their concentrations and in service to the wider community.

**Student Learning Outcomes**

1. Students will be able to understand and apply within their written work the interdisciplinary research methods, tools, understanding, and sensitivity, which is needed to critically evaluate existing research and ethical practice.
2. Students will be able to apply major research approaches and critical modes of inquiry to specific research activities and projects.
3. Students will complete a substantive community-based internship experience and provide an extensive oral report concerning their internship activities.
4. Students will be able to conduct interdisciplinary research that draws from multiple disciplines to analyze questions and issues facing diverse communities both locally and globally.
5. Students will demonstrate a commitment to the fundamental merit of learning from experiences in and out of the classroom and be able to communicate how their educational experiences as an IS Major relate to their future career goals, areas of interest, and everyday life.
6. Students should demonstrate their mastery of interdisciplinary methods by conceptualizing and executing a capstone project in the senior year that includes

The remaining 6 hours of electives may be selected from WS courses, cross-listed courses, special topics courses, or related courses, and must be approved by the Executive Director of Global Leadership and Interdisciplinary Studies.
Bachelor of Arts, Political Science*
*The Political Science major is not accepting new students.

The program offers a broad range of courses drawn from the diverse field of political science – American Government, Public Administration, International Relations, Comparative Politics, Political Theory, and Research Methods in Political Science. Courses in political science help students learn to think analytically and critically and to communicate effectively. This course of study is helpful in the fields of law, international affairs, and governance.

Political Science Minor
The political science minor provides a student the opportunity to take courses in the diverse fields of political science. Eighteen (18) hours are required for the minor and a student must earn a “C” or better in the two (2) core courses for the minor: (1) PO 100 Introduction to Political Science and (2) either PO 305 Classical Political Theory OR PO 406 Modern Political Theory. The student must select the remaining twelve (12) credits in consultation with her political science academic advisor.

Sociology Minor
The undergraduate minor in Sociology develops and enhances students’ analytical and critical reading, thinking, writing and presentation skills set. The program helps students comprehend and appreciate the various aspects of sociology, including, but not limited to, social policy, group process, social systems, social movements, and social changes from local, regional, national, and global perspectives. Enrollment in this minor program enables students to analyze social challenges facing various communities, societies, nations, and racial and ethnic groups in the 21st century global environment. Core courses for the minor in Sociology are SO 201, SO 254, and SO 327. Students are required to complete a minimum of eighteen (18) hours to minor in Sociology.

The goals of the Sociology Minor are to:
- Offer a quality program of study which supports and enhances the mission of Bennett College.
- Provide a strong academic foundation which develops critical thinking skills in the fields of sociology, community development, law, public policy, government, and international relations.
- Provide students with opportunities to conduct research and obtain externships or internships which will allow them to employ and enhance their intellectual and technological skills.
- Prepare students for graduate school, law school, or entry-level positions in governmental, business, or for-profit and/or non-profit organizations.

Graduation Requirements for the Sociology Minor include:
- Satisfactory completion of at least 120-124 semester hours.
- Satisfactory completion of all minor courses, 18 semester hours.
- Earned an overall GPA of 2.5 or above.
- The filling of an application for degree.
- Completion of at least 80 hours of community service.
Optional Graduation Requirements for the Sociology Minor include:

- Successful completion (grade “B” or better) of the Sociology Independent Study capstone course
- Taking specified graduate admissions tests (GRE, LSAT, etc.)

Bachelor of Arts, Psychology

Mission

The mission of the Bennett College Psychology BA degree program is to prepare students for graduate school and career entry, to promote the value of lifelong learning, and to enable students to acquire the skills and knowledge they will need to become leaders and engaged members of their communities. To these ends and in accordance with the APA (American Psychological Association) Guidelines for the Psychology Major (2013), students are required to assemble a knowledge base in psychology, to develop their capacity for critical thinking and engaging in scientific inquiry, to develop an awareness of their ethical and social responsibilities, to become adept at oral and written communication, and to apply what they have learned to their own personal, scholarly, and professional development.

In keeping with the mission of the college to prepare “... women of color through a transformative liberal arts education to lead with purpose, integrity, and a strong sense of self-worth. Bennett provides educational access to students while promoting inquiry, civic engagement, social justice, lifelong learning, and equity for all ...,” the program will prepare students to enter graduate or professional study in psychology and allied fields, to assist in critical thinking regarding current culturally sensitive interventions and the development of new ideas for increased cultural competence in the field, to work as professionals within the discipline of psychology and in allied fields, and to become leaders in education and research, especially in areas that relate to a multicultural population.

Student Learning Outcomes

SLO 1. Comprehension of Discipline-specific Concepts: Students will demonstrate a general understanding of the major areas, figures, theories, approaches, tools, and techniques of psychology.

SLO 2. Communication in the Discipline: Students should be able to communicate about psychology, in both verbal and written form, in an effective and professional manner, to both professionals in the discipline and related fields and/or with the public by utilizing current technologies.

SLO 3. Knowledge of Career Options: Graduates will demonstrate knowledge of career options in psychology and related disciplines.

SLO 4. Professionalism & Ethical Behavior: Graduates will demonstrate understanding of issues relevant to becoming a professional in the discipline, ethical practice, and safeguards, and will document practical experience relevant to the discipline.
SLO 5. Research & Analytic Skills: Students will demonstrate research and analytical skills.

Required core courses for all Psychology Majors
PS 101*, 254, 255, 274, 275, 300, 313, 315 or 438, 323, 326, 329, 440, and 455.

All majors must also take BI 101. Related major elective courses include three courses, one from each of the areas listed below.

Required core courses for Psychology Minors
PS 101*, 254, 274, 300.

Electives for Minors
Electives for minors include one course each from the three following areas:

Clinical/Applied Electives:
- Abnormal Psychology (PS 326)
- Introduction to Counseling (PS 330)
- Special Topics in Clinical/Applied Psychology (PS 370)
- Tests and Measurements (PS 436)
- Behavior Modification (PS 438) [note: none can count for both core and elective requirements]

Physiological/Cognitive Electives:
- Fundamentals of Learning (PS 315) [note: cannot count for both core and elective requirements]
- Memory & Cognition (PS 320)
- Special Topics in Physiological/Cognitive Psychology (PS 390)
- Sensory Processes (PS 424)
- Animal Behavior (PS 430)

Social/Developmental Electives:
- Developmental I (Child Development) (PS 301)
- Developmental II (Adolescence) (PS 302)
- Psychology of Women (PS 345)
- Afrocentric Psychology (PS 350)
- Special Topics in Social/Developmental Psychology (PS 380)
- Health Psychology (PS 415)

**Business and Entrepreneurship**

**Mission**
The mission of the Program in Business and Entrepreneurship is to prepare students for the demands of the twenty first century labor market, business opportunities, corporate jobs, public service, and advanced studies. Our curriculum is structured to equip students with competencies in business, economics, finance and entrepreneurial concepts and principles. The educational experience prepares students for success and excellence.
These competencies emphasize skills that lead to leadership, teamwork, critical thinking, decision making, research and problem solving. Thus, students will be able to conduct basic business research studies, evaluate the results and draw conclusions to solve business, economics, financial, and marketing related problems. Students will leave Bennett College prepared for success in any work of life. We work to accomplish these through rigorous academic curriculum, which we complement with experiential programs such as internship, community services and extra curricula activities.

**Student Learning Outcomes**

The Business and Entrepreneurship program is designed to help students develop problem solving, critical thinking, communication, teamwork, and analytical skills, among others. As a result, at graduation, students can do the following:

**SLO 1**: Students can demonstrate critical thinking skills through:

Reasoning, Evaluating, Analyzing, Synthesizing, and Decision-making.

1. Students will demonstrate reasoning ability to understand and recognize questions or problems and determine what is needed to solve the problem.
2. Students can evaluate and identify whether the information collected is reliable and valid.
3. Students can analyze, make decisions, and recommend solutions to the business or economic problem.

**SLO 2**: Students can demonstrate proficiency in communication skills in the Business, Economics or Entrepreneurship content areas.

1. Students can demonstrate the convention in writing communication through essays, term papers, reports, and official correspondence.
2. Students can identify ethical issues and their implications on a range of situations and incorporate ethics and facts while reporting information.

**SLO 3**: Graduates from our Business program can design and conduct basic studies to answer business related questions using appropriate research methods. Thus, students:

1. can use collected data and relevant statistical approaches to address different types of research questions and hypotheses.
2. should understand the limitations of applying normative conclusions; recognize that individual differences and socio-cultural factors may influence application of research findings; and that research findings may have unexpected consequences on a society.
3. can interpret basic statistical results from research studies; distinguish between statistical significance and practical significance; describe the effect, size, and confidence intervals; and evaluate validity of conclusions presented in research reports.
4. can draw from results to predict business, economic, financial, or marketing behavior.
5. can use results to develop a project, plan and make business, economics, financial and marketing decisions.
Summary of Program Requirements
To receive a Bachelor of Science degree in Business Administration (Management) requires a total of 120 to 122 credit hours of coursework. Sixty-three (63) credit hours of this are in core courses - Accounting, Business, Economics, Finance and Marketing, with a grade of C or above in each of these courses. The student must successfully complete another Thirty-six credit hours (36) of General Education courses. For a student to further explore other disciplines that complement the Business Administration major and other interests she must complete twenty-one credit hours (21) of electives; one in Computer Science; three in the Business field and three in other interests. A minor in Entrepreneurship requires 21 credit hours of selected courses.

Example Course Plan for the Bachelor of Science – Business Administration is detailed in Appendix I – Curriculum Plans. In close coordination with and approval of their advisor some students may create a different path or sequence of course enrollment.

Total Hours 63

Required Electives for the Business Administration – Management Major
Three (3) Program Electives (Any 200 or higher level, 3 credits/course) 9

One (1) Computer Science Elective, 3 credit/course (Approved by Advisor) 3

3 Free Electives, 3 credits/course 9

Total Hours 21

NOTE: EC 201 and EC 202 are among the elective choices to satisfy the General Education area requirement for Social and Behavioral Sciences. These courses are also required for the Business major and cannot be double counted to satisfy the General Education area requirement.

All required relevant course substitutions must be reviewed and approved by a Business and Entrepreneurship Program Academic Advisor. The course description of the substitute course must match at least sixty percent of the course content offered at Bennett College.

Special Note - EI 200 Foundations for Entrepreneurship is a prerequisite for BA 340 Entrepreneurship & New Ventures but not a prerequisite for Business majors.

If BA 210 is not offered or cancelled due to low enrollment, students may enroll in the BA 320 Marketing course if offered. Students will still need to take BA 210 when it is subsequently offered.

Entrepreneurship Minor
The Entrepreneurship Minor is designed to provide an interdisciplinary perspective on the social science and education, natural and behavioral sciences/mathematics, and humanities. The Entrepreneurship minor is designed to complement majors and minors across the College by affording students the opportunity to take courses designed to address the challenges of launching a new venture or an idea. The Entrepreneurship minor will provide students with essential skills and techniques for identifying and commercializing business opportunities that complement their major field of study.

Students who successfully complete the requirements for the minor will earn a notation on their academic transcripts. The Minor requires eighteen to twenty-one (18-21) credit hours. Students wishing to minor in Entrepreneurship will follow the same guidelines that apply to all minors in the College: i.e., only 200-numbered courses and above will fulfill the Entrepreneurship Minor requirements.

Students interested in the Entrepreneurship Minor should contact the Director of Entrepreneurship. For the minor, all students are expected to maintain at least a 2.5 grade average in the minor.

Education Programs

Mission
The Education programs are committed to the preparation of educators as facilitators of learning by providing prospective teachers and future education professionals with understanding of learning theory and teaching practices that intentionally include the cognitive, emotional, social, psychomotor, and affective domains. Grounded in thorough theoretical and practical knowledge, students are enabled to master the required concepts, skills, and aptitudes needed to guide developmentally appropriate learning experiences for children as facilitators of learning and educational leaders in the contemporary global community. The goal of the Education Programs is to provide students at Bennett College with the instruction and resources needed to become skilled, proficient, confident, and effective educators and leaders who make a positive impact on the lives of children.

Bachelor of Science, Elementary Education
The Bachelor of Science in Elementary Education is the result of the Educator Preparation Program, or EPP.

Conceptual Framework, Education Preparation Program (EPP)
The Educator Preparation Program at Bennett College prepares educators as facilitators of learning in the contemporary global community.

Knowledge Bases

1. Theories of Teaching and Learning
2. Diversity/Global Studies
3. Assessment
4. Developmental Behaviors
5. Educational Related Legislation and Litigation
6. Ethical and Professional Behaviors
7. Financial Literacy
8. Leadership Development
9. Integrated Technology

Student Learning Outcomes (SLO)

SLO 1: Students will consistently model and demonstrate a commitment to diversity/multiculturalism during instructional delivery and interactions with students, faculty, parents, community leaders, and other stakeholders.

SLO 2: Students will demonstrate through reflective and theory-based coursework behaviors necessary for integrating history, values, laws, and regulations related to services for people with disabilities into the classroom environment. The Elementary Education program is designed to prepare students for careers as licensed teachers or instructional coordinators.

SLO 3: Students will adhere to and be able to demonstrate the nine pillars of the Curriculum and Instruction conceptual framework in alignment with the North Carolina Tenets of professional education programs.

SLO 4: Students will know how to create, design, and implement classroom environments conducive to learning and growth through exploration in STEM, the arts, and literacy.

Licensure Areas

- Elementary Education (K–6) (Bachelor of Science)

Educator Preparation Program (EPP)

To receive a B. S. Degree in Elementary Education, students must successfully complete 47 credit hours of General education, 75 credit hours of program courses, and admission to the EPP. Admission to the EPP is officially offered at the end of a student’s junior year, provided that the student meets the following qualifications:

- Students must have a 2.7 career GPA.
- Praxis Core scores as described below, or the equivalent scores on their ACT or SAT. These scores are regulated by NCDPI.

If the student does not meet one or both of the above requirements, they will be transferred to the Education Studies major, which is a non-licensure program. The North Carolina Department of Public Instruction determines North Carolina’s certification requirements, eligibility standards, Praxis passing score requirements and reciprocity agreements.

During their first semester in the program, all students declaring an education program as a major must obtain a clear Criminal Background check (CBC) and volunteer clearance required by Guilford County Schools. This must be completed by the third week of the student’s first semester. The student is responsible for any costs incurred during this process. This process must be completed again in the student’s sophomore and junior years. In the summer before senior year, students must complete the Guilford County Schools student teacher application, which is posted on the GCS human resources website.
Over the course of their senior year, the student must complete 60 hours of practicum experience. In the fall, the student will complete twenty (20) hours of limited-responsibility internship as part of ED 460. In the spring, the student must complete a successful nine (9) credit hour clinical/student teaching practicum and a three (3) credit hour capstone seminar with a “C” or better in the same semester, clear satisfactory disposition from clinical/student teaching practicum. This experience requires three days per week of full-time school immersion for twelve (12) weeks, with two weeks of intensive preparation for licensure examinations at the end of the term.

The student must also participate in the edTPA submission process. A minimum grade of “C” (no Pass/Fail) is required for all EPP courses and specialty area courses. For Licensure recommendations, the student must follow the most current NCDPI standards.

The minimum hours required for graduation in Elementary Education is one hundred twenty-two hours (122).

**Core Courses for the B. S. Elementary Education Major**

Elementary Education Majors must have the current passing score on each of the three Praxis Core examinations (Math, Reading, and Writing) to take any senior level courses. Education courses may not be taken by non-education majors without approval from the program faculty lead.

Major Program Requirements

**NOTE:** All students must participate in the Curriculum and Instruction EPP Program Training where they will receive and acknowledge with their signature the Fieldwork Handbook and the Student Teaching Handbook with additional criteria for the Elementary Education Major. These requirements are subject to change under NC Legislative GS 115C-269.15, GS 115C-269. (9) and other state regulations.

- Total Semester Hours Required for Elementary Education Degree: 120.
- Pass/Fail is not accepted, and transfer credits must show a grade.
- Prior to entering Bennett College’s educator preparation program, students must take and pass all three Praxis Core Academic Skills Examinations for Educators in reading, writing, and mathematics.
- The Praxis requirement is waived completely for students who achieve a combined Verbal and Mathematics of 1100 or as designated by the state at the time of candidacy application.
- The Mathematics Praxis requirement is waived for students who score 550 or higher on the quantitative portion of the SAT.
- The reading and writing Praxis requirements are waived for students who score 550 or higher on the verbal portion of the SAT.
- Individuals with a composite ACT score of 24 or above are exempt from the requirement of taking the Praxis Core test.
- Passing scores, or their equivalents on the SAT/ACT, must be earned in the areas of reading, writing, and mathematics – there are no exceptions to this requirement.
- Under the most current North Carolina Department of Instruction regulations, passing scores are required from official testing services documents.
- International and out-of-state students must meet the same deadlines as in-state students.
- Volunteer applications with Guilford County Schools and the appropriate background checks must be completed before admission to the education program.
- Students who need to request reasonable accommodation are encouraged to meet with the Office of Accessibility.
- Students whose career GPA drops below 2.5 while in any year of the education program are required to meet weekly with the education program faculty lead until their GPA rises to 2.7.
- Students who have met requirements as listed here must meet with the education program faculty lead before beginning their senior year to ensure that they understand the schedule, requirements, and other details of the senior year course plan and licensure process.
Transfer students interested in the Elementary Education program must meet with the major advisor for approval and have a registrar’s clear transcript audit.

During their senior year, students must complete all the following requirements for graduation:

- Participate in the edTPA portfolio program during student teaching, with submission at the end of their spring semester.
- Participate in and maintain satisfactory disposition ratings in all semesters as a major.

During their senior year, students must complete the following requirements to be recommended for licensure:

- Successful completion of all edTPA State requirements for graduation
- Passing scores on the Pearson Foundations of Reading Test AND the Praxis Content Knowledge Test – Mathematics 5713. The passing score is determined by the NC legislature and the Department of Public Instruction.
- A satisfactory exit review from the student’s cooperating teacher and elementary school principal

All licensure requirements are subject to change under the North Carolina General Assembly, national and/or regional accrediting body, and North Carolina Department of Instruction (NCDPI).

The Course Plan for the Bachelor of Science – Elementary Education is detailed in Appendix I – Curriculum Plans. Because the courses build on prior knowledge and increase in complexity and methods content as students progress toward student teaching, it is not recommended that students take courses out of sequence. Students who transfer in mid-program will work with advisor(s) to create a course plan for their subsequent semesters before graduation.

Bachelor of Science, Education Studies
The Bachelor of Science in Education Studies is a non-licensure degree program that provides students with a broad foundation in educational practices and theory.

Knowledge Bases

1. Theories of Teaching and Learning
2. Diversity/Global Studies
3. Assessment and Program Evaluation
4. Developmental Behaviors
5. Educational Related Legislation and Litigation
6. Ethical and Professional Behaviors
7. Financial Literacy
8. Leadership Development
9. Integrated Technology

Student Learning Outcomes (SLO)

SLO 1: Students will consistently model and demonstrate a commitment to diversity/multiculturalism during instructional delivery and interactions with students, faculty, parents, community leaders, and other stakeholders.

SLO 2: Students will demonstrate through reflective and theory-based coursework the
behaviors necessary for integrating history, values, laws, and regulations related to services for people with disabilities into various learning environments. The Education Studies program is designed to prepare students for careers in education that do not require licensure.

**SLO 3:** Students will adhere to and be able to demonstrate the nine pillars of the Curriculum and Instruction conceptual framework in alignment with the North Carolina Tenets of professional education programs.

**SLO 4:** Students will apply their knowledge of the differences in learning from early childhood to adolescence to fostering environments where developmentally appropriate educational experiences can be created and implemented.

To receive a B. S. Degree in Education Studies, students must successfully complete **47 credit hours** of General education and **75 credit** hours of program courses. Entry into the Education Studies major may be selected initially; students may also be transferred into this program if they originally planned to major in Elementary Education but are unable to fulfill the requirements of a licensure program set by the state of North Carolina.

During their first semester in the program, all students declaring either education program as a major must obtain a clear Criminal Background check (CBC) and volunteer clearance required by Guilford County Schools. This must be completed by the third week of the student’s first semester. The student is responsible for any costs incurred during this process. This process must be completed again in the student’s sophomore, junior and senior years.

Over the course of their senior year, the student must complete 100 hours of practicum experience. In the spring, the student will complete a successful 9-hour internship and a 3-hour capstone seminar with a “C” or better in the same semester. This experience requires 8-10 hours per week of full-time internship for 14 weeks, with two weeks of intensive writing and editing of the final portfolio at the end of the semester. A minimum grade of “C” (no Pass/Fail) is required for all education courses and specialty area courses.

The minimum hours required for graduation in Education Studies is one hundred twenty-two hours (120).

**Core Courses for the B. S. Education Studies Major**

Education Studies Majors must complete all freshwoman, sophomore, and junior year education courses before taking their senior year courses. Education courses may not be taken by non-education majors without approval from the program faculty lead.

- During their senior year, students must complete the following requirements for graduation:
  - Completion of a practical internship: 8-10 hours per week with a three-hour seminar for 14 weeks.
  - Completion of the corresponding final project, a handbook covering all educational aspects of the internship experience with research-based recommendations for program improvement.
The Course Plan for the Bachelor of Science – Education Studies is detailed in Appendix I – Curriculum Plans. Because the courses build on prior knowledge and increase in complexity and methods content as students’ progress toward their internships, it is not recommended that students take courses out of sequence. Students who transfer in mid-program will work with advisor(s) to create a course plan for their subsequent semesters before graduation.

Journalism and Media Studies
Bachelor of Arts, Journalism & Media Studies

Mission
The Journalism and Media Studies Major offers students a foundation that provides skills required to become professional communicators. JM majors are encouraged to be committed to scholarship and critical thinking, theoretical experiences (e.g., course work, seminars, and workshops), and a variety of practical opportunities (e.g., internships; digital, print and broadcast productions). The JM program seeks to teach and maintain the highest standards of journalism ethics and professionalism.

Student Learning Outcomes
SLO 1: Students will identify their own development of media production skills that connect with potential career opportunities.
SLO 2: Students will tell compelling stories in multiple media genres.
SLO 3: Students will research and document issues relevant to the communities and cultures they serve.

**JMS Self-Designed Track (12 credit hours)**

Allows students with specific goals to design their ideal minor. In addition to two core courses above, select four JM electives (12 credit hours).

Example Course Plan for the Bachelor of Science – Journalism and Media Studies is detailed in Appendix I – Curriculum Plans. In close coordination with and approval of their advisor some students may create a different path or sequence of course enrollment.

**Social Work Mission**

The mission of the Social Work Program is to prepare ethically competent professional entry-level generalist practitioners for the reduction of social and economic injustice; the
advancement of human rights; the enhancement of human and community well-being; the promotion of scientific inquiry; life-long learning; and the development of social work values and ethics within the liberal arts education using a person-in-environment framework. The program is committed to public service, to respect the dignity and worth of the person, the elimination of poverty and the enhancement of the quality of life for all persons locally and globally.

**Student Learning Outcomes**

- **SLO 1:** Demonstrate Ethical and Professional Behavior
- **SLO 2:** Engage Diversity and Difference in Practice
- **SLO 3:** Advance Human Rights and Social, Economic, and Environmental Justice
- **SLO 4:** Engage in Practice-informed Research and Research-informed Practice.
- **SLO 5:** Engage in Policy Practice
- **SLO 6:** Engage with Individuals, Families, Groups, Organizations, and Communities
- **SLO 7:** Assess Individuals, Families, Groups, Organizations, and Communities
- **SLO 8:** Intervene with Individuals, Families, Groups, Organizations, and Communities
- **SLO 9:** Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

The bachelor’s degree program in Social Work (B.S.W.) is designed to prepare majors for professional, entry-level generalist social work practice and graduate study. With a liberal arts perspective and knowledge base and buttressed by professional foundation of social work knowledge, values, skills, cognitive and affective processes, the B.S.W. program is Bennett’s singular academic area for the preparation of trained social and human service professionals who work with individuals, families, groups, communities, and organizations, for resolution or modification of social problems.

The Social Work program requires a sophomore volunteer experience and senior-level field practicum and has an admissions process, which is described in “Engagement,” the Social Work Program Student Handbook. A grade of “C” or above must be earned in the core Social Work courses. The Bachelor of Social Work program is accredited by the Council on Social Work Education (CSWE) (through 2027). A GPA of 2.5 is required for admission to the Social Work program. There is no academic credit for life experience.

To be admitted into the Social Work program, a student must have maintained a GPA of 2.5 and completed and passed SW 203, and SW 247 with a grade of “C” or better. The Social Work program requires a minimum grade of “C” in all major core courses and in SO 201 and PS 101.

To receive the B.S.W., a student must successfully complete 55 credit hours of Social Work Major Core courses and a minimum of 9 Credit Hours of Social Work electives with no grade below a “C”. The minimum hours required for graduation in Social Work are one hundred twenty (120).

**Social Work Lab Fee**

Social Work students enrolled in the SW 410 Field Practicum and Seminar course are required to pay a lab fee.

Example Course Plan for the Bachelor Social Work – Social Work is detailed in **Appendix I – Curriculum Plans**. In close coordination with and approval of their advisor some students may create a different path or sequence of course enrollment.

**Honors Program**
The Honors Program at Bennett College presents opportunities for motivated students to enrich their college experiences through rigorous independent inquiry within, across, and beyond the college’s existing curriculum. The Honors Program offers individualized
advising to Honors students, sets clear expectations for Honors-level inquiry across disciplines, oversees documentation of Honors activities and courses, and provides guidance to students and faculty in the design, implementation, and assessment of Honors projects.

**Honors Program Eligibility**
Any Bennett student may attempt to earn Honors points once they are deemed eligible for Honors Program participation.

To be eligible for Honors Program participation, students must:

1. Be in good standing at Bennett College: making Satisfactory Academic Progress and have no current academic or student conduct sanctions.

2. Submit the Honors Program Application packet in the semester before they plan to take HN 101.
   a. Personal Information: name, student ID, classification, GPA (cumulative and most recent semester), program(s) of study, advisor(s).
   b. Personal statement: 200 words on the student’s goals and motivations in the Honors Program.
   c. Student self-evaluation.
   d. Mentor evaluations: evaluation form provided to two mentors (faculty, staff, employers, or supervisors who are qualified to evaluate the qualities and attributes referenced in the form). A minimum of one mentor must be the instructor for a course the student has taken at Bennett College.*

*Transfer students who wish to apply to the Honors Program may provide evaluations from faculty at their prior institution(s) OR work with the Honors Program Director on a case-by-case basis to demonstrate preparedness for the Honors Program.

**Honors Contract Procedures**
The following covers the procedure for documenting Honors Contracts, but not the expectations or requirements for individual Honors-level projects.

1. Working with the Honors Advisor, the student will identify courses in the next semester’s schedule for potential Honors upgrades and email instructors to ask if they are willing to provide a contract experience. If the faculty member is willing, they may ask the student to meet with them to create a contract proposal together OR provide the student with a faculty-designed Honors Contract.

2. If the faculty member agrees to proceed with a contract experience, the student must submit the electronic Honors Contract Approval Form for faculty approval and signature.
3. The Honors Contract Approval Form should be completed (signed by the student and faculty mentor) and submitted for review no later than the WP deadline of MM3 in the semester prior to the academic term in which the contract is to be undertaken. Contracts will be accepted for review up to the WP deadline for MM1 in the semester in which the contract is to be completed if the student can present a justification for the late proposal (such as changes to course offerings or class schedule).

4. After the Honors Contract has been signed by the student and faculty mentor, the contract will go to the Honors Advisory Committee for approval. The committee will either approve, approve with suggested changes, or deny.

5. If the committee recommends changes, the student is responsible for revising and resubmitting the contract before the last day of classes of the semester prior to the contracted course. Revised contracts must be reviewed and signed by the faculty mentor before resubmission.

6. The Director of the Honors program (or other designated representative from the Honors Advisory Committee) will rule on whether the changes made to a revised contract are satisfactory.

7. The student is responsible for maintaining communication (written or verbal) with the faculty mentor and providing regular updates on progress.

8. The student must provide a Mid-term Progress Report to the faculty mentor and Director of the Honors Program by the mid-term deadline established in the Honors Contract. At this time, faculty mentors may request termination of an Honors Contract if progress has been unsatisfactory. A student may request termination of an Honors Contract at any time by informing the Director of the Honors Program in writing that they no longer wish to continue the contracted project.

9. Changes to the original contract, including due date, will be considered on a case-by-case basis by the Director of Honors Program. Changes must be supported by all original signatories of the contract.

10. More than two unsuccessful attempts may result in a hold on registration for Honors participation. In order to regain eligibility for Honors, the student must resubmit the Honors Program Application packet. The personal statement and self-evaluation must demonstrate that the student has addressed the circumstances that prevented successful completion in the past.

11. Upon completion of the contract, the student must submit the Honors Contract Completion Packet, including supporting documentation and faculty-mentor evaluation form, to the Honors Advisory Committee for review.

12. The student must present the project outcomes before the Honors Advisory Committee.
13. The Honors Advisory Committee will review the contract, supporting documents, and presentation and determine whether the contract was successful or unsuccessful.

14. In order to receive Honors credit, the student must receive a successful review from the committee and a grade of B or higher in the base course. Completion of an Honors Contract (whether successful or unsuccessful) will not impact the student’s grade in the base course.

15. The Honors Advisory Committee will report successful Honors Contracts to the Office of the Registrar by the grade submission deadline for 16-week courses each semester. The Office of the Registrar will document successful honors projects with the appropriate HN designation (as indicated on the contract) when grades are processed for the semester. Successful honors projects will receive a grade of Satisfactory (S) on the transcript.

16. If the committee rules that a contract was unsuccessful, it will provide a justification for that ruling. If the student wishes to appeal the ruling, they must file an appeal with the Honors Program Director and the VPAA that includes a detailed rebuttal of the grounds for denial provided by the committee. The appeal must be filed no later than ten working days after the initial ruling was communicated to the student. Appeals must demonstrate, with supporting evidence, that the terms of the contract were fulfilled.
Accounting Courses

AC 201 Principles of Accounting I (3)
Study of basic concepts and principles of Accounting, the accounting cycle from journal entries to financial statements, in-service and merchandising concerns, and accounting for current plant assets. Prerequisite: sophomore standing

AC 202 Principles of Accounting II (3)
Study of accounting concepts and principles for liabilities and owner's equity of a corporation, accounting for manufacturing costs, planning, and control. Prerequisite: AC 201

AC 301 Intermediate Accounting I (3)
An overview of financial accounting with applications of the generally accepted accounting principles promulgated by the authoritative bodies in accounting theory, accounting process, income measurement, revenue recognition, current assets, and plant assets. Prerequisite: AC 202

AC 302 Intermediate Accounting II (3)
Continuation of AC 301 with topics on current liabilities, paid-in capital, retained earnings, and cash flows. Prerequisite: AC 301

AC 320 Managerial Accounting (3)
Study of accounting as a tool for analysis and interpretation of accounting data for use by management in planning and control. Prerequisite: AC 201

AC 330 Cost Accounting (3)
Study of cost classification and accumulation, cost-volume-profit relationship, cost accounting systems, and costs for management decisions, planning, and control. Prerequisite: AC 202

AC 350 Federal Taxation (3)
Develops an understanding of Internal Revenue Service Code and the application of accounting procedures for the preparation of tax reports. Prerequisite: AC 202

AC 400 Advanced Accounting (3)
Study of partnership formation, operation and dissolution, installment sales and consignments, and business combinations. Prerequisite: AC 302

AC 410 Auditing (3)
Presents aspects of auditing theory and procedures. Attention is directed to standards and responsibilities, internal control and procedural tests, and preparing audit reports. Prerequisite: AC 301
AC 420 Accounting Information Systems (3)

Study of the flow of accounting information through accounting systems and the integration of accounting systems with other information systems in a business organization. It integrates student knowledge of financial accounting and cost accounting with computerized information systems, especially functions, structures, data, and processes. Analysis of design and use of computerized accounting systems are emphasized. Prerequisites: AC 202 and AC 302

AC 460 Internship (3)

The internship program is designed to give students an opportunity to study and experience outside the traditional setting of the classroom yet within the framework of disciplined inquiry, and to refine their emerging professional career interests. Internship involves work and study under the direction of a professional and the concerned faculty member. The project or the actual program the intern wants to pursue must be clearly defined in writing. A comprehensive written report by the intern and an evaluation of the intern’s work by her supervisor are required. Prerequisite: junior standing

AC 480 Independent Study (3)

Supervised individual study and research in the student's special field of interest. Students will propose the investigation desired and in conjunction with the instructor, develop the scope of work to be completed. A comprehensive written report and oral presentation are required. Prerequisite: permission of the instructor

AC 490 Senior Seminar (3)

This course is designed to expose students to research and analytical methods on a wide range of issues and research questions. The content of the seminar is carefully planned to give students the opportunity to conduct an in-depth investigation and report their findings in the form of a standard research paper. An oral presentation of the student’s research work is part of the seminar. Prerequisite: senior standing

Africana Women’s Studies Courses

AN 120 Introduction to Anthropology (3)

This course is designed as a general introduction to anthropology with an emphasis on the subfield of cultural anthropology. Through readings, lectures, in-class assignments, use of audio/visual materials, field excursions and guest speakers, we will take an integrated approach in understanding this interdisciplinary field. We will examine the history of the discipline and of theoretical approaches to the study of human cultures, the methods and experience of anthropological fieldwork, the history of anthropological approaches to race and ethnicity, concepts of kinship and relatedness, gender and sexuality, and economic, symbolic, and ritual aspects of culture. We will also examine the shifts in anthropological theory and approach starting in the 1960’s, with discussions on the impact of feminism, the Civil Rights and Human Rights Movements, and the greater participation of international scholars and scholars of color in anthropological research. The impact of colonialism, globalization (including global health), violence, and poverty, and how their consideration has changed historical anthropological approaches as well as how political and literary critiques of anthropological theory and method have affected the discipline will complete this introduction to contemporary anthropology. In addition, students will engage in professional development exercises.
AN 130 Introduction to African Heritage (3)

This course provides an interdisciplinary introductory survey of African cultural heritage in the United States, from the origins of humanity in Africa through the Trans-Atlantic slave trade and into the present day. It explores African influences in multiple areas of American culture such as: food and foodways, dress and adornment, music, language, religion and spirituality, political and social organization, and art and material culture.

IS 155 Guided Study (3)

This guided study course is a collaborative course between faculty member and student. Students taking the course will investigate an issue or theme that reflects a special interest they have in a particular aspect of women's studies. In this course the student and faculty guide will focus on a series of readings that investigates their topic in women's studies scholarship. Emphasis in the course is upon active listening, critical reading, thinking, and writing. The course culminates in some form of written expression of what the student has learned. It is offered as needed in both Fall and Spring semesters.

IS 156 Guided Study (3)

This guided study course is a collaborative course between faculty member and student. Students taking the course will investigate an issue or theme that reflects a special interest they have in a particular aspect of women's studies. In this course the student and faculty guide will focus on a series of readings that investigates their topic in women's studies scholarship. Emphasis in the course is upon active listening, critical reading, thinking, and writing. The course culminates in some form of written expression of what the student has learned. It is offered as needed in both Fall and Spring semesters.

IS 357 Learning for Leaders (3)

This course is designed for undergraduate students to engage in a variety of learning activities that support an understanding of women's leadership. Students will be exposed to basic leadership concepts and theories of leadership. In addition, the course is anchored in the theories and practices utilized in feminist studies especially as it pertains to Black women and girls.

Through this course students will gain insight into knowledge and skills necessary to be effective women leaders in government, business, not-for-profit, educational, and civic settings. Students will leave the course with a newfound understanding of their own personal leadership style and of how they show up in the world.

IS 366 Internship (3)

This course is a structured fieldwork situation in diverse areas of the community and in cooperation with government agencies, industry, civic groups, and off campus persons accompanied by demonstrated, site based, research and reflection.

IS 459 Independent Study (3)

This independent study course is a collaborative course between faculty member and student. Students taking the course will create a self-designed project reflecting their work during the semester. In this course the student and faculty guide will focus on a theme or issue, identified by the student that reflects some aspect of women's studies scholarship. Emphasis in the course is upon active listening, critical reading, thinking, and writing.
WS 101 (replaces 100) Introduction to Women’s Studies (3)

This course is a basic introduction to the field of Gender and Women’s Studies (GWS). The course will explore a broad variety of topics and issues that all fall under the umbrella of GWS. We will consider all the following topics/issues: gender and power, reproduction in U.S. history, intersectional analysis, global/transnational feminism, sexuality and identity, feminism, and the prison industrial complex, gendered and sexual violence.

WS 200 Feminist Research Methods and Service Learning (3)

This course is a basic introduction to the ideas and goals of feminist research. Using Carol Anderson’s monograph as an example and building upon Ruth Behar’s positioning the researcher as vulnerable observer, students will explore how to use standardized research methods in ways informed by feminist and black feminist theories. Students will be introduced to methods (both qualitative and quantitative) that have been identified as best suited to undertake feminist research. In addition, students will discuss how variables of gender, race, sexuality, and class affect the choice of methods and analysis. Students will learn to apply research methods through a semester-long research project that includes a service- learning component. Emphasis in the class is upon the development of a research methodology and the refinement of critical reading, thinking, and writing skills. Our goal in this course is to develop student’s ability to engage in teamwork as young professionals in the workforce.

WS 203 Black Women in the World (3)

This topical course explores in depth specific issues that concern Black women in North America and globally. Topics will cover health—including breast cancer, obesity, HIV-AIDS—sexuality, careers, employment, Black women’s activism, entrepreneurialism, development, social services, criminality, etc. Emphasis will be upon students understanding the differences and similarities in how these issues affect Black women cross-culturally. Students may take WS 203 more than one time, if the Director deems that the topical content of the courses are sufficiently different.

WS 210 Identity, Violence and Justice (3)

Identity, Violence and Justice is a humanities-based course in which students will engage in critical, intersectional examination of concepts, practices, and representations of justice about the personal and institutional violence experienced by marginalized groups. In Women’s Studies we employ an interdisciplinary approach and as such will incorporate concepts present in different fields including history, philosophy, literature, and art. Through course readings as well as through media analysis students will critically unpack the criminal justice system, taking into their reflection: race, ethnicity, class, age, nationality, physical ability, sexuality, etc. and how these identities intersect with socio-cultural contexts. Additionally, as a class, we will consider the ways in which these representations inform our understanding of “crime,” “criminal violence” and “justice.” In our investigation of these issues, students will learn the perspectives present in feminist discourse surrounding these topics and develop their own. Throughout the course, we will explore larger systemic and cultural power dynamics and the influence of these power dynamics on the ideology and praxis of “law and order” in our society.

WS 300 Feminist and Black Feminist Theory (3)

This course is an in-depth examination of some of the key theories and ideas of feminism and Black Feminism, including post structuralism, postmodernism, essentialism, standpoint theory, womanist theory, etc. Students will read major works and learn to
engage in critical discussions of the basic ideas and principles that guide these theories, and discuss how they relate back to readings, as well as their own research. Students will learn how to discern theory through close readings of texts, and how to articulate their own position on theories. Emphasis in the course is upon critical reading, thinking, and writing.

**WS 310 Feminist and Black Feminist Theory (3)**

In this course we explore African American cultural heritage by investigating culinary traditions and foodways. We use a variety of learning activities that support an understanding of gender, culinary arts, African American heritage and culture, entrepreneurship, and sustainability. Students will also be exposed to basic culinary concepts, women’s studies, and African American heritage. Topics in this course will include: the overall importance of cooking in human culture, an overview of African American culinary history with an emphasis on the role of Black women in developing American food culture and entrepreneurial opportunities in the culinary field, the intersection of gender, race, and class in understanding foodways, and how climate change effects our access to food sources. The course is anchored in the theories and practices utilized in women’s studies, anthropology, and the culinary arts. In addition, we consider how knowledge of foodways, and food production become opportunities for economic development, especially by women.

**Art Courses**

**AR 100 Introduction to Visual Arts (3)**

An overview of the principal visual arts, past and present, including study of aesthetic qualities, composition, structural forms, and historical roles. Prerequisite: None

**AR 104 Basic Drawing I (3)**

Basic principles of drawing in various media stressing the relationship of observation, materials, and methods to form. Prerequisite: None

**AR 105 Basic Drawing II (3)**

Continuation of Drawing I exploring creative concepts and expression. Prerequisite: Drawing I (AR 104)

**AR 200 Painting I (3)**

A course in painting fundamentals stressing the relationship of materials, techniques, and ideas to visual expressions. Oil and/or acrylic media are explored. Class instruction and critiques. Prerequisite: Drawing I (AR 104)

**AR 201 Painting II (3)**

Continuation of Painting I with emphasis on integration of basic pictorial concepts, including the figure in total context. Class instructions and critiques. Prerequisite: Drawing I (AR 104)

**AR 202 African American Art (3)**

A survey of the visual arts produced by people of African descent in the United States from Colonial times to the present. The course examines visual arts principles and
elements; relationships between African culture and visual traditions of European and Euro-American artists and explores issues of race and gender.

Biology Courses

BI 100 Biological Science (4)
An introductory study (for science non-majors) of cell structure and function, reproduction, development, genetics, metabolism, evolution, and ecology of living things.

BI 101 Principles of Biology I (4)
Introductory course for Biology majors. Principles of the molecular and cellular basis of life, cellular reproduction, morphology, physiology, development, patterns of inheritance, evolution, behavior, and ecological principles. Three hours of lecture and two hours of laboratory per week.

BI 102 Principles of Biology II (4)
Second part of the introductory biology course for Biology majors and persons who will enroll in upper-level courses in biology. The course of study will include an introduction to evolutionary theory, a survey of the kingdoms of living organisms, plant anatomy and physiology, an introduction to the anatomy and physiology of vertebrate body systems, and an introduction to the fundamental principles of ecology and environmental science. Three hours of lecture and two hours of laboratory per week Prerequisites: BI 101

BI 103 Introduction to the Biology Major (1)
This course is required for all Biology majors. Introduction to the Biology Major will serve as a mentoring experience for first year and transfer students that will introduce them to the discipline of biology, careers associated with biological sciences, their faculty, and upper-level students. This course will also enable entering students to learn a variety of information and skills necessary to succeed in biology and other science courses.

BI 185 Human Biology (3)
Introduces students to the anatomy and physiology of the human body. All systems of the body will be discussed regarding normal and abnormal functioning. The course will include a detailed examination of such issues as tobacco and drug use, genetics, aging, cancer, sexually transmitted diseases, etc. Students will gain an understanding of the role that humans play in the biosphere including how human activities threaten ecosystems, and ways to lessen our impact.
Prerequisites: BI 100 or BI 101

BI 225 General Zoology (4)
A survey of the animal kingdom with emphasis on the evolution, taxonomy, anatomy, and natural history of selected vertebrates and invertebrates. Three hours of lecture and two hours of laboratory per week Prerequisite: BI 101, BI 102.

BI 227 Botany (4)
A survey of the plant kingdom with emphasis on the structure, classification, phylogeny, physiology, reproduction, economic importance, and identification of plants. Prerequisites: BI 101, BI 102.
**BI 304 Human Anatomy (4)**

A study of the structure and function of organs and organ systems of the human body with emphasis on skeletal, muscular, nervous, endocrine, circulatory, respiratory, digestive, reproductive, and excretory systems. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102 and BI 225.

**BI 305 Histology & Biological Micro-techniques (4)**

A study of the microscopic anatomy of mammalian cells, tissues, and organs, with emphasis on structure and functional relationships. Laboratory work includes microscopic study of various types of tissues and histological techniques useful in biological research. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102 and BI 225.

**BI 316 Evolutionary Biology (3)**

A study of the history of evolutionary biology, the history of living organisms, and mechanisms of evolutionary change (including variation, mutation, natural selections and adaptation, and molecular genetics), and human evolution. Prerequisites: BI 101, BI 102, and BI 225.

**BI 322 Comparative Anatomy of Vertebrates (4)**

A study of major organ systems of the vertebrate body with emphasis on phylogenetic relationships and evolutionary changes. Laboratory work includes study of dogfish shark, mud puppy, and cat. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102 and BI 225.

**BI 321 Developmental Biology (4)**

A study of the fundamental principles of developmental biology in animals and plants. These principles are illustrated through an overview of the early and late embryonic development of selected animals and plants. This course also includes a consideration of the influence of the environment on development and the role of development in evolution. The medical implications of developmental biology will be discussed and related to developmental disorders. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102, and BI 225.

**BI 326 Ecology (4)**

A study of the structure and function of ecosystems with reference to energy flow, nutrient cycling, population growth, and regulation. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102, and BI 225.

**BI 328 Cell Biology (4)**

A study of the molecular basis of cell structure and function with emphasis on subcellular components, the organization of macromolecules into cellular organelles, membrane function, enzyme function, energetics, cellular metabolism, protein synthesis, cell division, cell motility, and regulatory mechanisms. The laboratory will include exercises on cell culture, cell fractionation, the use of spectrophotometry in the identification and characterization of cellular macromolecules, enzymes and enzyme kinetics, and western blotting to identify proteins. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102, BI 225 and CH 101–102. Recommended: CH 221.
BI 354 Plant Physiology (4)
A course studying all aspects of plant functions with emphasis on growth, metabolism, and reproduction. Students will study current knowledge from refereed journals and will participate in laboratories designed to illustrate concepts discussed in class. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102, BI 225, and BI 328.BI 403.

BI 403 Human Physiology (4)
A study of functions of vertebrate organ systems with emphasis on homeostatic mechanisms. Special emphasis is placed on the circulatory, respiratory, digestive, excretory, reproductive, nervous, endocrine, and muscular systems. Three hours of lecture and two hours of laboratory per week Prerequisites: BI 101, BI 102 and BI 225

BI 423 Genetics (4)
The chemical nature of genetic material, its transmission, mode of expression, and mechanism of gene action. Emphasis is placed on Mendelian inheritance, linkage, multiple alleles, molecular genetics, and control of gene expression, gene mutation, population genetics, and genetic diseases. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102, BI 225, BI 328.

BI 424 Microbiology (4)
A study of microorganisms with emphasis on classification, morphology, physiology, biochemical activity, microbial diseases, and immunity. Special emphasis is placed on microbial genetics, host defense mechanisms, the immune response, the microbiology of food and water, and microbial ecology. Three hours of lecture and two hours of laboratory per week. Prerequisites: BI 101, BI 102, BI 225, BI 328 and CH 221.

BI 426 Immunology (3)
A study of the immune system and of molecular, cellular, and genetic bases of immunity to infectious agents. Emphasis is placed on the immune response, humoral and cellular immunity, hypersensitivity, tumor immunology, transplantation, and immunodeficiency. Prerequisites: BI 101, BI 102, BI 225. Recommended: BI 328, and CH 221.

BI 427 Biotechnology (4)
A laboratory-oriented course designed to integrate the principles and techniques of biotechnology. Topics covered include cell and tissue culture, isolation and purification of proteins, plasmid isolation, DNA restriction enzyme analysis, genetic engineering of microorganisms, monoclonal antibody technology, enzyme-linked immunoassay, gel electrophoresis, and blotting techniques. Prerequisites: BI 101, BI 102, BI 225, and CH 101–102.

BI 428 Molecular Biology (3)
A study of molecular processes and genetic regulation in both prokaryotic and eukaryotic cells. Emphasis is placed on the structure and function of proteins and nucleic acids, replication, transcription and translation of genetic material, regulatory mechanisms, gene expression, and genetic engineering. Prerequisites: BI 101, BI 102, BI 225. Recommended: BI 328, and CH 221.
BI 431 Special Problems in Biology Research (1–3)
Laboratory investigation of special research problems in biology. Prerequisites: BI 101, BI 102, BI 225, MA 130, CH 102, and junior or senior standing.

BI 432 Medical Terminology (3)
A study of biomedical terms that describe the human body, its functions, its normal state, and its abnormal state. Emphasis is on improving communication skills of students majoring in the health sciences. Prerequisites: BI 100 or BI 101.

BI 442 Senior Seminar (1)
A course consisting of extensive literature research followed by a written report and formal oral presentations of current information on biological topics of interest. Students will gain experience in evaluating scientific literature and presenting scientific papers. Prerequisite: senior standing, BI 101, BI 102.

BI 459 Independent Study (3)
Independent reading and research. Prerequisite: Junior or Senior standing.

Business Administration Courses

BA 210 Introduction to Business (3)
An introduction to business as it operates in a free market economy. Develops understanding basic to subsequent reading and study. Prerequisite: none.

BA 300 Business Organization & Management (3)
A comprehensive and in-depth study of management functions of planning, organizing, staffing, leading, and controlling operations, including current issues and challenges of globalization. In addition, this course investigates the impact that individuals, groups, and organizational structure will have on behavior within the organizations and how that behavior affects the performance of organizations. Prerequisite: BA 210.

BA 301 Legal Environment of Business I (3)
A comprehensive study of the legal process and the historical perspective of law. The emphasis is on ethics and social responsibility, and international law. Torts and crimes including intellectual property rights and white-collar crime are included. Additionally, knowledge of governmental regulation of business and contracts is essential to this course. Prerequisite: BA 300.

BA 302 Legal Environment of Business II (3)
Emphasis in this course is on negotiable instruments, agency relationships, business organizations, sales, and property. Topics in bankruptcy and securities will be included. Ethics is stressed throughout the course. Prerequisite: none.

BA 320 Marketing (3)
Study of the basic concepts and practices of modern marketing in an enjoyable and practical way. Focus is on marketing as a business function that identifies customer needs and wants, determines which target markets the organization can best serve, designs appropriate products, services, and programs to best serve these markets. Prerequisite: BA 210.
**BA 330 Small Business Management (3)**

An in-depth study of the management process of contemporary “small business” including entrepreneurial opportunities, new ventures, operations, marketing, personnel management. The design of financial and administrative controls is also studied. Topics relating to e-commerce will be discussed. Prerequisite: BA 210.

**BA 350 Business Statistics (3)**

Study of principles and methods of statistics, concerning descriptive and inferential statistics. Topics include probability, sampling, estimation, hypothesis testing, linear regression, and correlation. Prerequisite: MA 111B.

**BA 360 Business Ethics (3)**

An introduction to the issues of corporate responsibility and ethics incorporating the disciplines of applied ethics, law, and organizational behavior. Ethical problems faced by corporations are systematically addressed. Alternative theoretical perspectives and strategies used by firms will be identified and evaluated. Topics covered include management of values in modern corporations, ethical status of the corporation, ethics in sophisticated financial transactions, and gender and other types of discrimination in the context of cultural differences/diversity to foster an understanding of the ethical responsibilities assumed in becoming business managers. In addition, global business ethics will be discussed.

Prerequisite: BA 300.

**BA 370 Business Communications (3)**

This course seeks to develop a good understanding of communications and related theories to describe strategies for planning managerial communications and to build skills in formal oral and written communications. The emphasis of this course is on the principles of effective business writing and preparing and presenting formal business reports.

Prerequisite: BA 210.

**BA 400 Managerial Finance (3)**

This course is organized around the objective of maximizing shareholder wealth within a set of risk-return characteristics. Major topics include financial analysis and planning, capital budgeting, cost of capital, capital asset planning, and long-term financing. Prerequisite: EC 250.

**BA 410 Human Resources Management (3)**

Study of human resources planning and management, its interaction with important organizational factors such as leadership style and philosophy, organizational structure, and strategic planning. Effective management of human resources is central and vital to organizational effectiveness. Prerequisites: BA 300.

**BA 430 Quantitative Methods for Business and Economics (3)**

Study of the applications of mathematical methods for managerial decision-making. The methods studied include optimization techniques, linear, nonlinear, and integer programming as applied to production management, marketing, finance, accounting, and personnel management decisions. In addition, Transportation, Assignment, Inventory,
Waiting Line models, and Project Management (PERT/CPM) are discussed in detail. Prerequisite: BA 350.

**BA 440 International Business (3)**

This course exposes students to global business, its operating environment, and interdependence of business. An in-depth analysis of the internal and external environments facing international business and global managers, examines internal relationships among the parent and subsidiaries in foreign countries, and discusses the appropriate coordination of functional activities that take place in many parts of the world. The course emphasizes the need and development of global vision and decision-making skills. Prerequisites: BA 300 and BA 320.

**BA 460 Internship (3)**

Same as AC 460. Prerequisite: junior standing.

**BA 480 Independent Study (3)**

Same as AC 480. Prerequisite: senior standing.

**BA 490 Senior Seminar in Strategic Management (3)**

This is the capstone course integrating thinking and operating skills emphasizing management decision-making skills as they relate to strategic impact and business policy in domestic and international operations. This course brings together various core and advanced courses in Accounting and Business Administration for application, analysis, and for conducting independent research using standard research methods. An oral presentation of the student's research work is part of this course. Prerequisite: BA 430.

---

**Chemistry Courses**

**CH 100 Introduction to Chemistry (3)**

Elementary principles of chemistry such as chemical quantities, matter and energy, measurements and calculations, and chemical reactions. The overall objective of the course is to prepare students who have not studied chemistry at the high school level for CH 101-102 College Chemistry and Qualitative Analysis. Two hours of lecture per week with no laboratory component. Some class lectures will have demonstrations in which laboratory experiments are used to illustrate principles of chemistry. Prerequisites: none.

**CH 101 General Chemistry I (4)**

Basic concepts of chemistry including atomic theory, properties of elements and molecules, solution equilibria, acid-base chemistry, thermodynamics, kinetics, and separation principles of analytical chemistry. Three hours of lecture and two hours of laboratory per week. Prerequisites: completion of one year of high school chemistry with a grade of “C” or better or the passing of a diagnostic examination in chemistry, MA111B.

**CH 102 General Chemistry II (4)**

Basic concepts of chemistry including atomic theory, properties of elements and molecules, solution equilibria, acid-base chemistry, thermodynamics, kinetics, and separation principles of analytical chemistry. Three hours of lecture and two hours of
laboratory per week. Prerequisites: grade of “C” or better in CH 101 and MA 111B (MA 110).

**CH 104 Orientation to Chemistry (1)**

The course provides orientation for chemistry majors about the profession of chemistry including the study skills necessary to successfully complete chemistry courses and opportunities for graduate study in chemistry. Study skills taught include application of principles of mathematics to solving problems in chemistry, reading a course textbook effectively to understand principles of chemistry, and test taking skills for examinations in chemistry. The course is required for all first-year chemistry majors, and students enroll in CH 101 and CH 104 concurrently. One hour of lecture per week. Prerequisites: none.

**CH 221 Organic Chemistry I (4)**

A study of the properties, preparation, reactions, and characterization of carbon compounds. Three hours of lecture and three hours of laboratory each week. Prerequisites: CH 101 and CH 102. All prerequisites must be completed with a grade of “C” or better.

**CH 222 Organic Chemistry II (4)**

A study of the properties, preparation, reactions, and characterization of carbon compounds. Three hours of lecture and three hours of laboratory each week. Prerequisites: CH 221. All prerequisites must be completed with a grade of “C” or better.

**CH 223 Quantitative Analysis (4)**

A course in which the principles of chemical equilibrium are applied to the quantitative determination of the components of mixtures. Laboratory work includes volumetric analysis, gravimetric analysis, and an introduction to electrochemical methods. Samples analyzed may include environmental pollutants and food additives. Two hours of lecture-discussion and three hours of laboratory per week. Prerequisite: CH 101–102.

**CH 224 Chemical Instrumentation (4)**

The application of modern electronic and optical instruments to qualitative and quantitative analysis. Emphasis is placed on chromatography, spectrophotometry, and electrochemistry. Two hours of lecture and three hours of laboratory per week. Prerequisites: CH 222 and CH 223, and PY 222.

**CH 326 Biochemistry (4)**

A study of the chemistry of carbohydrates, amino acids, proteins, enzymes, lipids, and nucleic acids, metabolic pathways generating and storing energy, and gene expression. Discussions of important areas of current biochemical research are incorporated into the course. Three hours of lecture and three hours of laboratory each week. Prerequisite: CH 222 with a minimum grade of “C.”

**CH 427 Chemistry Research (1–3)**

A research project that includes laboratory research and a search of the literature pertaining to a research problem in chemistry. A major written laboratory report about the research project is required. A poster and/or an oral presentation about the project may also be required. The student arranges a research project with one of the faculty members of the program in Chemistry. Six (6) credit hours are required for chemistry majors. Prerequisite: completion of the sophomore year of study.
**CH 427H Frontiers in Research in Biochemistry (3)**

Topics concerning some of the latest achievements in important areas of biochemical research that have led to breakthroughs in the understanding of basic biochemical processes. Three hours of lecture per week. Prerequisites: CH 222.

**CH 428H Biochemical Research Techniques (3)**

This course provides training in the use of experimental techniques used in biochemical research, including protein and DNA electrophoresis and spectrophotometric enzyme assays. Two hours of lecture and three hours of laboratory each week. Prerequisites: CH 221–222.

**CH 433 Special Topics in Chemistry (3)**

A lecture and discussion course pertaining to current topics in chemistry. Topics may include the role of pesticides as environmental estrogens and the role of CFCs in the depletion of stratospheric ozone. Three hours of lecture per week. Prerequisite: consent of instructor.

**CH 442 Senior Seminar (1)**

Seniors majoring in chemistry will conduct a literature search on a current research topic in chemistry and present a seminar on their findings. Prerequisite: senior chemistry major.

**CH 443 Physical Chemistry I (4)**

Fundamental laws governing matter in the gaseous, liquid, and solid state, the laws of thermodynamics and their applications to chemistry, an introduction to statistical thermodynamics, properties of solutions, phase equilibria, chemical kinetics, and an introduction to quantum mechanical principles. Three hours of lecture and three hours of laboratory each week. Prerequisites: CH 223, CH 224, MA 221, MA 222, MA 223, and PY 221-222.

**CH 444 Physical Chemistry II (4)**

Fundamental laws governing matter in the gaseous, liquid, and solid state, the laws of thermodynamics and their applications to chemistry, an introduction to statistical thermodynamics, properties of solutions, phase equilibria, chemical kinetics, and an introduction to quantum mechanical principles. Three hours of lecture and three hours of laboratory each week. Prerequisites: CH 223, CH 224, CH 443, MA 221, MA 222, MA 223, and PY 221-222.

**CH 445 Inorganic Chemistry (4)**

The study of metals: their behaviors and roles in the biological system, acid-base chemistry, chemical bonding, atomic and molecular theory, and an introduction to group theory. There are three hours of lecture and three hours of laboratory each week. Prerequisites: CH 101, CH 102, CH 443, CH 444; MA 222, MA 223; and PY 221–222.

**CH 446 Food Chemistry (4)**

This course applies modern objective instrumental tests and subjective taste testing evaluation to analyze chemical components of food involved in processes such as nutrient composition during ripening of fruits and vegetables, and texture degradation, post- harvest losses of vitamins, minerals, pigments, and flavor compounds during food processing and storage. Study of the functional properties and biochemical mechanisms
of nutrients is included. Two hours of lecture and three hours of laboratory each week. Prerequisite: CH 222 or consent of the instructor.

**CH 460 Independent Study (3)**

The course provides an opportunity for students to perform an independent study project in chemistry following guidelines provided by Bennett College. Open to junior and senior students. Prerequisite: consent of the program in Chemistry.

---

**Computer Science Courses**

**CS 170 Introduction to Information Technologies and Applications (3)**

An introduction to fundamentals of information systems and technology. The topics include an introduction to information systems in organizations, organizing and managing data and information, information and decision support systems, communications-telecommunications, the Internet, intranets, social impact of computers, professional and ethical issues. Co-requisite: MA 111B.

**CS 171 Introduction to Information Systems (3)**

An introduction to the area of computer-based information systems. It includes basic concepts necessary to correctly design and implement a small information system. The concepts and practices underlying the use of information technology and systems in improving organizational performance are presented. The course will prepare students to design small information systems and will also prepare them for further study of advanced information system concepts. Prerequisite: CS 170. Or instructor permission.

**CS 172 Discrete Structure I (3)**

Introduces the foundations of discrete mathematics as they apply to computer science, focusing on providing a solid theoretical foundation for future work. Topics include functions, relations, sets, simple proof techniques, Boolean algebra, propositional logic, the fundamentals of counting, and elementary probability. (same as MA 201) Prerequisite: MA 111B.

**CS 175 Fundamentals of Programming (4)**

Introduces the fundamental techniques of programming as a foundation for more advanced study of computer science. Considerable attention is devoted to developing effective software engineering practice, emphasizing such principles as design, decomposition, encapsulation, procedural abstraction, testing, and software reuse. Topics include standard programming constructs, problem-solving strategies, and the concept of an algorithm, and fundamental data structures—strings, arrays, and records. Prerequisites: CS 170 and MA 111B or instructor permission.

**CS 176 Computer Program Design (4)**

Continues the introduction of programming begun in CS 175, with a particular focus on the ideas of data abstraction and object-oriented programming. Topics include recursion, abstract data type (ADT), introduction to object-oriented programming, and fundamental data structures—linked lists, stacks, queues. Prerequisites: CS 175.
CS 200 Orientation to Computer Science (1)

Introduction to the computer science discipline for majors. Topics include career paths and opportunities in the field of computer science, success skills for the major field of study, and a survey of program facilities and procedures related to research, study and graduation, and interactions with upper division students and faculty. This course is required for majors. Prerequisite: None.

CS 270 Information Management and Database Design (3)

Introduces the basics of information management and the concepts and techniques of database systems. Topics include information models and systems, data modeling, database systems, relational database design, database query languages. Prerequisite: CS 171 or instructor permission.

CS 271 Advanced Spreadsheet Applications (3) (On demand and availability of resources.)

Use of spreadsheet application software to solve problems requiring quantitative reasoning. Topics include fundamental functions, what-if analysis, and graphical presentation of data using Microsoft Excel. Prerequisite: CS 170 or instructor permission.

CS 272 Discrete Structures II (3)

Continues the discussion of discrete mathematics introduced in CS 172. Topics include pre-dictate logic, digital logic, recurrence relations, graphs, trees, computational complexity, and introduction to automata theory. Prerequisite: CS 172.

CS 273 Desktop Publishing (3) (On demand and availability of resources.)

Advanced features of word processing and desktop publishing. Topics include customizing tools, mail merge, integrating files created using different application software in a Word document, and other advanced features of word processing and desktop publishing using Microsoft Word and Microsoft Publisher. Prerequisite: CS 170 or instructor permission.

CS 274 Web Design (3)

How to organize and publish information on the internet Web sites using HTML and CSS. Prerequisite: CS 170, or instructor permission.

CS 275 Data Structures and Algorithms (3)

Introduces the fundamental concepts of data structures and the algorithms that proceed from the previous two courses CS 175 and CS 176. Topics include recursion, the underlying philosophy of object-oriented programming, fundamental data structures (including stacks, queues, linked lists, hash tables, trees, and graphs), the basics of algorithmic analysis, and an introduction to the principles of language translation. Prerequisite: CS 176.

CS 370 Software Engineering (3)

Advanced programming techniques to enhance the student's knowledge and experience in programming. Topics include techniques dealing with object-oriented programming,
event-driven programming, human computer interaction, graphical user interfaces, and current programming trends. Prerequisite: CS 275.

**CS 371 Computer Organization and Architectures (3)**

Introduces students to the organization and architecture of computer systems. Topics include digital logic, functional organization of computer systems, interfacing and communication, and assembly language programming. Prerequisites: CS 275.

**CS 373 Algorithm Design and Analysis (3)**

Introduces students to formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies. Prerequisites: CS 275.

**CS 374 Automata Theory (3) (On Demand and availability of resources.)**

Introduces some fundamental concepts in automata theory and formal languages including grammar, finite automaton, regular expression, formal language, pushdown automaton, and Turing machine. Not only do they form basic models of computation, but they are also the foundation of many branches of computer science, e.g., compilers, software engineering, concurrent systems, etc. The properties of these models will be studied and various rigorous techniques for analyzing and comparing them will be discussed, by using both formalism and examples. Prerequisites: CS 373.

**CS 377 Object Oriented Programming (3)**

Introduces the principles, practices, and applications of programming in an object-oriented environment. Techniques and language features of object-oriented design are implemented in programming projects. Assignments include programming in an object-oriented language such as C++ or Java. Prerequisite: CS 176 or consent of instructor.

**CS 378 Internet Computing (3)**

Present how to organize and present information on Internet Web sites using a high-level tool such as Microsoft FrontPage and Netscape Composer as well as lower-level tools such as HTML, DHTML, cascading style sheets, XML, VB script and active server pages. Prerequisite: CS 274, or instructor permission.

**CS 470 Computer and Society (3)**

Introduces students to the social and professional issues that arise in the context of computing. Topics include history of computing, social implication of computing (networked communication, gender-related issues, international issues) impacts of computer-based systems upon personal privacy and civil liberties, risks and liabilities of computer-based system, economic issues in computing. Prerequisite: CS 170 and junior level or higher.

**CS 471 Operating Systems (3)**

Introduces the fundamentals of operating systems design and implementation. Topics include an overview of the components of an operating system, implementation of processes, mutual exclusion and synchronization, context switching, scheduling algorithms, memory management, and file systems. Prerequisite: CS 371.
CS 472 Senior Project (3)
A capstone course integrating the knowledge and skills gained from the other computer related and general education uses in the curriculum within a comprehensive system development project, a case study, and/or other research projects. Prerequisites: Senior standing and instructor's approval.

CS 473 Special Topics in CS (1–3); On demand and availability of resources
An investigation of special topics in computer science. Prerequisite: instructor permission.

CS 474 Organization of Programming Languages (3)
Introduces the fundamental issues in programming languages design and overview of programming languages and language translation. Topics include survey of programming paradigms, history of programming languages, general principles of language design, typing regimes, data structure models, control structure models, and an introduction to language translation. Prerequisites: CS 373 or CS 371.

CS 476 Computer Network (3)
Introduces the structure, implementation, and theoretical foundations of computer networking and the Internet that have been enabled by that technology. Topics include network standards, Web technologies, Web protocols, support tools, developing Internet information servers, and basics of data compression and decompression. Prerequisite: CS 471.

Economics Courses

EC 201 Introduction to Microeconomics (3)
Study of the principles concerning consumer behavior, and the theory of the firm. Focus is on the market system, price determination, and allocation of resources develops an understanding of how the pricing system influences production and distribution of goods and services. Prerequisite: sophomore standing.

EC 202 Introduction to Macroeconomics (3)
Study of the basic theory of the determinants of national income, employment, and interest rates. The role of money, taxation, government expenditures in achieving high employment and stability of the price level are also discussed. Prerequisite: sophomore standing.

EC 250 Mathematics for Business & Economics (3)
Study of mathematical techniques such as calculus and linear algebra and the use of the methods in Accounting, Business, and Economics. Focus is on applications.

EC 300 Intermediate Microeconomics (3)
An in-depth study of the theory of consumer behavior, theory of the firm, market organization, economic efficiency, and welfare economics. Emphasis is on the market structures, pricing and allocation, and the general equilibrium paradigm. Approach is mathematical. Prerequisite: EC 250.
EC 310 Intermediate Macroeconomics (3)

A study of the alternative theories of the determinants of national income, employment and interest rates, examination of the roles of fiscal and monetary policies to achieve the goals of high employment and price stability using the general equilibrium macroeconomic model. The supply-side paradigm as well as the Keynesian-Monetarist debate will be discussed. Prerequisite: EC 250.

EC 320 Urban Economics (3)

This course provides an introductory analysis of selected urban problems in the context of the city’s position in the regional economy. Topics include the structure of and function of cities as economic entities and use, rent gradients, transportation, housing, education, crime, provision of local-government services and urban redevelopment.

EC 330 Money and Banking (3)

Study of monetary theory—theories of money supply and money demand and the transmission mechanism—financial institutions and markets including the Federal Reserve System and monetary policy. Prerequisites: EC 201 and EC 250.

EC 340 Public Finance (3)

Study of the use of resources for public purposes by the state and federal governments, emphasizing the rationale for public expenditure and taxation. Prerequisite: EC 300.

EC 350 International Economics (3)

Study of international economic relationships in theory and practice. Major topics include theory of international trade, balance of payments, payments disequilibria, regional integration, trade restrictions, international institutions (IMF and IBRD), and technology transfer and development issues. Prerequisites: EC 300 and EC 310.

EC 400 Government and Business (3)

Study of government regulation of business and antitrust laws. Theoretical and empirical investigation of the relationships between market structure, conduct, and performance of industries in the U.S. economy. Prerequisite: EC 300.

Education Courses

ED 101 Orientation to the Major (1)

In this short course, students will hear from experts in many areas of education. Students’ degrees may lead to a career in classroom teaching, but education careers also include administration, curriculum, educational technology, education activism, and many other roles. This course is designed to expose students to their options and to the different paths they will take to reach their educational goals.

ED 200 Introduction to Teaching Profession Education (3)

This professional core course provides an opportunity to evaluate a career in education and to assist students in beginning a journey into “real life experiences” which includes classroom observations. Other class activities consist of lectures, small group discussions, individual conferences, training on the NCDPI edTPA requirements, introduction to public school MOU accountability activities in field experiences, and
independent readings. Required: 10-hours Pre-Professional Field Experience and Clear Criminal Background Check (CBC). Education Majors Only (Prior to 2019-2020 see ED 200 and ED 200 Lab).

**ED 202 Core Language Arts for Children (3)**

This professional core course focuses on the study of recommended literature (prose and poetry), and an appraisal of its value in meeting the basic needs of very young children through adolescence. Emphasis is on genres of literature and literacy elements which teachers can help students understand, specific systematic approaches teachers can use to build students' ability to comprehend stories such as reading aloud, storytelling, and choral speaking and using literature to develop children's understanding of different cultures and of individual differences. Attention is given to new developments related to curriculum and infusing new educational technologies into multimedia instruction required: 10 Hours Fieldwork & CBC Required. Education Majors Only (Prior to 2019-2020 see ED 302).

**ED 205 Human Development and Learning (3)**

An introductory professional core course centered primarily on the first two decades of the individual's life and the combined interactive genetic and environmental forces that promote human development and education. The primary focus of the course is to provide students with an understanding of the theories and principles of psychology as they relate to human development and learning. Education Majors Only (Prior to 2019-2020 see ED 305).

**ED 210 Diversity of Language, Culture, and Equity in the Global Community (3)**

This course explores the various components of diversity in a dynamic global society, including an awareness of multiple ethnic groups that teachers need to recognize and respond to in their teaching and how diversity is related to a dynamic global society. EPP Candidates only (Prior to 2019-2020 see ED 410).

**ED 220 Praxis Core Prep (1)**

This one-credit course is designed to help students understand the structure and content of the Praxis Core Exam. It is a required course for all education majors, as all majors will take the Praxis Core at least once regardless of their choice of education major.

**ED 240 Integrative Technology (3)**

This professional core course provides prospective teachers with an experience-based approach to learning. Activities are designed to enable pre-service teachers to integrate research, technology, and practice more effectively. Developing and constructing appropriate units of study for effective lesson planning will provide practical application and micro teaching activities. The learning needs of teachers related to effective teaching are addressed in three dimensions: knowledge, competencies, and skills. The technology component is a new approach to assist and prepare pre-service teachers in becoming proficient and extensive users of technology as facilitators of learning in a contemporary global community. The latest computer literacy will be accomplished. Students will be required to purchase edTPA and adhere to NCDPI assessment protocol for pre-licensure requirements. Required: 15 Hours Required Pre-Professional Practicum Field Experience and clear CBC. EPP Candidates only (Prior to 2019-2020 see ED 340).
ED 271 Core Math Content Knowledge and Pedagogy for Teachers (3)

This professional core course is designed for pre-service level students as an in-depth study of math content to provide the most effective teaching and learning strategies. Emphasis is placed on math content, beginning assessment and evidence building strategies for classroom effective data collection and new developments related to the curriculum and multimedia instruction. Students will use the knowledge and tools of this course to study and prepare for the Praxis Mathematics Core. Required: Pre-service students must sit for the most current Praxis Mathematics Core required by NCDPI. Education Majors Only (New Course for 2019-2020). ED 319 Humanities and Fine Arts in the Elementary School (3)

ED 319 Humanities and Fine Arts in the Elementary School (3)

This professional core course is designed for junior and/or senior level prospective elementary school teachers as an in-depth study of planning and integrating humanities, fine arts, and social studies into the elementary school curriculum and specific content methodology to provide the most effective teaching and learning strategies based on new developments related to the curriculum, and multimedia instruction. Emphasis is placed on integration of learning, content from diverse sources, important values, and multicultural issues, and infusing new technologies into instructional programs.

Requirements: Co-requisites: American History. Prerequisite: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 319 and Ed 319 Lab).

ED 321 Foundations and Fundamentals of Teaching Reading in Elementary School (3)

This professional core course is designed for junior and/or senior level prospective elementary school teachers as an in-depth study of the elementary school communication skills (reading/language arts) curriculum and specific content methodology to provide the most effective teaching and learning strategies based on new developments related to the curriculum and multimedia instruction. Emphasis is placed on a meaning-centered approach from a holistic perspective of applications where reading is a process of literacy to facilitate students' understanding. This professional core course in reading instruction includes emphasis for special education. Emphasis is on reading in the content areas and instructional strategies that can be generalized for a variety of instructional settings. Requirement: 30 Hours Field Experience and CBC. Prerequisite: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 210 and Ed 321 Lab).

ED 322 Curriculum and Planning in the Elementary School (3)

This course is designed to engage the beginning pre-service teacher in the study of a comprehensive coverage of the latest curricula and instructional strategies, to assist the beginning pre-service teacher in developing the knowledge and skills necessary for effective teaching, and to provide the beginning pre-service teacher with many specific instructional models and examples for implementing curriculum in classrooms, schools, and other educational programs.

Requirements: Pre-Professional Practicum 30 Hours Field Experience and clear CBC. Prerequisite: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 322).
ED 325 Math Foundations in the Elementary School (3)

This professional core course is designed for junior and/or senior level prospective elementary school teachers as an in-depth study of the elementary school math curriculum and specific content methodology to provide the most effective teaching and learning strategies. Emphasis is placed on learning and new developments related to the curriculum and multimedia instruction with classroom instruction strategies to increase p-12 content knowledge. Students will have access to methods of data and evidence accountability for student learning in the p-12 classroom as formative and summative evaluation procedures. Requirements: edTPA account, 40 Hours Internship, and clear CBC. Prerequisites: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 325 and Ed 325 Lab).

ED 332 Educational Measurement Assessment & Evaluation (3)

This professional core course will examine all the means used in schools to evaluate student performance formally and informally. Methods of evaluating students' academic achievement as well as evaluating their behaviors and attitudes will be explored. The course focuses on the fundamental concepts and principles of measurement and evaluation. Required: 15 Hours Pre-Professional Practicum Field Experience and clear CBC. Prerequisites: ED 200, SE 207, and admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 332).

ED 359 Physical Education for the Elementary School Child (3)

Examines the techniques in planning and organizing the elementary school program. Emphasis is placed on movement exploration, rhythms, self-testing, growth, and development. Required five (5) Hours Pre-Professional Practicum Fieldwork and clear CBC. Prerequisite: Admission to EPP. EPP Candidates only (Prior to 2019-2020 see ED 359 and Ed 359 Lab).

ED 370 Historical, Philosophical, and Sociological Foundations of Modern Education (3)

This professional core course will explore educational concepts, philosophies, events, and reform movements as they relate to the historical and current trends and issues in modern public-school education. Public school organization, administration, and social stratification will be studied and researched. Prerequisite: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 370).

ED 425 Science in the Elem School (3)

This professional core course is designed for junior and/or senior level prospective elementary school teachers as an in-depth study of the elementary school science curriculum and specific content methodology to provide the most effective teaching and learning strategies. Emphasis is placed on a minds-on/hands-on, activity-based approach called guided discovery teaching/learning and new developments related to the curriculum and multimedia instruction. Requirements: Pre-Professional Practicum Experience. Prerequisites: admission to the Teacher Education Program.

ED 427 Teaching Clinical Practice – Elementary Education (9)

Elementary education majors will observe, plan, and teach under supervision in an elementary classroom. Pedagogical skills, theories, and principles of elementary education will be applied. Mandatory participation is required in the accompanying assessment activities such as Teacher work sample; Case Study; North Carolina Clinical
Evaluation Rubric; and the NCDPI State edTPA process. The student will experience through the study, review, and practical application of selected topics of current research in education as they relate to the immediate concerns of the prospective elementary and special education teacher. Student teachers clinical is required. Prerequisites: completion of all professional core and specialty area courses; admission to the EPP; completion of 120 hours of Pre-Professional Fieldwork; clear Guilford County CBC, admission to student teaching one full semester before the experience and participate in edTPA for graduation. State Licensure approval requires current passing scores. EPP Candidates only. Must register for the ED 450 Senior Seminar in the same semester. (Prior to 2019-2020 see ED 427).

ED 430 Practical Internship (9)

BSES candidates will complete a semester-long internship in an educational setting that aligns with their chosen channel. During this internship, students will research and explore the pedagogical practices used in the setting and will complete a handbook that details the human/physical/financial resources, administrative practices, and theories/philosophies of education that inform the organization's operation. This project is required for graduation.

ED 450 Senior Seminar – Elementary Education (3)

This course provides students with a forum for discussing problems encountered during the clinical student teaching while recommending workable solutions to the problems. Student teachers clinical is required. Prerequisites: completion of all professional core and specialty area courses; admission to the EPP; completion of 120 hours of Pre-Professional Fieldwork; clear Guilford County CBC, and admission to student teaching one full semester before the experience. EPP Candidates only. The senior leadership seminar enhances student teaching (Prior to 2019-2020 see ED 427).

ED 460 Internship Perspective Candidate (3)

A senior-level course for the prospective elementary in-service student teacher taken the semester prior to the student teaching practicum experience to make teaching a continuous experiment in learning. The course content is designed to present teaching from three actions: organizing, instructing, and assessing. Course inclusion will provide basic practical approaches and experiences to examine and learn new adaptations of proven teaching models, simulate effective teaching behaviors, develop instructional planning skills with the use of multimedia techniques, incorporate a variety of methods and materials, and explore and employ the student teacher's own unique instructional techniques.

Requirements: Pre-Professional Practicum Experience with laboratory experiences in a selected school site and supervised by the course instructor/major area professor prior to student teaching. Prerequisite: admission to the Teacher Education Program.

ED 471 Early Childhood Education (3)

This professional core course gives students experience in birth-pre-K education classrooms. Focus will be on the differences in methods and pedagogy between B-PK and K-5 teaching, as well as the legal and administrative practices required for work in an ECE setting. Students will observe and analyze teaching practices in early childhood settings and will complete projects and coursework that include research into best practices.
ED 472 School Structure and Community (3)
Stresses leadership in building relationships with staff, families, children, and community; the learning environment; observation and assessment; and financial and legal considerations. This course explores leadership in curriculum and instruction as a means of inspiring, guiding, and effecting school change. Theories on the basic principles of curricular design, as well as recent studies on trends in curriculum and instruction will be a major focus, as well as the organization and community outreach in modern American schools.

ED 473 Learning Outside the Classroom (3)
This course introduces outdoor education as an opportunity to promote social justice and environmental sustainability in a globalized world. Informed by relevant philosophical, psychological, cultural and political-economic frameworks, in addition to critical issues in public education policy and practice, we will explore interdisciplinary approaches to outdoor environmental education appropriate for students across the K-12 continuum. Weekly seminar sessions incorporating readings, reflective writing, and individual and small group projects complement the experiential aspects of the course. As the course progresses, each student will develop a curricular unit aimed at teaching an important environmental issue to diverse adolescents attending urban public schools.

English Courses

EN 200 Introduction to Literary Studies (3)
This course allows students to explore the content areas in the English Program by interpreting and responding to a range of texts, including poetry, fictional and non-fictional prose, images, film, and cultural artifacts. Its common theme is the act of interpretation and the ways in which interpretation is shaped by cultural, literary, and social conventions and, in turn, shapes our understanding of the world and the self. The goal of the course is for students to read and engage with an eclectic variety of texts—literary and nonliterary, canonical and non-canonical—and to create their own interpretive frameworks for making meaning. Prerequisites: LW 102 and LW 103. Required of all English and English Ed. majors. May be elective or requirement for other majors.

EN 201 Research Writing (3)
Combines study in the classroom, in the library, and field research to teach research methods applicable to the field. Emphasis on writing research findings in MLA format. Includes: evaluating credibility and accuracy of research materials, focusing a thesis statement, organizing materials, citing sources. Prerequisites: LW 102 and LW 103.

EN 202 Technical Writing (3)
Practical application of techniques of technical writing, including technological applications. Prerequisites: LW 102 and LW 103. English elective for majors; may be taken as elective for all other majors.

EN 207 Survey of English Literature I (3)
A study of the literature of Great Britain and its protectorates with emphasis on masterpieces of each period. Chronological. Prerequisites: LW 102, LW 103. Required for all English Majors. Electives for majors in other programs.
**EN 208 Survey of English Literature II (3)**

A study of the literature of Great Britain and its protectorates with emphasis on masterpieces of each period. Chronological. Prerequisites: LW 102 and LW 103. Required for all English Majors. Electives for majors in other departments.

**EN 209 Readers Theatre (3)**

A performance course that gives experience in public reading and formal presentation of original dramatic scripts designed to enhance the curricular and co-curricular education of Bennett students. Prerequisite: LW 102 and LW 103. Elective for English majors and majors of other disciplines. May be taken twice for credit.

**EN 210 Basic Grammar (3)**

This is a course designed to provide students with a sound, comprehensive knowledge of the terminology and conventions of traditional English grammar, punctuation, and sentence structure. Particularly, students in this course will review the parts of speech and how to identify them in sentences; identify and construct simple, compound, and compound-complex sentences; identify basic sentence patterns, etc. Prerequisites: LW 102 and LW 103.

**EN 211 Advanced Grammar (3)**

A comparative study of modern grammar and the effect on standard American English. Study of traditional (prescriptive) grammar and two descriptive grammars: structural and transformational. In-depth analysis of grammar and linguistic conventions. Prerequisites: LW 102 and LW 103.

**EN 300 Survey of Literary Criticism (3)**

A survey of literary criticism and application of theory. Prerequisites: LW 102 and LW 103.

**EN 317 Advanced Composition (3)**

Intensive use of various rhetorical techniques. Extended writing tasks through the application of rhetorical strategies. Prerequisites: LW 102 and LW 103.

**EN 319 Old and Middle English Literature (3)**

A study of English Literature from 800 C.E. to 1500 C.E. with emphasis on Beowulf, the Pearl Poet’s works, Chaucer's works, and Malory’s works. Prerequisites: LW 102 and LW 103. Counts as period course for majors; may be taken as elective by majors in other programs.

**EN 320 Renaissance Literature (3)**

A study of Renaissance literature from Wyatt and Surrey to the early Milton, and including drama, poetry, translations, and prose from major figures of the sixteenth and early seventeenth centuries. Prerequisites: LW 102 and LW 103. Counts as a period course for majors; may be taken as elective by majors in other programs.

**EN 321 Romantic and Victorian English Literature (3)**

A study of early nineteenth-century English Romanticism and Romantic writers and Victorianism and Victorian Writers. Prerequisites: LW 102 and LW 103. Counts as a period course for majors; may be taken as an elective by majors in other programs.
EN 322 American Literature before America (3)
A study of literatures present on the American continent beginning with the late 15th century age of exploration and culminating in the Revolutionary era of the late 18th century. Prerequisites: LW 102 and LW 103. Counts as a period course for majors; may be taken as an elective by majors in other programs.

EN 323 American Literature I (3)
A study of the development of American literature with an emphasis on the works of major writers from the Colonial Period to the Modern Period. Prerequisites: LW 102 and LW 103.

EN 324 American Literature II (3)
A study of the development of American literature with an emphasis on the works of major writers from the Colonial Period to the Modern Period. Prerequisites: LW 102 and LW 103.

EN 325 Shakespeare (3)
Study of selected plays of Shakespeare with reference to their connection to sixteenth-century culture, politics, religion, and values. Prerequisites: LW 102 and 103.

EN 327 Creative Writing I (3)
Introductory level course in which students will learn the methods of creative writing through exploring specific genres, including poetry, flash fiction, short-short fiction, short fiction, genre fiction, the novella, and the novel. Prerequisites: LW 102 and LW 103. English elective for majors; may be taken as elective for all other majors.

EN 328 Creative Writing II (3)
Advanced course that coaches students in writing creative fiction, poetry, and drama. Prerequisites: LW 102 and 103. Elective for all students.

EN 329 Special Topics in Literature (3)
This seminar-style course studies a specific aspect of literature. Designed to provide advanced work in literary analysis, interpretation, and research. Primarily for majors in the junior and senior year who have completed foundation work in Renaissance, African Novels, Southern American Novels, Contemporary African American Female Authors. Prerequisites: LW 102, LW 103, and EN 201, and appropriate foundational survey courses(s), e.g., if the special topic is the Harlem Renaissance, the student must have completed EN 333/334 Survey of African American Literature I & II. This course serves as an English Elective or Free Elective for English majors and is open to all non-English majors as a Free Elective.

EN 330 Special Topics in Literature – Survey of Drama (3)
This seminar-style course studies a specific aspect of literature. Designed to provide advanced work in literary analysis, interpretation, and research. Primarily for majors in the junior and senior year who have completed foundation work in Renaissance, African Novels, Southern American Novels, Contemporary African American Female Authors. Prerequisites: LW 102, LW 103, and EN 201, and appropriate foundational survey courses(s), e.g., if the special topic is the Harlem Renaissance, the student must have completed EN 333/334 Survey of African American Literature I & II. This course serves
as an English Elective or Free Elective for English majors and is open to all non-English majors as a Free Elective.

**EN 333 African American Literature I (3)**

A study of the development of African American Literature from the Colonial Period to the Modern Period with emphasis on major writers and works. Prerequisites: LW 102 and LW 103.

**EN 334 African American Literature II (3)**

A study of the development of African American Literature from the Colonial Period to the Modern Period with emphasis on major writers and works. Prerequisites: LW 102 and LW 103.

**EN 335 The Harlem Renaissance 1919-1940s (3)**

The 1920s saw an unprecedented outburst of creative activity among African Americans in all artistic fields. Known as The New Negro Movement and later as the Harlem Renaissance, this period (roughly 1920-1940) of incredible literary production marks the first collective artistic expression of African Americans. Issues that will be considered will include: the contemporary politics, aesthetics, and material conditions of production that surrounded the creation of Harlem Renaissance texts; the triple demand of the Harlem Renaissance Author—to create “more sophisticated” African American literary works, to create “authentic Black texts,” and to answer to communal demands for literature in the service of racial uplift. The course will also include a survey of African American achievements in music and the visual arts. The influence of the Harlem Renaissance in the evolution of African American literature will also be examined, as well as its impact on other movements in the Black world, notably the Négritude movement associated with the French-speaking African and Caribbean writers. The course will thus serve as an introduction to modern expression in the Black world.

**EN 336 The Chicago Black Renaissance 1930-1950s (3)**

The Chicago Black Renaissance is the name given to the upsurge in cultural production, community organizing and social self-activity on Chicago’s South Side from 1930 until 1950. This course will examine the material, practical, ideological, and aesthetic dimensions of the Renaissance. It will argue that Chicago became a center of American and international cultural and political experiment in this period, and provides a shining example of class, race, and gender-based social organizing. The course will include virtual site visits to Chicago and Chicago research centers. This field and archival work is meant to provide students a new perspective on one of the most understudied but important periods in U.S. history.

**EN 337 The Black Arts Movement 1960-1970s (3)**

The Black Arts Movement, as it is commonly known, was an aesthetic, cultural and ultimately deeply political artistic movement loosely linked to and in philosophical agreement with many aspects of the Black Power movement of the late 1960s and early 1970s. Despite its brief historical span, we will explore why the Black Arts Movement remains significant for the course of contemporary African American, African Diasporic and American literature today, by looking first at its antecedents in the Harlem Renaissance, the first major African-American literary movement of the 20th century and a central moment in American modernism, and then contrast the rhetoric and discourse of key Harlem Renaissance figures with those of the Black Arts writers and artists, noting the centrality and model of the former, while also discussing the ways in which Black Arts
writers diverge and participate actively in the construction of a (Pan-African-American)/Black nationalism. Indeed, the question of "nationalism" will be key, as well as key concepts such as racism, gender, sexuality, class, and intersectionality. The course will conclude by considering the afterlife of Black Arts Movement ideas in several late 20th and early 21st century works.

**EN 340 Twentieth-Century Literature (3)**

Study of selected American and British authors of the twentieth century. Prerequisites: LW 102 and LW 103. Counts as a period course for majors; may be taken as an elective by majors in other disciplines.

**EN 350 Writing Fellows I (3)**

Writing Fellows prepares advanced writers to tutor and assist other students in writing. The course is organized into two phases: 1) Classroom Phase. Students have intensive instruction in pedagogy of composition; 2) Practical Phase.

Students tutor and assist in composition classrooms. EN 350 students tutor 6 hours per week; EN 351 Students tutor 10 hours per week Prerequisites: Completion of LW 102, LW 103, and EN 104/201 with at least a “B” average. Elective for students in all disciplines.

**EN 351 Writing Fellows II (3)**

Writing Fellows prepares advanced writers to tutor and assist other students in writing. The course is organized into two phases: 1) Classroom Phase. Students have intensive instruction in pedagogy of composition; 2) Practical Phase. Students tutor and assist in composition classrooms. EN 350 students tutor 6 hours per week; EN 351 Students tutor 10 hours per week Prerequisites: Completion of LW 102, LW 103, and EN 104/201 with at least a “B” average. Elective for students in all disciplines.

**EN 434 Black Women Writers (3)**

This course seeks to examine the extraordinary and diverse landscape of African American women's writing. Beginning in the early twentieth century and ending in the contemporary moment, the class will consider how African American women authors have wrestled with the themes of race, class, and sexuality in their texts. Moreover, the course does not assume a static definition of African American women's writing but examines how writers have challenged themselves and each other to think about what it means to be "American," "Black," and "woman" at different historical moments and within varied artistic genres. Some of the writers studied will include Nella Larsen, Zora Neale Hurston, Ann Petry, Dorothy West, Lorraine Hansberry, Gwendolyn Brooks, Paule Marshall, Toni Morrison, Alice Walker, Audre Lorde, Toni Cade Bambara, Sister Souljah, Edwidge Danticat, Chimamanda Ngozi Adichie, Buchi Emecheta and others.

**EN 435 Restoration and Eighteenth-Century Literature (3)**

A study of Restoration and eighteenth-century literature with an emphasis on such major figures as the later Milton, Bunyan, Dryden, Swift, Pope, Johnson, and novelists such as Fielding, Behn, and Richardson. Prerequisites: LW 102 and LW 103. Counts as a period course for majors; may be taken as an elective by majors in other programs.

**EN 436 History of the English Language (3)**

Study of historical development of the English language, including influences from 800 C.E. to contemporary times. Prerequisites: LW 102 and LW 103.
EN 441 World Masterpieces in Translation (3)
A study of multicultural world masterpieces in English translation. Includes European (excluding British), Asian, African, North American, and South American literature. Prerequisites: LW 102 and 103. Elective for students in all disciplines.

EN 459 Independent Study (3)
Open to students who have the required G.P.A. and have demonstrated the necessary degree of self-motivation and academic ability. Prerequisites: 2.5 GPA; junior or senior standing; consent of instructor.

EN 460 Independent Study (3)
Open to students who have the required G.P.A. and have demonstrated the necessary degree of self-motivation and academic ability. Prerequisites: 2.5 GPA; junior or senior standing; consent of instructor.

LW 102 Literature and Writing I (3)
Students will read and write about novels, poetry, plans, news stories, business reports, editorials. Students will receive P/F grades at midterm each semester and a letter grade at the end of each academic semester. Prerequisite: None.

LW 103 Literature and Writing II (3)
Students will read and write about novels, poetry, plans, news stories, business reports, editorials. Students will receive P/F grades at midterm each semester and a letter grade at the end of each academic semester. Prerequisite: None.

RS 200 Introduction to Research Methods (3)
This course will introduce students to basic and essential methods and techniques for finding and utilizing scholarly resources. It will provide a framework that the student may use to prepare argument-based research papers and presentations throughout her college career. Prerequisite: LW 102 and LW 103.

Entrepreneurship Courses

EI 200 Foundations for Entrepreneurship (3)
Introductory course intended to provide students with a foundation of the vital role of entrepreneurs and entrepreneurship in the 21st century global economy.

EI 201 Accounting and Finance for Entrepreneurs (3)
This course is designed to provide students with the necessary skills to understand basic accounting and finance principles directly related to prospective business owners. Prerequisite EI 200.

EI 301 Students in Free Enterprise I (3)
This course is a two-part course. It will provide management experience in various aspects of Free Enterprise. Prerequisite: Sophomore Standing.
EI 302 Students in Free Enterprise II (3)
This course will allow students to develop programs aimed at participating in the Regional SIFE competition. Upon completion of the project students will compete against other universities and colleges.

EI 310 Business Law and Tax Considerations for Entrepreneurs (3)
This course will help students identify tax and legal challenges inherent in entrepreneurial activities. Students will study suggested strategies for meeting legal and tax challenges while achieving basic business objectives. Prerequisite EI 200.

EI 320 Marketing (3)
The study of the basic concepts and practices of modern marketing in a practical way. Focus is on marketing as a business function that identifies customer needs and wants, determines which target markets the organization can best serve designs appropriate products, services, and programs to best serve the markets. Prerequisite: BA 210, EI 200.

EI 340 Entrepreneurship and New Ventures (3)
The course concentrates on starting and growing new businesses. Students will identify new venture opportunities, evaluate the viability of a new venture, understand the skills necessary for building a team, financing, starting, and operating a business and write a business plan. Prerequisite EI 200.

EI 360 Social Entrepreneurship, Innovation and Civic Participation (3)
This course is designed to teach students how to identify social problems, develop solutions and apply innovative strategies to creatively solve them. Students will learn to Identify and support the scaling of innovative, promising ideas that can be used in transforming communities. Prerequisite EI 200.

EI 380 Local, State and Federal Contracting Opportunities (Seminar) (1)
This course is designed as a seminar, to provide students with an in-depth understanding of conducting business in municipal, state, and federal business environments. Prerequisite EI 200.

EI 400 Special Topics: (3)
This seminar is designed to provide students with the opportunity to expand the range of possibilities for students to consider non-traditional avenues of entrepreneurship. Prerequisite EI 200.

EI 420 Church and Entrepreneurship
This course is structured to enhance student leadership skills and critical thinking; assess values; and develop and write a personal mission statement. These tools are designed to support student self-discovery to encourage discernment of the call of service and devise a plan with the potential to make a difference on campus, in the church and community. Church and Entrepreneurship also has the capacity to encourage spiritual exploration and growth.

EI/TH 434 Theatre Management (3)
The theories and practices of theatre management and administration as they pertain to publicity, box office printing, scheduling, grantsmanship, and fundraising including computer applications. Prerequisite: none.
EI/JMS 500 The Media Business (1)

The seminar provides information about media organizations with emphasis on management, new media technology, career opportunities, sales and marketing, and audience development and measurement. Requirements include a major project. Prerequisite: JMS 251 or instructor permission.

Finance Courses

FI 200 Personal Finance (3)
This course will give students basic principles of personal and family finances, relating to budgeting, consumer buying, personal credit, savings and investments, homeownership, insurance, and retirement.

FI 402 Corporate Finance (3)
This course introduces students to the foundations of investment, financing, and related decisions in the business corporation, which includes the basic concerns and responsibilities of financial manager and the methods of analysis employed by them is emphasized. Designed to offer a balanced discussion of practical as well as theoretical developments in the field of financial economics. Prerequisites: BA 210, EC 201, EC 250, EC 330, and MA 111B.

FI 451 Investments (3)
This course surveys the principles of investment and is designed to give the student a broad perspective of investment practice and theory. Prerequisites: BA 210, EC 201, EC 250, EC 330, BA 401, and MA 111B.

Foreign Language Courses

FR 101 Elementary French I (3) Fundamentals of grammar, listening, oral practice, reading and writing in French. FR 101 is the first course in a two-semester sequence of beginning French. It is designed for the student with little or no prior knowledge of the language. The course emphasizes all four skills: speaking, listening, reading, and writing. Upon completion of this course, students will be able to use their newly acquired skills to communicate in French in a realistic and culturally appropriate manner.

FR 102 Elementary French II (3) Fundamentals of grammar, listening, oral practice, reading and writing in French. FR 102 is the second course in a two-semester sequence of beginning French. It is designed for the student with little or no prior knowledge of the language. The course emphasizes all four skills: speaking, listening, reading, and writing. Upon completion of this course, students will be able to use their newly acquired skills to communicate in French in a realistic and culturally appropriate manner.

FR 203 Intermediate French I (3) Emphasizes listening comprehension, oral proficiency, grammar review, selected readings, and French culture. FR 203 is the first course in a two-semester sequence of intermediate French, and it is designed for the student who has some prior knowledge of the language. Upon completion of this course, students will
be able to use their newly acquired skills to communicate in French in a realistic and culturally appropriate manner.

**FR 204 Intermediate French II (3)** Emphasizes listening comprehension, oral proficiency, grammar review, selected readings, and French culture. FR 204 is the second course in a two-semester sequence of intermediate French, and it is designed for the student who has some prior knowledge of the language. Upon completion of this course, students will be able to use their newly acquired skills to communicate in French in a realistic and culturally appropriate manner.

**FR 448 Topics in Language and Literature (3)**
Focus on one area of French or Francophone literature or culture.

**SP 101 Elementary Spanish I. (3)** Fundamentals of grammar, listening, oral practice, reading and writing. SP 101 is the first course in a two-semester sequence of beginning Spanish. It is designed for the student with little or no prior knowledge of the language. The course emphasizes all four skills: speaking, listening, reading, and writing. Upon completion of this course, students will be able to use their newly acquired skills to communicate in Spanish in a realistic and culturally appropriate manner.

**SP 102 Elementary Spanish II. (3)** Fundamentals of grammar, listening, oral practice, reading and writing. SP 102 is the second course in a two-semester sequence of beginning Spanish. It is designed for the student with little or no prior knowledge of the language. The course emphasizes all four skills: speaking, listening, reading, and writing. Upon completion of this course, students will be able to use their newly acquired skills to communicate in Spanish in a realistic and culturally appropriate manner.

**SP 203 Intermediate Spanish I (3)** Emphasizes listening comprehension, oral proficiency, grammar review, selected readings, and Spanish and Latin American culture. SP 203 is the first course in a two-semester sequence of intermediate Spanish, and it is designed for the student who has some prior knowledge of the language. Upon completion of this course, students will be able to use their newly acquired skills to communicate in Spanish in a realistic and culturally appropriate manner.

**SP 204 Intermediate Spanish II (3)** Emphasizes listening comprehension, oral proficiency, grammar review, selected readings, and Spanish and Latin American culture. SP 204 is the second course in a two-semester sequence of intermediate Spanish, and it is designed for the student who has some prior knowledge of the language. Upon completion of this course, students will be able to use their newly acquired skills to communicate in Spanish in a realistic and culturally appropriate manner.

**SP 309 Spanish Culture and Civilization (3)**
Students become acquainted with the culture and civilization of Spain in readings about history, literature, music, arts, and customs.
Global Studies Courses

GS 100 Pre-Departure Seminar for Study Abroad (Certificate) (Non-Credit)

GS 101 Introduction to Global Studies (Certificate and Minor) (3)
Introduces students to the concepts and methods utilized in the pursuit of global studies from an interdisciplinary and international perspective.

GS 498 Capstone Project Completion and Public Presentation of Research Paper (Certificate) (1) GS 499 Capstone Project Completion and Public Presentation of Research Paper (Certificate) (1)

Health Education Courses

HE 101 Wellness for Life (2)
Exposure to the contemporary concepts of personal and community health while addressing current health, wellness, and fitness issues related to women.

HE 352 Principles, Procedures, and Practices in Health Education (3)
Principles, materials, and methods for developing and teaching health education programs in schools and communities. Students are placed in a supervised setting, which provides broad-based experiences in nonprofit management for professional and leadership development. A typical internship is 375 hours. Prerequisite: all certificate requirements.

History Courses

HI 101 Origins of Civilization (3)
The course examines the origins of human civilization in Africa, Asia, Europe, and the Americas from prehistoric times to the Reformation. Prerequisite: None.

HI 102 Origins of Civilization (3)
A continuation of HI 101 from the Reformation to the present. Prerequisite: None.

HI 201 American History to 1865 (3)
An historical survey of the United States from the period of discovery and colonization through independence to the Civil War. Prerequisite: None.

HI 202 American History since 1865 (3)
A continuation of United States History from the period of Radical Reconstruction to the present. Prerequisite: None.

HI 203 African American History I (3)
This course covers African American history from the colonial period to the American Civil War. Topics include African origins, the slave trade, the Anti-Slavery Movement, African American Declaration of Independence, and Free Blacks in Antebellum South,
Development of Black Institutions, the Politics of Emancipation and Blacks in the American Civil War. Prerequisite: None.

HI 204 African American History II (3)
This course covers African American history from Reconstruction to the present. Topics include the Promise and Failure of Reconstruction, Black Southerners and White Supremacy, African Americans and the 1920s, The Great Depression and the New Deal, the Civil Rights Movement, Black Politics and White Backlash, African Americans at the Dawn of a New Millennium. Prerequisite: None.

HI 220 Women in History (3)
A critical examination of the role and contribution of women in America from the colonial times to the present, with special emphasis on the family, sexuality, racism, and reform movements. Prerequisite: None.

HI 305 The Civil Rights Movement (3)
An in-depth study of the origins and development of the African American struggle for civil rights in the United States. Prerequisite: None.

HI 310 African History to 1800 (3)
A study of African history from prehistoric times to the beginnings of European invasions.

HI 311 African History since 1800 (3)
A study of African history from the beginning of the 19th century to the present.

HI 315 Colonization in Africa (3)
An in-depth study of the impact of colonization in Africa from about 1800 to 1945. Topics include the so-called scramble for and partition of Africa, the consequences of World War I, African responses to colonial rule, and the emergence of the struggle for independence across the continent. Prerequisite: None.

HI 325 Slavery in the United States (3)
An in-depth study of the Atlantic Slave Trade and the slavery that resulted. The course emphasizes slavery in the English mainland colonies and the United States. Prerequisite: HI 201, HI 202, or HI 203.

HI 330 Latin American History (3)
A study of the society, culture, politics, and economy of Latin America during the 19th and 20th centuries. Prerequisite: None

HI 335 The Jim Crow Era (3)
An in-depth study of the period in American history between Reconstruction and the Civil Rights Movement when racism was at its nadir, with all its tragic consequences. Prerequisites: Three semester hours of American or African American history, or permission of instructor.

HI 400 Selected Topics in History (3)
An in-depth study of special issues and problems in history. Contemporary topical issues and issues of interest to students are selected for study, on demand. Prerequisite: Consent of instructor.
HI 410 History of Journalism (3)

The course provides the opportunity to study the history of American journalism, including the people, events, and issues important to a chosen topic. Prerequisite: Junior standing.

HI 430 Historiography (3)

An introduction to the philosophy of history and the methods of historical research. Prerequisite: None.

HI 450 Independent Study (3)

Opportunity is given advanced students to pursue independent work in specific areas of history. Limited enrollment. Prerequisite: Consent of instructor.

Interdisciplinary Studies Courses

IS 155-156 Guided Individual Study (3)

A guided, independent research project that allows each student to create her own learning activity. At the end of the semester, students are required to present their reports in the form of an exhibition, a film, a research paper, or any other format chosen by the student. Prerequisite: Consent of instructor.

IS 159 Perception and Aesthetics (3)

Beginning with sub-verbal experiences, this course concentrates on sensitizing the student to her environment and developing awareness of the function of art in society. Prerequisite: Major standing.

IS 161 Critical Thinking (3)

An introduction to logic with emphasis on its application to discussion and debate. Prerequisite: None.

IS 170 Reading Across Disciplines (3)

This course prepares students to engage in interdisciplinary scholarship through a guided survey of strategies for effective reading across disciplines (humanities, social science, and natural science) and in multiple formats (textbooks, journal articles, research and executive reports, book chapters).

IS 257-258: Guided Individual Study (3)

A continuation of IS 155-156. Prerequisite: Consent of instructor.

IS 261 Study Abroad Special Topics (3)

This course provides an interdisciplinary exploration of a global social justice topic. While visiting another country, a theme such as women’s rights, climate change, equity, health, education, human rights, and jobs and economics will be discussed, and students will learn from local leaders and changemakers. Requirements: A current U.S. Passport valid until at least 6 months after the date of travel and clearance by the Business Office.
**IS 357 Social Justice Leadership (3)**

This course is designed for undergraduate students to engage in a variety of learning activities that support an understanding of women’s leadership. Students will be exposed to basic leadership concepts and theories of leadership. In addition, the course is anchored in the theories and practices utilized in feminist studies especially as it pertains to Black women and girls. Through this course students will gain insight into knowledge and skills necessary to be effective women leaders in government, business, not-for-profit, educational, and civic settings. Students will leave the course with newfound understanding of their own personal leadership style and of how they show up in the world.

**IS 366 Internship (3)**

This course is a structured fieldwork situation in diverse areas of the community and in cooperation with government agencies, industry, civic groups, and off campus persons accompanied by demonstrated, site based, research and reflection.

**IS 379 Leaders and Changemakers (Leadership Skills) (2)**

An analysis of methods used by group facilitators. Students participate in decision scenarios, program planning and proposal writing, budget preparation, and evaluation techniques. Prerequisite: Consent of instructor.

**IS 459 Independent Study (3)**

Independent reading and research. Open to junior and senior students with GPA consistent with college standards for independent study. Prerequisite: Consent of instructor.

**IS 460 Senior Seminar (3)**

This course is a guided independent study in a group setting. Students conduct original, independent research that draws on literature and/or methods from two or more academic disciplines. Working with the instructor and fellow students, each student will produce: a literature review or annotated bibliography, a substantial (10-25 pages) research paper and/or creative product, and a presentation of the project results. Student projects are tailored to academic areas of interest and post-graduation goals.

**IS 476-478 Problem Seminars (2)**

Problem seminars let the scholar apply intellectual skills and problem-analyzing abilities freely as a self-initiating educated leader. Problems are discerned from life situations. Prerequisite: Consent of instructor

**International Affairs**

**IA 200 Introduction to International Affairs (3)**

An introduction to world geography, the importance of physical location and the economic and political implications of resources as distributed worldwide, as well as the relationship between people and their culture. The course further introduces students to basic principles and concepts in political science and economics, such as power, nation state, national interests, purposes and nature of government, and its relationship with the market, within the context of economic history since World War II.
**Journalism and Media Studies Courses**

**JM 101–104 Newspaper Production (1-4)**

Students learn the fundamentals of producing print and online media for campus publications. May be repeated four times for a total of four hours.

**JM 162 Media & Society (3)**

A survey and media literacy course focusing on the role of media in society. Students discuss the principles, processes, and practices of print, broadcast, and new media and learn how to critically analyze both images and content.

**JM 165 Writing Across the Media (3)**

An introduction to basic media writing and editing for print and broadcast journalism, public relations, and new media formats. The course emphasizes fundamental skills required for all media.

**JM 170 Language Skills for Journalists (3)**

The course provides JM majors with a foundation for recognizing common problems in media writing and editing and includes an extensive grammar review. Students apply lessons in weekly written assignments.

**JM 180 Multimedia Storytelling (1)**

An introductory course on a range of media tools used by journalists, including cameras, audio recorders, software, and web-building tools.

NOTE: Students who take JM courses at or above the 200 level must have instructor and/or program approval, or have completed at least two (2) of the following pre-requisites (or equivalent transfer courses): JM 162 Media Study; JM 180 Multimedia Storytelling; JM 165 Writing Across the Media; JM 170 Language Skills

**JM 210 Math Tools for Journalists (1)**

The course covers basic math skills for journalists through problem-based exercises and real time hands-on activities.

**JM 251 News Reporting and Writing I (3)**

Lecture/laboratory provides students with the fundamentals of news gathering and news reporting for online and print newspapers. Students are guided in writing good, publishable news leads; using appropriate news style; and applying other basics used in news reporting. Prerequisites: “C” or better in LW 103 (majors and non-majors).

**JM 272 Digital Media Writing (3)**

The course provides students with experience preparing material for all forms of digital media production. Emphasis on research, writing for social media, search engine optimization, project development, scheduling, and production.
**JM 280 Graphic Design in Journalism (3)**

Lecture/laboratory course covers creative and practical aspects of editing, typography, layout, and color theory. Students will use relevant software to design journalistic and marketing projects for print, online and digital environments.

**JM 281 Copy Editing (3)**

Laboratory course focusing on developing copy-editing skills and strategies. Prerequisites: JM 170 or instructor permission.

**JM 282 Broadcast Announcing (3)**

Introduction to on-air announcing and news reporting for radio, television, and new media broadcasts.

**JM 290 Radio Production I (3)**

The course covers the fundamentals of sound production and audio editing. Students will learn how to gather sound from interviews, events, and studio settings to create radio projects, programs, and packaged radio shows.

**JM 294 TV Production I (3)**

The course covers fundamental digital production editing. Students learn how to create professional quality HD video from interviews, narrative scenes, local news, area events and virtual studios. They will edit the footage with relevant editing software and learn how to distribute the videos across multiple platforms and file formats.

**JM 299 Special Topics (3)**

The course investigates mass communications theories, issues, or other subjects of topical importance and interest.

**JM 300 Social Media Writing (3)**

The course provides students with the skills to write impactful and persuasive messages via various social media platforms. Ethical use of delivering messages and maintaining a professional online presence will be stressed.

**JM 325 Social Media Entrepreneurship (3)**

The course covers the basics tools of utilizing social media platforms to create and promote entrepreneurial ventures and established entities. This course encourages students to use social media platforms to conceptualize original projects and to brand and market the product or venture.

**JM 326 Advertising, Media Sales & Marketing (3)**

The course covers the basic tools and core concepts of strategic marketing communication and the elements necessary to build long-term relationships with clients. Students gain a perspective on the impact and influence of advertising and learn techniques for promoting and selling products and services.

**JM 330 Photojournalism & Digital Design (3)**

Lecture/laboratory course introduces students to the digital photography tools used by journalists and media practitioners. Students learn how to create photos that are both aesthetic and newsworthy through practical hands-on experience with HD DSLR cameras and photo-editing software.
**JM 352 News Reporting and Writing II (3)**
Lecture/laboratory course in which students practice advanced techniques in news gathering and writing for media publications. Emphasis on beat and feature assignments and interviewing techniques. Prerequisite: JM 251.

**JM 359 Topical Seminar (3)**
The course offers practical, hands-on experience in conceiving and creating media projects related to topics of interest.

**JM 360 Feature Writing (3)**
Students gain practical experience researching, interviewing, and applying creative writing techniques for newspapers, magazines, and online media features. Emphasis is on the writing process, audience analysis, topic selection, story development, news style, editing, and revision. Non-majors should have a foundation in writing nonfiction and/or news writing and reporting. Prerequisite: “C” or better in JM 251 (JM majors) or instructor permission.

**JM 361 Public Relations I (3)**
Students are introduced to theories and principles of public relations, along with the roles and responsibilities of professionals working in public relations related disciplines. Students examine industry regulations, societal implications, and strategic planning processes associated with public relations campaigns and programs.

**JM 362 Scriptwriting and Production (3)**
Advanced instruction on structuring a short narrative script about a historical or fictional subject. Students explore story structure and create audio/video projects based on their original scripts.

**JM 363 Opinion Writing (3)**
Students learn writing techniques used to write persuasive and opinion pieces—including reviews, editorials, columns, blog posts and journalistic essays for all media formats. Emphasis on news analysis and critical thinking as related to current events and social policy.

**JM 365 Research and Information Gathering (3)**
The course is designed to teach search strategies for gathering information ethically and legally from a variety of sources: libraries, databases, institutions, polls/surveys, and people. Students employ critical thinking skills to evaluate, select, synthesize, organize, edit, and present information.

**JM 366 or 467 Journalism/Media Internship (variable credit 1-3 hours)**
Supervised journalism/media practices during fall and spring semesters and summer break. JM majors are provided an opportunity to hone skills and acquire practical media experience off campus and at professional organizations including radio and television stations, newspapers, magazines, and online publications and in media positions in government, nonprofit and other organizations. JM majors are required to intern at the site for a minimum of 100 hours for 1-credit, 150 hours for 2-credits and 200 hours for 3-credits. Prerequisites: JM internship coordinator approval. Each JM internship may be repeated once for additional credit to satisfy JM elective requirements.
**JM 380 Media Diversity (3)**

The course examines the participation and portrayals of diverse populations in broadcast, print, new media, advertising, film, and media research. Coursework includes readings, discussion, and critical writing exercises.

**JM 381 Media Project Design & Publishing (3)**

The digital publishing course is designed to help you to understand the history and evolution of publishing, to be up to date on industry trends and to consider and anticipate what trends may emerge. Ideally, YOU will be at the edge of setting those trends by evaluating reader needs and experiences and thinking creatively about how to best deliver material to inform and entertain consumers in the most effective ways.

**JM 391 Radio Production II (3)**

Advanced lecture/laboratory course on sound production techniques, editing, programming, and distribution in digital and traditional media formats. Students will work on individual and group productions.

**JM 395 TV Production II (3)**

Advanced practices of media production. Students are required to produce individual projects and team productions. Production activities include PSAs, commercials, documentaries, short narrative films, public affairs, and other programming.

**JM 402 Media Law and Ethics (3)**

The course offers a media overview of the legal concepts and issues important to the media professional with a special focus on roles, rights, and responsibilities in an evolving media environment. The course examines key ethical issues confronting journalists. Students examine ethical decision-making models and their applications and gain an understanding of the underlying ethical theories and guiding principles journalists use in their work. Prerequisite: junior standing or instructor permission.

**JM 407 Senior Capstone (3)**

The course focuses on assisting students in organizing their portfolios to fulfill the JM Portfolio Graduation Requirement, graduation and career search and a senior “thesis” project.

**JM 415 International Media (3)**

Provides an overview of various media systems from around the world and compares them with U.S. media. Analyses include basic concepts underlying theory and practice of media impact on cultures of originating countries and regions; government laws and regulations as they apply to media; and media trends and formats (i.e., radio, television, print, and online). Different media systems may be examined each time a course is offered. Prerequisite: junior status (JM majors) or instructor permission.

**JM 440 Media Business (3)**

The seminar provides information about media organizations with emphasis on management, new media technology, career opportunities, sales and marketing, and audience development and measurement. Requirements include a major project.
**JM 450 Social Justice Reporting (3)**

Advanced instruction in media reporting local, state, and federal government; politics, finance, labor; social policy, and environmental issues. Emphasis on investigating current or real-time news as they impact social issues.

**JM 459–460 Independent Study (3)**

Individual research and writing projects on media topics. Prerequisites: junior/senior standing, minimum 2.80 GPA, topic approval by major professor, academic advisor.

**JM 493 Advanced Production (3)**

An advanced course to increase student proficiency in production and editing. Coursework requires students to make ethical, legal, and aesthetic decisions regarding content and programming. Students are taught advanced editing techniques. Course requirement includes an audio or video portfolio.

**JM 469 Media Management (3)**

The course focuses on the mass media as businesses. Students examine business issues, business techniques, business practices, and business challenges facing media organizations and the people who manage media organizations.

Students use case analysis, discussion, and practical research on real business problems or issues.

**JM 497 Media History and Criticism (3)**

The course introduces analytical approaches to studying media through genre and/or historical formats. Emphasis on inspiring students to think critically and to develop strong analytical and creative writing skills. Prerequisite: junior standing or instructor permission.

**JM 498 Mass Communication Theory (3)**

The introductory course provides an overview of various mass communications theories. Prerequisite: senior standing or instructor permission.

**JM 499 Mass Communication Research (3)**

The introductory course provides an overview of various social science methodologies used in mass communication research. Quantitative and qualitative methodologies. Research techniques include content analysis and survey research methodology. Students are required to complete a pilot research project. Prerequisite: senior standing or instructor permission.

**JM Portfolio: Graduation Requirement for all JM majors**

A well-designed portfolio featuring a compilation of major’s best work produced throughout her matriculation. Contents include: Current résumé; Best Practicum JM Project (e.g., tapes, CD, clip book, etc.); Four samples of best-written projects; and letter(s) of recommendation from internship supervisors. The portfolio must be submitted for faculty review at least one week before the final period of a senior’s last semester. All JM faculty members will evaluate every portfolio during the final exam period and issue a Pass or Fail grade.
**Mathematics Courses**

*MA 111A College Algebra A (3) (Pass/ Fail)*

A course designed to raise the level of competency and proficiency in mathematics necessary for success in the general education mathematics program. The credit will not count for graduation. Prerequisites: Placement score SAT or ACT scores, and/or high school mathematics background.

*MA111B College Algebra B (3)*

A course covers real numbers, inequalities, absolute value, functional notation, linear functions, quadratic functions, polynomial functions, rational and radical functions, logarithmic functions, exponential functions. Prerequisites: A satisfactory score on placement examination and SAT or ACT score, or satisfactory completion of MA 111A.

*MA 120 Finite Mathematics (3)*

A course covering linear equations, matrices, linear programming, sets, probability, and statistics. Prerequisites: completion of MA 111B or SAT or ACT.

*MA 130 Precalculus (3)*

Exponential and logarithmic functions, composition of functions, and inverse functions, trigonometric functions, trigonometric identities, the trigonometric form of complex numbers, DeMoivre’s theorem, and polar coordinates are covered. Prerequisites: completion of MA 111B or SAT or ACT.

*MA 200 Orientation to Mathematics (1)*

Introduction to the mathematics discipline for majors. Topics include career paths and opportunities in the field of mathematics, success skills for the major field of study, and a survey of program facilities and procedures related to research, study and graduation, and interactions with upper division students and faculty. This course is required for majors. Prerequisite: None.

*MA 201 Discrete Structures (3)*

A course designed primarily for computer science students. Topics include production to matrix theory, combinatorial, probability, game theory, Boolean algebra, and graph theory/networks. (Same as CS 172) Prerequisite: consent of the instructor.

*MA 221 Calculus I (4)*

A presentation of the concepts and applications of analytical geometry and differential and integral calculus, including polynomials and trigonometric functions, limits, derivatives, and an introduction to the definite integral. Prerequisites: MA 130 or the consent of the instructor, based on high-school background and satisfactory performance on the SAT, ACT.

*MA 222 Calculus II (4)*

A presentation of the concepts and applications of differential and integral calculus, including applications of integration, differentiation and integration of the transcendental functions, integration techniques, indeterminate forms, and plane curves. Prerequisite: MA 221.
MA 223 Calculus III (4)

A presentation of the concepts and applications of infinite series and multivariate calculus, including vectors, functions of several variables, partial derivatives, multiple integral, and vector calculus. Prerequisite: MA 222.

MA 324 Probability and Statistics (3)

A presentation of the mathematical theory of probability and the concepts and methods of descriptive and inferential statistics, with the utilization of the computer in the analysis of data. Prerequisite: MA 222.

MA 330 Linear Algebra (3)

A study of systems of linear equations, vector spaces, linear transformations and their representation by matrices and the algebra of polynomials over a field. Prerequisite: MA 221 or consent of instructor.

MA 331 Geometry (3)

A study of Euclidean and non-Euclidean geometries. Prerequisite: MA 221 or consent of instructor.

MA 332 Differential Equations (3)

A study of methods of solution and application of ordinary differential equations. Prerequisite: MA 222.

MA 333 Abstract Algebra (3)

A study of the basic concepts of abstract algebra, including set theory, groups, rings, integral domains, and fields. Prerequisite: MA 221 or consent of instructor.

MA 335 Real Analysis (3)

A course covering the calculus of functions of a single real variable, with a unified treatment of the theory of convergence as applied to sequences, functions, infinite series, and integrals. Prerequisite: MA 223.

MA 430 Special Topics in Mathematics (3)

A course covering advanced topics in mathematics, including applied mathematics, complex analysis, or applied statistics. Prerequisite: MA 223 or consent of instructor.

MA 442 Senior Seminar (3)

A seminar that provides enrichment in various mathematical areas and serves as an introduction to research. Prerequisite: senior mathematics major.

MA 460 Independent Study in Mathematics (3)

This course involves studying advanced mathematical topics under the guidance of a faculty member and writing a paper. It is open to students who have demonstrated a high degree of academic ability and self-motivation for independent reading and research. Prerequisites: MA 333 and MA 335 or consent of the instructor.
**Music Courses**

*MU 000 Performance Seminar (0)*

Performance Seminar is a zero-credit, pass/fail, monthly meeting of all music majors and minors for the purpose of student performances, seminars, workshops, special lectures, guest recitals, and listening labs. Music majors must be enrolled in Performance Seminar each semester for a total of eight (8) semesters. Music minors must be enrolled in Performance Seminar for six (6) successive semesters. Performance Seminar meets on Wednesdays at 5:00 pm.

*MU 001 Piano Proficiency Exam (0)*

All music majors are expected to demonstrate functional piano proficiency. The Piano Proficiency Exam is designed to assess that proficiency and must be passed before graduation. The exam may be taken at the end of the semester and should be arranged with the piano faculty.

*MU 109 Fundamentals of Music (3)*

Music 109 is designed to help students learn to read music and increase or improve their music reading ability. It includes the study of the melodic and rhythmic elements of music, in addition to musical terminology, symbols and other elements of music. This course is required of music majors who do not pass the music entrance exam with a grade of 90%.

*MU 111 Sight-Singing and Dictation I (1)*

The development of note-reading and singing skills with parallel study in perceiving and writing melodies. Computer-assisted. Prerequisite: Pass the Entrance Exam with a 90% grade or Fundamentals of Music.

*MU 112 Sight-Singing and Dictation II (1)*

A continuation of MU 111 with emphasis on harmonic dictation and keyboard training. Computer-assisted. Prerequisite: MU 111.

*MU 213 Theory I (2)*

A study of the fundamentals of music and the materials of diatonic harmony. Prerequisite: MU 112.

*MU 214 Theory II (2)*

A continuation of Theory I with emphasis on seventh chords, non-harmonic tones, part-writing. Prerequisite: MU 213.

*MU 224 African American, An Overview (3)*

An introduction to black American music from its African roots in America to the numerous and varied forms of contemporary African American music. The role of black women singers, instrumentalists and composers will be prominently included. An elective for all majors.

*MU 225 Introduction to Music Literature and Appreciation (3)*

An introduction to music literature and styles. Required as the first course in the music history and literature sequence for Music Majors and Music Minors. An option for non-majors to meet General Education requirements for graduation.
Includes the study of instruments, musical forms, and representative works of leading composers. Prerequisite: none.

**MU 305 Conducting (1)**

An introductory course covering basic techniques, terminology, and transpositions. Prerequisite: MU 225.

**MU 311–312 Diction for Singers (2)**

A two-semester sequence to assist singers with the proper pronunciation of English and foreign languages. The first semester will include pronunciation and the study of English and Italian vocal music. The second semester will emphasize French and German languages and literature. Prerequisite: instructor approval.

**MU 313 Theory III (2)**

A continuation of Theory II with emphasis on secondary dominants, counterpoint, chromatic harmony, part-writing, and musical forms. Prerequisite: MU 214.

**MU 314 Theory IV (2)**

A continuation of Theory III with emphasis on extended and chromatic harmony, altered chords, twentieth-century techniques of composition, and large musical forms. Prerequisite: MU 313.

**MU 317 History and Literature I (3)**

A detailed study of the evolution of musical styles and forms from the beginning of Western Music through the Baroque. Emphasis is placed on lectures, extensive student research, and the development of critical, cognitive, and evaluative aural skills. Research paper required. Prerequisite: MU 225.

**MU 318 History and Literature II (3)**

The second part of the Music History and Literature series. A study of music history and literature from the Classical Period through the Twenty-first Century. Research paper required. Prerequisite: MU 225.

**MU 411 Applied Music Literature (3)**

An intensive one semester survey of music literature in applied study that covers the sixteenth century to the present. Literature is divided chronologically with time spent weighted according to the prolific nature of each representative composer. Prerequisites: MU 225 and two semesters of Principle Applied Lessons

**MU 414 Applied Music Pedagogy (3)**

This course will acquaint music majors with the elements of playing/singing as a means of providing students with a detailed working knowledge teaching and practical applications in their applied area of study of the vocal mechanism. Emphasis is placed upon application of these principles to voice instruction and providing students with applicable tools and resources to aid them in their teaching and performing endeavors. The study of methods and principles of teaching the area of applied study. Emphasis on teaching the beginning student. Criteria for critical evaluation of teaching methods. Supervised laboratory student teaching. Prerequisite: junior standing in piano.
MU 459–460 Independent Study (3)

Open on demand for juniors and seniors with permission of the instructor. (3 hours each semester).

Principal Applied Music Courses

Private instruction in organ, piano, voice, strings, woodwinds, brass and/or percussion for music majors. One clock hour of instruction per week. Requires registration for Performance Seminar. Required of all music majors and minor. Non-music majors may be permitted to study if space/staffing permits. The Music Program Coordinator makes all decisions regarding non-music majors registering for Applied Lessons. The faculty determines the beginning course number of Applied study based on audition (Lab Fee).

Secondary Applied Music Courses

Private instruction in organ, piano, voice, strings, woodwinds, brass and/or percussion as secondary applied music study for music majors or for non-majors as electives. One-half clock hour of instruction per week. Requires registration for Performance Seminar. Required of all music majors and minor. Non-music majors may be permitted to study if space/staffing permits. The Music Program Coordinator makes all decisions regarding
non-music majors registering for Applied Lessons. The faculty determines the beginning course number of Applied study based on audition (Lab Fee).

Applied Group Instruction Courses (Lab Fee)

**MU 143–144 Piano Class (1)**
Instruction for small groups of students; covers the development of basic skills, harmonizing simple melodies, and playing accompaniments. Prerequisite: None.

**MU 145–146 Voice Class (1)**
Principles of tone production; breath control, vocal technique, reading, phrasing, style, and interpretation. Prerequisite: None.
Ensemble

MU 161–162. Choir (1) F
The Bennett Choir is a course designed to establish a group of students who, through their disciplined and musical rendering of song, represent the College as ambassadors. Required of music majors and minors. Required of music majors. Elective for non-majors. Prerequisite: Audition.

MU 163–164 Instrumental Ensemble/Hand Bell Choir (1)
Designed for students to apply musical skills as they continue to create and experience music as a musical ensemble. Alternative requirement for music majors and minors. Elective for non-majors.

Philosophy and Religion Courses

PH 201 Introduction to Philosophy (3)
A critical study of some basic philosophical issues and movements. (Not recommended for first year students). Prerequisite: Consent of instructor.

PH 313 Introduction to Ethics (3)
Analysis of theories of moral rightness and good conduct and the application of these theories to contemporary problems. Prerequisite: None.

PH 427 Tutorial in Philosophy and Religion (3)
Opportunity is given advanced students to engage in the in-depth study of concepts in some specific area of philosophy or religion. Limited enrollment. Prerequisite: Consent of instructor.

PH 460 Independent Study in Philosophy (3)
Opportunity is given advanced students to pursue independent work in some specific areas of philosophical thought. Limited enrollment. Prerequisite: Consent of instructor.

RL 200 Introduction to Bible (3)
This course will survey the Hebrew Bible (Old Testament), the New Testament and contemporary biblical interpretation, examining the biblical texts in the socio-historical world of ancient Israel and early Christianity. Prerequisites: None.

RL 210 History of Christianity (3)
A survey of the history of Christianity from the Patristic age through the beginning of the Reformation. Prerequisites: None.
RL 220 Introduction to Theology (3)
This course will introduce students to theology (what you think about when you think about God), the critical and constructive reflection on the great questions of human existence and the answers offered to them by religion. Prerequisite: RL 200 or consent of instructor.

RL 230 World Religion (3)
This course will explore wisdom traditions, religious histories, doctrines, practices, and theologies from around the world. Students will increase their understanding of people, cultures, diversity of beliefs, and the global community.

RL 250 Women in Ministry and Justice (3)
A survey of women’s historic and contemporary activity in ministry, with particular emphasis on the experience of black women. Sophomores may take this class with permission of the instructor. Prerequisites: None.

RL 315 Philosophy of Religion (3)
Philosophical thinking about religious concepts and worldviews. Prerequisites: None.

RL 320 African American Religious History (3)
A survey of the history of African American religious practices from slavery to the present. Prerequisites: RL 210, HI 203 or HI 202, or consent of instructor.

RL 425 Contemporary Problems in Philosophy and Religion (3)
Contemporary issues in religion and philosophy with emphasis on the study of liberation theologies, especially Black Theology and Feminist Theology. Prerequisites: None.

RL 460 Independent Study in Religion (3)
Opportunity is given for advanced students to pursue independent work in some specific area of Philosophy or Religion. Limited enrollment. Prerequisites: Consent of instructor.

Physical Education Courses

PE 102 Basketball (1)
Introduction to basic knowledge and skills. Emphasis is on team strategy, body mechanics, relaxation, and social interaction.

PE 106 Volleyball (1)
Experience in developing knowledge and skills in playing volleyball. Attention is given to refining personal skills and becoming knowledgeable about recreational aspects.

PE 108 Fitness and Conditioning—Fundamentals (1)
Basic principles for developing fitness are presented. Individual fitness levels are evaluated, and individual programs are developed.
PE 118 Tennis (1)
Strokes, rules, and strategies essential for beginners in singles and doubles play are included. Development of control and consistency in the execution of forehand and backhand drives and the flat serve are stressed.

PE 121 Yoga (1)
Students in this class will learn the fundamentals of Hatha Yoga. They will be introduced to various yoga postures (asanas in Sanskrit), conscious breathing (pranayama), and the concept of mindfulness. Throughout the semester, they will improve their flexibility, physical strength, balance, and concentration skills. Additionally, they will be introduced to a brief history of yoga from its beginnings in Ancient India to its arrival in the West, which ultimately led to its current global popularity. Sanskrit names will be taught for most asanas explored.

PE 123 Pilates (1)
This course is a study and application of the Authentic Pilates Mat Program. It is designed to improve muscular strength, endurance, coordination, flexibility, posture, and balance. Students will be provided with a working knowledge of Basic/Intermediate Pilates Mat exercises, the benefits associated with Pilates, and an expanded body awareness that they can use as the foundation of a lifetime of physical fitness and wellness.

PE 130 Beginning Golf (1)
Learning the fundamentals of the golf swing, putting and chipping. The basic rules of golf and golf etiquette will also be emphasized, along with the benefits of golf as a lifetime fitness activity.

PE 230 Intermediate Golf (1)
This course will focus on refining the full swing of each player, addressing the many general swing errors (e.g., slice pushing, etc.) and making corrections as needed. Students will be taught control of the flight of the ball out of the bunker and around the greens. Instruction will be provided in the proper use of woods off the tee and fairways. Prerequisite: Completion of PE 130 Beginning Golf.

PE 308 Beginning Swimming (1)
Covers elementary swimming and safety skills. Emphasis is placed on the development of skills for personal safety and assistance to others in or about the water.

PE 310 Intermediate Swimming (1)
The course is designed to cover the basic styles and other forms of swimming to enhance the skill efficiency of students in the water. Emphasis is also placed on the development skills for personal safety and elementary forms of rescue.

PE 470 Physical Education for Exceptional Children (3)
Considers the use of motor and play activities in the growth and development of exceptional children. Emphasis is placed on the selection, organization, and presentation of exploratory movement and structure activities.
Physics Courses

*PY 201-202 Physics for the Biological Sciences (4)*

A two-semester sequence for the biological sciences and any student wishing a general education in physics. The course includes a laboratory and covers mechanics, caloric and kinetic theory, electromagnetism, wave dynamics, and introductory nuclear physics. Prerequisites: MA 111B or an introductory college algebra course for PY 201 and MA 130 or an intermediate college algebra course for PY 202.

*PY 221–222 Calculus-based Physics (4)*

A two-semester sequence for students in physics that utilizes calculus in mathematical presentation. The first semester will present mechanics including fluids and heat, while the second semester will emphasize electromagnetism including currents and light. A laboratory is included in each semester. Prerequisites: MA 221 for PY 221 and MA 222 for PY 222.

Political Science Courses

*PO 100 Introduction to Political Science (3)*

The meaning of politics and political action in its larger social, economic, and cultural context. Includes the examination of the basic concepts and theories of the discipline and their applications. Recommended Sequence: PO 102 United States Government.

*PO 102 Introduction to United States Government (3)*

Study of the principles, structures, and dynamics of the United States political system with emphasis on the relationship between the system and the electorate, political parties, public opinion, formulation of domestic and foreign policy, and civil liberties. Recommended sequence: PO 213 State and Local Politics.

*PO 203 Introduction to Public Administration (3)*

The course will emphasize the concepts, principles, theories, and practice of administration in the public sector. Topics examined include organizational theories, decision-making models, and the role of interest groups in the political process, government budgeting, public personnel management, and administrative responsibility. Recommended Sequence PO 401 Public Policy Analysis.

*PO 204 Introduction to Comparative Politics (3)*

Systematic study and comparison of world political systems. It explores the differences as well as the similarities among countries together with patterns, processes, and similarities.

*PO 213 State and Local Government (3)*

A study of state governments and local governments, their constitutions and the systems of laws, ordinances, and codes that each of the fifty states and the many municipal corporations established. Also, the study of dual citizenship of residents of USA and the many problems of intergovernmental relations and differing state policies.
PO 250 Civil Rights Empowerment (3)

A study of participation of African Americans and other minority groups in American politics since the Reconstruction era. Emphasis is on strategies for empowerment, justice, and equality. Prerequisite: PO 102 Introduction to United States Government or consent of the instructor.

PO 280 Introduction to International Relations (3)

Study and analysis of world politics with emphasis on justice, war, and peace. Concepts include power in a multipolar world, interdependence, transnational organizations, nationalism, interventions, and the search for peace. Prerequisite: PO 100 Introduction to Political Science or consent of instructor.

PO 300 Research Methods in Political Science (3)

Designed to introduce the variety of approaches and methods used in empirical research and political science. Topics discussed include research design and types of designs, development of research questions, theories and hypothesis, conceptualization, measurements, and data collection. The course will carefully treat data analysis, focusing on univariate and bivariate statistical techniques that are frequently used in political science as well as the use of computers for quantitative analysis. Prerequisite: junior or senior standing.

PO 305 Classical Political Theory (3)

This course is a survey of ideological trends in the field of political thought, with emphasis on the Greek through medieval theorists. Prerequisite: Recommend Sequence PO 406 Modern Political Theory.

PO 310 Special Topics in Political Science (3)

Concentrates on issues and areas not typically addressed in detail by other Political Science courses and will enable students and professors to explore and investigate subjects of current and/or enduring relevance and interest. Possible topics: African American Political Thought, European Political Issues, the Philosophy of Social Science, and Political and Social Movements. Prerequisite: junior or senior standing or consent of the instructor.

PO 312 American Judicial Process (3)

An examination of the litigation process, including the history of the American dual court system. This course examines the numerous institutions, alternative dispute resolution centers, the different administrative dispute resolution centers, the different administrative law processes, and the role of judges. Recommended Sequence: PO 410 Constitutional Law.

PO 315 Government and Politics in Africa (3)

Students learn the complexities and diversities of African political systems and cultures and investigate new paths to understanding the intricate political and economic processes. Prerequisite: PO 201 Introduction to Comparative Political Systems or consent of the instructor.
PO 320 Government and Politics in Asia (3)
The dynamics of political and economic development in Asian countries are analyzed with emphasis on Japan, Taiwan, South Korea, Singapore, and Thailand. Prerequisite: PO 201 Introduction to Comparative Political Systems or consent of the instructor.

PO 325 Government and Politics in Latin America (3)
The dynamics of political and economic development in Latin America with distinctions among Mexico, Central America, South America, and the Caribbean countries. Prerequisite: PO 201 Introduction to Comparative Political Systems or consent of the instructor.

PO 330 Women and Politics (3)
A study of the role and problems confronting women in the sphere of politics and rulership. A global approach will compare women’s contributions and struggles in different political contests.

PO 370 United States Foreign Policy (3)
The study of the goals and instruments of United States foreign policy with emphasis on the Cold War and post-Cold War periods. Prerequisite: PO 100 Introduction to Political Science or PO 102 United States Government or consent of instructor.

PO 380 International Relations (3)
Analysis of world politics with emphasis on justice, war, and peace.

PO 401 Public Policy Analysis (3)
Analysis of the public policy making process and issues, and problems confronting the American public. Data analysis may include the use of computers. Prerequisite: PO 203 Introduction to Public Administration or consent of instructor.

PO 402 International Organization and Law (3)
Study of a body of principles, customs, and rules recognized as binding obligations upon states in their relations with one another and the organizations through which the laws of nations are pursued and promoted. Prerequisite: PO 100 Introduction to Political Science or PO 280 Introduction to International Relations or consent of instructor.

PO 406 Modern Political Theory (3)
This course is a survey of ideological trends in the field of political thought, with emphasis on political theorists from the 18th century to the present. Prerequisite: PO 204 Introduction to Political Theory.

PO 410 Constitutional Law (3)
A study of American Laws as circumscribed by the U.S. Constitution and as interpreted by the federal and state court systems. Prerequisites: PO 100 Introduction to Political Science or consent of the instructor.

PO 411 Political Parties and Interest Groups (3)
A study of political parties and interest groups in the American and other political systems including the role of parties and interest groups as an instrument of mobilizing the electorate, choosing political leaders, and organizing governments, and in the formulation of public policy and administration. The course will also examine strategies, tactics, and
problems of political parties and interest groups. Prerequisite: PO 102 United States Government or consent of instructor.

**PO 414 International Political Economy (3)**

The course introduces students to major contending paradigms of international political economy, liberalism, statism, Marxism, and analyzes international monetary systems, international trade, and investment. It further explores important issues concerning the less developed countries of the world. Prerequisite: PO 100 Introduction to Political Science or consent of instructor.

**PO 459 Independent Study (3) Available upon request**

Open to students who have demonstrated the necessary degree of self-motivation and academic ability for independent reading and research. Prerequisite: senior standing with a 3.25 GPA and consent of instructor.

**PO 470 Internship/Field Studies (3)**

Practical application of theory and skills in related work experience. Prerequisite: junior/senior standing and political science major or minor.

**PO 480 Senior Seminar (3)**

Open to seniors. An examination of a selected topic of global, regional, or national significance such as the world economy, trade relations, food, human rights, the environment, and energy. This course requires the completion of a senior thesis. Prerequisite: PO 300 Research Methods in Political Science.

---

**Psychology Courses**

**PS 100 Psychological Science (3)**

This course is designed for non-major students in psychology. The course will provide an overview of the core concepts in the discipline of psychology. Topics covered are the search for direction, improving academic performance, roots of happiness, the potential effects of stress, coping, self-regulation, self-presentation, friendship and love, marriage and intimate relationships, gender and behavior, careers and work, and development and expression of sexuality. This course does not count for the Psychology major or minor. Prerequisite: none.

**PS 101 General Psychology (3)**

A survey of the areas of study within psychology with an emphasis on the scientific method, empirical studies, and differing perspectives within the field. Among the topics covered are psychological pioneers, learning, memory, perception, consciousness, development, social psychology, abnormal behavior, and therapy. Prerequisite: none.

**PS 254 Descriptive Statistics and Probability with Laboratory (4)**

This course introduces students to techniques for summarizing, displaying, and conducting hypothesis tests with behavioral data. Emphasis is on selection and application of the appropriate technique given the nature of the problem and the characteristics of the data. Specific topics include descriptive statistics (frequency distributions, measures of central tendency and variability), correlation and an
introduction to probability distributions and statistical inference. Prerequisites: PS 101, MA 120 or higher, both with a “C” or better. Co-requisite: PS 274.

**PS 255 Inferential Statistics with Laboratory (4)**

This course introduces students to statistical techniques for conducting hypothesis tests with behavioral data. Topics include t-tests, analysis of variance, correlation, regression, and non-parametric statistics. Acquisition of skills necessary for pursuing graduate training in psychology or related disciplines is strongly emphasized. These skills include selecting appropriate statistical techniques given the characteristics of the data, using computer software to manage and analyze data, and preparing APA-style tables, graphs, and reports of statistical analyses. Prerequisite: PS 254 and PS 274 with a “C” or better. Co-requisite: PS 275.

**PS 274 Descriptive Research Methods and Laboratory (4)**

This lecture-laboratory course covers various techniques for applying the scientific method to behavioral research. Students will learn about observational, correlational, and simple experimental designs, ethical issues in research, and the interpretation of psychological data. The function of these designs will be demonstrated in the laboratory while investigating relevant psychological phenomena. Appropriate statistical techniques will be applied to the data from these labs. Several lab reports, an annotated bibliography, and literature review following the American Psychological Association model are required. Some data collection occurs outside of class. Prerequisites: EN/LW 102 and PS 101, both with a “C” or better. Co-requisite: PS 254.

**PS 275 Experimental Research Methods with Laboratory (4)**

This lecture-laboratory course covers various techniques for applying the scientific method to behavioral research. Students will learn about simple and multivariate experimental, quasi-experimental, and program evaluation research designs, ethical issues in research, and the interpretation of psychological data. The function of these designs will be demonstrated in the laboratory while investigating relevant psychological phenomena. Appropriate statistical techniques will be used to analyze the data from these labs. Several lab reports and a research proposal following the American Psychological Association model with an accompanying completed IRB application and budget are required. Some data collection occurs outside of class. Prerequisites: PS 254 and 274, both with a “C” or better. Co-requisite: PS 255.

**PS 300 Careers in Psychology (1)**

All psychology majors and minors are required to successfully complete this course. As of fall 2012, students MUST successfully complete this course to earn admission to the psychology major. The course focuses on skills and knowledge that will enable students to negotiate the transition to college, to plan their academic & professional careers, and to succeed in upper-level psychology courses.

**PS 301 Child Development (3)**

Presents the study of child development as a science with applications to real-world issues and problems. Covers children’s physical, cognitive, and socio-emotional development from conception until adolescence (ages 0-12). Material relevant to families, children’s health and education, and parenting issues are covered as part of this overview.

Prerequisite: PS 101 with a “C” or better or permission of the instructor.
PS 302 Adolescence (3)

Examines the physical, cognitive, and socio-emotional aspects of adolescence. Students will be introduced to a variety of theories and topics in the field of adolescent development (such as identity, adolescent sexuality, family, and peer relations), and encouraged to consider the relevance of what they have learned considering their own concerns and experiences. Prerequisite: PS 101 with a “C” or better or permission of the instructor.

PS 313 Physiological Psychology with Laboratory (4)

A study of the physiological systems, anatomical substrates, and biochemical processes that intervene between the arrival of information to sensory receptors and the subsequent elaboration of responses to them. Major areas covered include the structure and function of neurons and the nervous system, brain-behavior relationships, sensory processes, brain damage and recovery, and the biological bases for emotion, sexuality, learning and memory, and behavior disorders. The separate 2-hour laboratory component involves computerized and/or hands-on exercises that illustrate principles taught in the course. This course is a core requirement for Psychology majors but can count as a psychology elective in the physiological/cognitive area for minors. Prerequisites: PS 300, PS 101, and BI 185, all with a “C” or better, or permission of the instructor. This course has a $20.00 lab fee.

PS 315 Fundamentals of Learning with Laboratory (4)

A course dealing with the concepts involved in learning as derived from experimentation with both nonhuman and human subjects. Topics covered include habituation and sensitization, the laws of classical and operant conditioning and relevant phenomena, observational learning, learned helplessness, biological constraints on learning, and forgetting. The separate 2-hour laboratory component involves demonstration of basic principles and phenomena using experiments and computer simulations. Note: either PS 315 or PS 438 is a core requirement for Psychology majors, but this course may count as a Psychology elective in the physiological/cognitive area for minors, or for majors who have taken PS 438 as a core course. Prerequisites: PS 101 and PS 274 with a “C” or better or permission of the instructor.

PS 320 Memory & Cognition with Laboratory (4)

A lecture-laboratory course that provides a comprehensive study of human cognition. Besides an extensive coverage of memory, the course includes an analysis of major areas such as pattern perception, attention, concept formation, semantic organization, problem solving, expertise and creativity, and decision making. The major cognitive theories are discussed, and empirical studies are emphasized in each area. Major principles and phenomena are demonstrated in a separate, 2-hour laboratory component each week. Prerequisites: PS 101 and PS 274 with a “C” or better.

PS 323 Social Psychology (3)

Study of how the thoughts, feelings, and behavior of individuals are influenced by the actual, imagined, or implied presence of others, i.e., the “psychology of the situation.” Topics covered include social perception and cognition, aggression, helping behavior, prejudice and discrimination, attitudes, persuasion, attraction, and self-justification. Prerequisites: PS 101 with a “C” or better or permission from the instructor.
PS 326 Abnormal Psychology (3)

Exposes students to the primary models for defining and evaluating normal and abnormal human behavior in American society. Students will be acquainted with the many ways in which biological, emotional, behavioral, and cognitive factors can contribute to distress or impairment, both to the individual and the people around him or her. Students will be exposed to models of how abnormal behavior can be defined, how it can be understood, and in a general sense, how it is usually treated. This course is a core requirement for Psychology majors but can count as a psychology elective in the clinical/applied area for minors. Prerequisite: PS 101 with a “C” or better.

PS 329 Theories of Personality (3)

Surveys concepts and issues in the field of personality research in psychology. Covers the major theoretical approaches to the study of human personality and encourages an evaluation of these approaches considering relevant empirical research.

PS 330 Introduction to Counseling (3)

Introduces students to the history and theory of counseling with special attention to multicultural, gender, and developmental issues. An overview of the various counseling styles and techniques will be provided with an emphasis on acquiring the basic skills needed to establish effective helping relations. Prerequisites: PS 101 and PS 329, both with a “C” or better.

PS 345 Psychology of Women (3)

Examines the theories and research focusing on the biological, sociological, and cultural influences on the psychological characteristics of women. Topics include gender socialization, including gender similarities and differences, the construction of sex roles and stereotypes, communication, intimacy, work, achievement, and mental health, violence against women and mental and emotional adjustment. Prerequisite: PS 101 with a “C” or better or permission of the instructor.

PS 350 Afrocentric Psychology (3)

This class is designed to provide students with a historical overview of the development of Black Psychology and the African-American "frame of reference." The early sessions will focus on the historical and cultural antecedents of Psychology from an African perspective. The later sessions will partially be devoted to the discussion of the areas of interest identified below. Since "Afrikan Psychology" or Afrocentric Psychology is a relatively young and developing field, conceptual, humanistic, and scientific perspective-based discussions of relevant issues and concerns will be a major part of the course, which will involve a combination of lecture, review of relevant audiovisual media, and extensive discussion. Prerequisite: PS 101 with a “C” or better or permission of the instructor.

PS 360 Special Topics in Psychology (3)

Covers topics that fall outside the scope of other psychology courses, but that are of timely interest to psychology students and faculty. Each semester the course will focus on a different topic. Topics covered include, but are not limited to: Human Sexuality, and GRE preparation. This course does not meet specific requirements for the major or minor in psychology; however, it does count toward free elective requirements for graduation. Prerequisite: Permission of the instructor.
PS 370 Special Topics in Clinical/Applied Psychology (3)
Covers topics that fall within the scope of the clinical/applied specialty area in psychology but to a greater degree than covered in the courses currently offered, and/or that are temporally relevant to psychology students and faculty. Each semester the course may focus on a different topic, which include, but are not limited to the psychology of deviant behavior, forensic psychology, and industrial/organizational psychology. This course counts toward the psychology elective requirements for graduation. Prerequisite: permission of the instructor.

PS 380 Special Topics in Social/Developmental Psychology (3)
Covers topics that fall within the scope of the social/developmental specialty area in psychology but to a greater degree than covered in the courses currently offered, and/or that are temporally relevant to psychology students and faculty. Each semester the course may focus on a different topic, which include, but are not limited to the psychology of aging, and psychology of religion. This course counts toward the psychology elective requirements for graduation. Prerequisite: permission of the instructor.

PS 390 Special Topics in Physiological/Cognitive Psychology (3)
Covers topics that fall within the scope of the physiological/cognitive specialty area in psychology but to a greater degree than covered in the courses currently offered, and/or that are temporally relevant to psychology students and faculty. Each semester the course may focus on a different topic, which include, but are not limited to drugs and behavior, cognitive neuroscience, neurobiology of learning/memory, plasticity of behavior, and technology and learning. This course counts toward the psychology elective requirements for graduation. Prerequisite: permission of the instructor.

PS 415 Health Psychology (3)
This course presents the history and focus of health psychology and psychoneuroimmunology and describes the major concepts and research used. Major topics covered include stress, its relation to illness, and ways to cope with it; the relationship between lifestyles and health; substance abuse; nutrition; pain mechanisms and management; and terminal health problems. Prerequisite: PS 101 with a “C” or better and junior standing or permission of the instructor.

PS 424 Sensory Processes with Laboratory (3)
A lecture/laboratory course that examines basic mechanisms of sensation and the resultant perceptions associated with them, primarily from a biological/cognitive perspective. Emphasis is placed on visual, auditory, and somatosensory mechanisms, although some time is devoted to the chemical senses as well. This course has many hands-on demonstrations and laboratory exercises to facilitate understanding of the concepts of this course. Prerequisites: PS 101, 274, and 313, all with a “C” or better.

PS 430 Animal Behavior with Laboratory (3)
A lecture and laboratory study of animal behavior from the perspectives of comparative psychology, ethology, sociobiology, evolutionary biology, and behavioral ecology. The course explores the ethics of animal research and provides students with instruction on observational and experimental methodology for use with animals. Additional topics covered are the biological determinants of behavior; courtship, mating, reproduction, and parental behavior among animals; animal communication; aggression and appeasement display; social organization in animal groups; and animal cognition. The lab component
involves application of principles from the course in field and/or laboratory settings. Prerequisites: PS 101, PS 274, and PS 313, all with a “C” or better or permission of the instructor.

**PS 436 Tests and Measurements (3)**

Explores the theory and technique of administering, scoring, and interpreting psychological tests. An overview of the principles and practices of group and individual testing in aptitude, intelligence, interest, projective, and personality will be provided. Theory construction, evaluation, interpretation, test uses, ethical, socio-cultural and gender issues and limits of psychological tests are examined. Prerequisites: PS 101, 254, and 274, all with a “C” or better.

**PS 438 Behavior Modification (3)**

Detailed examination of behavioral modification techniques, behavioral principles, and their application in educational and human service settings. In the major course project, each student selects a behavior (instructor-approved) they wish to change and collects data to design an appropriate behavior modification program, which they implement, monitor, and revise, using their data. The project is written up and presented. This course is a core requirement for Psychology majors but can count as a psychology elective in the clinical/applied area for minors, or for majors who have taken PS 315 as a core course. Prerequisites: PS 101 and PS 274, all with a “C” or better, or permission of the instructor.

**PS 440 History & Systems of Psychology (3)**

Discussion of the development of psychology as a formal discipline and the changes that have occurred since its founding. Topics include pre-scientific thinking about psychological issues; philosophies that influenced psychology; the origin of the early systems of psychology and their maturation and legacy; contemporary psychology; and the role of women and African Americans in the history of psychology. Prerequisites: 18 credits in Psychology with a “C” or better, including PS 101, and senior status.

**PS 455 Psychology Internship (3)**

This course requires students to apply theoretical knowledge and training acquired in psychology courses in a field placement or laboratory setting by completing 100 supervised hours of field or research experience (~ 10 hours/week during the semester the course is offered, or in some cases over the summer). Students at some internship sites may need to purchase a student liability insurance policy at nominal cost (<$50) &/or pay for a background check.

Prerequisites: Junior standing; at least 18 credits in Psychology with a “C” or better including PS 101, PS 300, PS 254, PS 274, PS 329, and either PS 326 or PS 330 (or other PS 3xx or 4xx course relevant to placement); and prior permission of the instructor. Students must arrange their internship placement with the instructor during the semester prior to taking PS 455.

**PS 456 Senior Thesis (3)**

This course is designed to provide students with the opportunity to apply previous psychology training to the development of an individual psychology research project; to review, integrate, and critically evaluate the psychological literature in the student’s area of choice; to effectively communicate research ideas and write a formal APA research paper. Students may follow one of two tracks: experimental/descriptive research (which
could stem from the proposal developed in PS 275) or an extensive literature review. Following completion of the study at the end of the term, students are also required to orally present their research to an audience of their peers, faculty, and invited guests and defend their thesis to a committee of 3-4 people. Prerequisites: PS 255 and PS 275, both with a “C” or better, and Senior standing.

**PS 459 Independent Study in Psychology (variable)**

Open to students who have demonstrated a high level of academic proficiency and who are motivated to engage in self-directed reading and scholarly activities. Usually involves conducting an independent research project under the guidance of a faculty member and writing the results of this research as an APA-style manuscript and/or presenting the research at a professional conference. Prerequisites: minimum GPA of 2.80, junior standing, successful completion of PS 101, PS 254, and PS 274, all with a “C” or better, permission of the instructor, and approval by the VP for Academic Affairs.

**PS 460 Independent Study in Psychology (variable)**

Open to students who have demonstrated a high level of academic proficiency and who are motivated to engage in self-directed reading and scholarly activities. Usually involves conducting an independent research project under the guidance of a faculty member and writing the results of this research as an APA-style manuscript and/or presenting the research at a professional conference. Prerequisites: minimum GPA of 2.80, junior standing, successful completion of PS 101, PS 254, and PS 274, all with a “C” or better, permission of the instructor, and approval by the VP for Academic Affairs.

---

**Science Courses**

**SC 103 Physical Science (3)**

A semester course for non-science majors. The course deals with those concepts of physics, chemistry, astronomy, geology, and meteorology necessary to the basic understanding of today’s world. Two hours of lecture and two hours of laboratory each week. Co-requisite: MA 111A.

**Social Work Courses**

**SW 201 Introduction to Human Services (3)**

Historical overview of societal conditions, which led to development and implementation of human service programs and practices in America. Emphasis is placed on defining human services and social work in diverse settings. Prerequisite: None.

**SW 203 Introduction to Social Work (3)**

An introduction to Social Work as a profession and to its practice methodologies and philosophy, with a special emphasis on the General Method of Social Work in diverse fields of practice. Prerequisites: None

**SW 247 Social Work Diversity Issues & Social Justice (3)**

Focuses on the dynamics and consequences of discrimination, economic deprivation, and oppression of people of color, women, gays, and lesbian persons, people with
physical disabilities, Latinos, Asian-Americans, Native Americans, and other populations-at-risk. This course emphasizes the development and understanding of diverse social identities including those based on class, race, ethnicity, sexuality, age, ability, gender, migration, and immigration. Course material will examine the ways in which oppression and discrimination are institutionalized in the various sectors of American society in forms such as sexism, racism, classism, ageism, and heterosexism. The course will explore personal and professional beliefs, values, and norms of culturally different clients and the use of culture in formulating generalist practice interventions. The course will investigate the use of culture in formulating generalist social work practice interventions. The NASW Code of Ethics will be discussed and how it applies to working with oppressed and diverse populations.

Prerequisites: SW 203. Co-requisite SW 201

**SW 254 Social Statistics (3)**
The course draws connections between all aspects of the statistical process, including design, analysis, and conclusions. The course teaches students how to communicate methods, results, and interpretations using the vocabulary of statistics. The courses teach students how to use graphing calculators and demonstrates the use of computers and/or computer output to enhance the development of statistical understanding through exploring and analyzing data, assessing models, and performing simulations. The course draws connections between all aspects of the statistical process, including design, analysis, and conclusions. The course teaches students how to communicate methods, results, and interpretations using the vocabulary of statistics.

Prerequisite: Three hours of math.

**SW 299 Special Topic (3)**
Sophomore or Junior Level. A Seminar designed to address research issues, problems, and other matters of concern related to race, gender, sexual orientation, age, class, and disability.

**SW 301 Social Welfare I – Social Programs, Legislation, and Policy (3)**
Review of selected legislation, policies, and related social programs, from 1935 to the present. This course provides a historical and philosophical perspective from which analysis of social policies can be made relative to the political, economic, and societal responses to social needs in the U.S. Students in the course will develop knowledge and practice skills in social agency approaches and models used for caretaking, control rehabilitative change, and preventive services to aid in value clarification relative to social work practice and service delivery. Course content will facilitate understanding and internalization of knowledge on human and cultural diversity relative to the influences of values and ethics on the implementation and evaluation of social programs, policies and legislation expressed by service agencies.

Prerequisites: SW 201, SW 203, SW 247, and admission into the program.

**SW 302 Honors Seminar in Social Work (3)**
Agency-based or community-based research experiences are conducted to hone and broaden research skills. Conducted in a seminar format.

Prerequisite: 3.0 GPA or honors student.

**SW 306 Social Work Practice I – Group Process & Practice (3)**
Laboratory during which class members are responsible for the design, implementation, and evaluation of group tasks. Various theoretical frameworks for analyzing group behavior will be examined. Topics to be covered in this course include social group work and social work practice, leadership roles, group norms, and starting and leading various
kinds of groups. By examining the class functioning, members learn the dynamics of group process.
Prerequisite: junior standing or permission of the instructor and admission into the program.

SW 333 Services to Older Adults (3) (formerly SW 333 Older Adults)
Examination and assessment of services, policies, and programs for the elderly. This course will address some of the most salient issues facing social workers and health care providers in the 21st century as the older adult population in the United States undergoes unprecedented growth, especially among populations of color. This increase in the older adult population will result in a corresponding rise of multigenerational families and relationships. Through both formal and non-formal interactions, people of different generations will be increasingly called upon to assist one another financially, emotionally, physically, and in other ways. Are we prepared to address the wide-ranging needs of an older adult population? Do we, as a society, genuinely regard older adults as valuable human resources?
Prerequisite: SW 203, SW 247.

SW 345 Legal Aspects of Social Work Practice (3)
Legal aspects of recording, expert testimony, client rights, confidentiality, professional liability, and other related matters, are examined.
Prerequisite: Six hours of courses in Social Work.

SW 346 Social Work Practice II – Interviewing and Recording (3)
This course seeks to provide students with professional interviewing skills, an enhanced understanding of verbal and nonverbal communication listening skills (including the self-assessment necessary to listen effectively), and an awareness and understanding of diverse issues related to the interviewing process. The person-in-environment perspective will be utilized throughout this course. As opposed to a conversation, the interview is purposeful, directed, evaluative and even therapeutic. The course will also address issues in cross-cultural interviewing and, in specific, problematic interview situations. Students will learn how to translate interview information into a bio-psycho-social assessment. Students will also learn introductory skills relating to the problem-solving model, particularly engagement and problem identification. Students are expected to demonstrate increased insight into their own behaviors, values, beliefs, and attitudes as they relate to professional social work practice. Students are required to complete in-class role-playing assignments demonstrating the concepts discussed. Leadership of and participation in class discussions are required. Prerequisite: junior standing, SW 203, SW 237, and admission into the program.

SW 359 Introduction to Human Sexuality (3)
This course is a survey of ideas and problems associated with human sexuality and is primarily intended for social workers and others in the helping professions. Using a bio/psycho/social perspective, emphasis will be placed on the social, cultural, familial, and individual differences in sexual and reproductive attitudes, and behavior. Students will be introduced to common sex-related problems and to concerns of various sexually oppressed groups. This course will employ an Active Learning Approach that utilizes (readings, lectures, tests) and non-traditional (role-plays, films, journals, internet research, games, debates, fieldwork) methods.
Prerequisites: junior standing or permission of instructor.
SW 361 Social Welfare II – Policy and Legislation Analysis (3)
Analysis and assessment of selected policies and legislation related to programs, practices, and services in social work and social welfare. This course provides a historical and philosophical perspective from which analysis of social policies can be made relative to the political, economic, and societal responses to social needs in the U.S. Learning activities utilized in this course will facilitate development of skills necessary to analyze and assess data used in formulating social policy and legislation for purposes of planned social action and change, as well as to enhance critical thinking and analytical skills. Prerequisite: SW 301 or permission of the instructor and admission into the program.

SW 380 Substance Abuse: Assessment and Treatment (3)
This foundation-level course will inform students about the prevalence of alcohol and other drugs (AOD) problems and how they are implicated in the broad spectrum of social work practice. An assumption of the course is that AOD problems manifest themselves in a variety of social work practice settings, therefore all social workers must have basic skills to identify, intervene with and refer AOD-involved clients. Prerequisites: (social work majors only); SW 203, BI 100 or BI 101 or BI 185 and/or permission of the instructor.

SW 397 Human Behavior and the Social Environment I—Conception through Adolescence (3)
This is the first part of the Human Behavior and the Social Environment (HBSE) sequence. A combination lecture/discussion and laboratory course designed to integrate human behavior knowledge for subsequent use in practice skill development. The course uses a lifespan approach covering the period from conception through later adolescence using a systems theory framework and other human development and behavior theories. Course content integrates knowledge from biology and the behavioral sciences to study bio-psycho-social factors that influence individual and family maturation and functioning for subsequent use in practice skill development. The impact of diversity, discrimination, oppression, and environmental factors on individuals, families, groups, communities, and organizations is studied throughout the human lifespan development. Prerequisite: successful completion of all required coursework through the junior year, and admission into the program.

SW 398 Human Behavior and the Social Environment II—Young Adulthood through Later Adulthood (3)
This is the second part of the Human Behavior in the Social Environment (HBSE) sequence. It focuses on the life span development period of young adulthood through later adulthood using a systems theory framework and other human development and behavior theories. Course content integrates knowledge from biology and the behavioral sciences to study bio-psycho-social factors that influence individual and family maturation and functioning for subsequent use in practice skill development. The impact of diversity, discrimination, oppression, and environmental factors on individuals, families, groups, communities, and organizations is studied throughout the human lifespan development. Prerequisite: SW 397, completion of all required coursework through the junior year and admission into the program.

SW 401 Social Work Practice – Practice III – Individuals & Families (3)
The course focuses on developing practice knowledge and skills to create a professional helping relationship and intervene appropriately as an entry-level generalist practitioner.
with an emphasis on individuals and families. Content includes social work roles and functions, theoretical frameworks for social work practice, values and ethics, a review of interviewing and communication skills, intake and engagement, data collection and assessment, planning and contracting with the client system, selected intervention strategies and techniques, evaluation, and termination. Workload management, use of forms and instruments, and record-keeping are introduced. Students will learn about the various forms of information technology for increasing social work practice effectiveness and workload efficiency.

Prerequisites: Successful completion of all freshwomen, sophomore and Junior core social work courses, and admission into the program.

**SW 402 Social Work Practice IV – Communities & Organizations (Macro Practice) (3)**

This course focuses on theories, concepts, and practice skills, including evaluation, relating to work with organizations and community-based program planning. Entry-level generalist social work practitioners work not only with individuals and families, but also with groups, organizations, and communities. It is, therefore, important to develop a wide range of skills and strategies for interventions with diverse and oppressed populations including women, minorities of color, gays and lesbians, the poor.

Prerequisites: Successful completion of all freshwomen, sophomore and Junior core social work courses, and admission into the program.

Co-requisite SW 403

**SW 403 Child Welfare (3)**

This course is designed to provide students with a historical overview of child welfare services from a theoretical and practice perspective. It is also designed to provide practice knowledge and skills for students preparing for positions in public child welfare and other child serving organizations. Policies, programs, and issues relating to the child welfare system are examined, including protective services, out-of-home placements, adoption, etc. Services are also discussed considering their provision to a variety of diverse populations. The competencies taught in the course will give students a better understanding of the child welfare system and its services in North Carolina. The course will acquaint students with the tools and techniques necessary to enhance their ability to think critically in a variety of situations and experiences. Pre-requisites: Social Work majors only. Students must have passed all core social work courses with a “C” or better. Core courses are SW 203, SW 247, SW 254, SW 301, SW 306, SW 346, SW 361, SW 397, SW 398, and SW 401. Co-requisites: SW 402.

**SW 405 Research Methods and Design (3)**

This course presents students with various applications of the scientific method in social research. Students will learn methods of data collection, analysis, interpretation, and reporting including single subject design.

Prerequisite: SW 247 and admission into the program.

**SW 406 Research Seminar (3)**

Provides more in-depth treatment of selected topics in research, enabling students to carry out the research proposal designed in SW 405.

Prerequisite: SW 405.

**SW 409 Orientation to Field (1)**

This course is intended for social work seniors who plan to complete their senior field practicum (Field Instruction: SW 410) the following semester. Students complete a self-assessment on the core competencies; apply for a placement for Field Education and
complete the work necessary to secure a placement. 
Prerequisite: Successful completion of all freshwomen, sophomore and Junior core social work courses, and admission into the program. Co-requisite: SW 402 and SW 403.

**SW 410 Field Practicum & Seminar (12)**
Placement in a supervised setting that provides Social Work services to individuals, groups, communities, or organizations (or any combination) for at least 500 clock hours during the semester and for the purpose of professional socialization and practice skills development. In this seminar, classroom discussion will focus on generalist social work practice with special emphasis on the micro and mezzo levels of social work practice. Students will explore how to meet client needs using the relationship building, interviewing, problem-solving skills, and critical thinking skills acquired in previous courses. Populations vulnerable to oppression due to gender, race, ethnicity, age, sexual orientation, or disability will be emphasized in class exercises and discussion. The application of social work ethics in work with individuals, families and groups will be addressed. Prerequisite: Successful completion of all freshwomen, sophomore and Junior core social work courses, and admission into the program. May not be enrolled in any other courses.

**SW 499 Special Topics (3)**
Junior or Senior Level. A Seminar designed to address research issues, problems, and other matters of concern related to race, gender, sexual orientation, age, class, and disability.

**Sociology Courses**

**SO 201 Introduction to Sociology (3)**
An examination of society, social institutions, and social processes, as related to understanding social interactions.

**SO 204 Social Problems (3)**
An examination of the social environment and social structure to understand the features of contemporary society, and to understand the causes and consequences of social problems. Prerequisite: SO 201.

**SO 254 Descriptive and Inferential Statistics and Probability (3)**
Basics of descriptive, inferential, and correlational statistics for undergraduates in any discipline. This course introduces students to techniques for understanding, summarizing, graphically displaying, and interpreting measurements, relationships between variables, analyzing information for datasets and conducting hypothesis testing. Topics include both descriptive and inferential statistics (frequency distributions, measures of central tendency and variability, and probability distributions, t-tests, analysis of variance-ANOVA, and an introduction to regression). Students also learn how to use variables from datasets to conduct statistical analyses using computer software. Prerequisites: Three hours from the following course: MA 120 or higher with a grade of “C” or above in the course, or the equivalent courses/course work approved by the instructor.
SO 304 Social Theory (3)
Discussion and analysis of selected theories, the context of their evaluation, and their application in research methodology. Identification of the contribution to sociology of scholars outside the mainstream (Women, African Americans) and other minorities. Prerequisite: SO 201 Introduction to Sociology.

SO 323 Social Psychology (3)
The study of socialization and its products (i.e., the processes whereby individuals learn the values and behaviors of a social group). Prerequisite: PS 101 General Psychology or SO 201 Introduction to Sociology or permission of the instructor.

SO 327 Marriage and Family (3)
An examination of the multiplicity of changes that are affecting the structure and functioning of relationships and families in the 21st century. Prerequisite: SO 201 Introduction to Sociology or permission of the instructor.

SO 354 Advanced Statistics (3),
Second course in measurement, stresses competencies in inferential multivariate statistics. Covers applications of statistical procedures for behavioral research, administrative decision-making and generalizing. Prerequisite: SO 254 Social Statistics or PS 254 Psychology Statistics or equivalent with a grade of C or better.

SO 358 Special Topics (3-6 credit hours to be determined by the instructor)
Current issues of interest to sociologists and/or interdisciplinary study are researched for presentation and/or publication. Prerequisite: SO 201 Introduction to Sociology or permission of the instructor. Credit hours are determined by the instructor.

SO 359 Special Topics (3-6 credit hours to be determined by the instructor)
Topics of interest to sociologists and/or interdisciplinary study are intensively researched, analyzed, and produced in a research paper. Prerequisite: SO 201 Introduction to Sociology or permission of the instructor. Credit hours are determined by the instructor.

SO 405 Research Methods and Design (3)
Methods of data collection, analysis, interpretation, and reporting. NOTE: This course requires completion of a research proposal for use in SO 406. Prerequisite: SO/SW 254 Social Statistics or permission of the instructor.

SO 406 Research Seminar (3)
Provides an in-depth examination of selected social issues through research to enable students to carry out the research proposal designed in SO 405 Research Methods and Design. Prerequisite: SO/SW 405 Research Methods and Design.

SO 459 Independent Study (3-6 credit hours to be determined by the professor)
Open to students who have demonstrated the necessary degree of self-motivation and academic ability for independent critical reading, analysis, and research writing. Prerequisite: SO 201 Introduction to Sociology, senior standing, a GPA of 3.2 or above and permission of the instructor. Credit hours determined by the instructor.
Special Education Courses

SE 207 Introduction to Exceptional Individuals (3)

The focus of this professional core course is to provide the student with a comprehensive survey of the developmental, social, and psychological characteristics of exceptional individuals from a philosophical and historical perspective. The content covers both disabilities and giftedness with an understanding of the confidentiality practices of the public-school classroom. Required: 15-Hour Pre-Professional Practicum Field Experience. EPP declared majors only Prerequisite: Sophomore standing, and a clear CBC is required. (Prior to 2019-2020 see SE 207 and SE 207 Lab).

SE 240 Assistive Integrated Technology Literacy for Students with Disabilities

This professional core course provides prospective teachers with an experience-based approach to learning. This course highlights how technology can differentiate instruction and assistive technology may support the needs of all students, including students with disabilities. Activities are designed to enable pre-service teachers to integrate research, technology, and practice more effectively. Developing and constructing appropriate units of study for effective mini-lesson planning will provide practical application and micro teaching activities. The learning needs of teachers related to effective teaching are addressed in three dimensions: knowledge, competencies, and skills. The technology component is a new approach to assist and prepare pre-service teachers in becoming proficient and extensive users of technology as facilitators of learning in a contemporary global community. The latest computer literacy will be accomplished. Students will be required to participate in edTPA training and adhere to NCDPI assessment protocol for pre-licensure requirements. Required: 15 Hours Required Pre-Professional Practicum Field Experience and clear CBC. EPP Candidates only (Prior to 2019-2020 see ED 340).

SE 328 Educational Assessment and Planning for Exceptional Individuals (3)

This professional core course examines the various models of service delivery in special education. Attention is given to the diagnosis/assessment and instructional planning processes, the instructional and curricular modifications required for exceptional individuals, and the variety of settings in which special education services are effectively implemented. Field experience in an appropriate educational setting is a critical component of the course. Special Education EPP Majors only (Prior to 2019-2020 see SE 328).

SE 329 Instructional planning and assessment for Exceptional Individuals (3)

This course is designed to engage the beginning pre-service teacher in the study of a comprehensive coverage of the latest curricula and instructional strategies, to assist the beginning pre-service teacher in developing the knowledge and skills necessary for effective teaching, and to provide the beginning pre-service teacher with many specific instructional models and examples for implementing curriculum in classrooms, schools, and other educational programs with guiding Principles of Universal design. Requirements: Pre-Professional Practicum 30 Hours Field Experience and clear CBC. Prerequisite: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see ED 322).

SE 330 Behavior & Classroom Management (3)

This course examines the variety of theoretical approaches to the education of students with behavior problems. Students learn to identify and plan for the use of preventive,
supportive, and corrective behavior management strategies for students with learning problems in regular education as well as special education settings. The course is required for Education majors. Required: Pre-Professional Practicum Experience. Prerequisites: permission of instructor and/or admission to the EPP. Special Education Majors only. EPP Candidates only (Prior to 2019-2020 see SE 330).

SE 347 Collaboration and Consultation for Exceptional Individuals (3)

This course is designed to provide special education service providers with the practical application of collaborative methods in inclusive classrooms. Emphasis will be placed on current theories and practices of the inclusion movement in today’s classroom. Special Education Majors only. EPP Candidates only (Prior to 2019-2020 see SE 347).

SE 364 Methods and Strategies for Teaching Students with High Incidence Disabilities in General Education (3)

Theories of mild to moderate disabilities (including learning disabilities, mental disabilities, and behavioral/ emotional disabilities) are explored from current and historical perspectives. An overview of effective instructional programming, with focus on learning strategies and compensation for learning and behavioral differences are emphasized. EPP Candidates only (Prior to 2019-2020 see SE 264).

SE 370 Physical Education for Exceptional Children (3)

This course is designed to enable students with an introductory knowledge in the disciplines pertinent and content appropriate to teaching quality physical education to elementary children grades K-6. Required five (5) Hours Pre-Professional Practicum Fieldwork and clear CBC. Prerequisite: Admission to EPP. EPP Candidates only.

SE 412 Language & Literacy for Students with Mild to Moderate Disabilities (3)

This course is designed to provide special education service providers with the essential skills necessary to effectively teach reading to students with disabilities. The course will address theory of instruction, methods, and materials for K–12 curriculum. Special Education Majors only. EPP Candidates only (Prior to 2019-2020 see SE 412).

SE 423 Internship for SE Teacher Candidates (3)

This professional core course is designed for senior-level special education majors and minors for the purpose of exploring current problems in the field. Students are required to select an issue and develop a research project. (40 hours Fieldwork and CBC required). Special Education Majors only. EPP Candidates only. Revised 11/02/2018 (Prior to 2019-2020 see SE 440).

SE 431 Teaching Practicum (12)

This course allows for the application of pedagogical skills and the theories and principles of special education to classroom teaching. Students will observe, plan, and teach under supervision in a special education classroom. Participation in an accompanying 3-hour seminar is required. Prerequisites: completion of all professional core and specialty area courses; admission to the EPP; completion of 120 hours of Pre-Professional Practicum Field Experience; and admission to student teaching one full semester before the experience. EPP Candidates only (Prior to 2019-2020 see SE 431).
This professional core course is designed for junior and/or senior level prospective special education teachers as an in-depth study of the elementary school math curriculum and specific content methodology to provide the most effective teaching and learning strategies for children with disabilities. Emphasis is placed on Universal design and learning, and new developments related to the curriculum and multimedia instruction with classroom instruction strategies to increase p-12 content knowledge. Students will have access to methods of data and evidence accountability for student learning in the p-12 classroom as formative and summative evaluation procedures. Requirements: edTPA account, 40 Hours Internship, and clear CBC. Prerequisites: admission to the EPP. EPP Candidates only (Prior to 2019-2020 see SE 459)

SE 440 Senior Seminar Capstone Leadership (3)

This professional core course is designed for senior-level special education majors and minors for the purpose of exploring current problems in the field. Students are required to select an issue and develop a research project. Co-req SE 431 Teaching Practicum required. Prerequisites: successful completion of all professional core and specialty area major courses, admission to the Teacher Education Program, and admission to student teaching one full semester before the experience. Students must be available for the assigned school full-time instructional day. EPP Candidates only.

Theatre Courses

TH 102 Theatre and Culture (3)

Appreciation of theatre as a forum, which surveys and analyzes the contributions of playwrights, actors, directors, designers, and managers coupled with dramatic literature. All vocational areas of theatre are explored. Prerequisite: none.

TH 120 Improvisation (2)

The student is encouraged to examine how she becomes an actress through improvisation, scene study, and, finally, improvising a play. Prerequisite: none.

TH 122 Movement I (2)

An introduction to stage movement and kinetic practice and intentions. Prerequisite: none.

TH 123 Movement II (2)

Continuation of Movement I. The basic principles for developing fitness will be presented. Prerequisite: TH 122.

TH 201 Business in Theatre (2)

An introductory management course for all persons desirous of a career in theatre arts. The student will be introduced to the rules of entertainment law. Prerequisite: none.

TH 204 Acting (For Non-majors) (3)

Training of the actor as a unit or method and development of his/her powers of concentration, observation, and imagination and relating these elements to contemporary acting. Prerequisite: none
TH 205 Theatre History and Literature (3)

A survey course that examines the history and literature of theatre within the framework of cultural and social ideas, from its origins in dance and ritual to the Modern era. Literature-based class. Prerequisite: none.

TH 220 Performance and Production (3)

The students will learn through theatre productions how to develop creative/intuitive instincts in performing. Theatre majors are required to take this course three separate semesters. Prerequisite: none.

TH 221 Introduction to Technical Theatre (3)

The what, when, and why of all backstage equipment and how to use it to maximum effect with safety, speed, and efficiency. Prerequisite: none.

TH 230 Stage Lighting (3)

A beginning course in stage lighting that emphasizes the practical aspects of lighting a production. Students learn through exposure to and working with the variety of equipment available to meet the lighting demands of any play. In addition, there are discussions of electricity, design, color, and special effects. Offered through agreement with Greater Greensboro Consortium. Prerequisite: none.

TH 231 Acting I (3)

This course is designed to teach performers the fundamentals and techniques of acting. Students learn to control the body’s creative energy by participating in such exercises as solo acting, duo acting, and basic auditions. Prerequisite: none.

TH 232 Stage Makeup (3)

The basic principles and practices in makeup for stage, screen, and television are covered. Practice in use of cosmetics, wigs, hairpieces, and facial prosthetics and masks. Offered through agreement with Greater Greensboro Consortium. Prerequisite: none.

TH 238 Voice for the Actor (3)

Study and exercises in the sociological, physiological, and acoustical aspects of vocal delivery to develop clear articulation and effective speech in theatre productions. Prerequisite: none.

TH 239 Stagecraft (3)

A beginning course in stagecraft with emphasis on building and painting scenery. Offered through agreement with Greater Greensboro Consortium. Prerequisite: none.

TH 255 Oral Interpretation of Literature (3)

This course is designed to introduce and assist students in fully understanding a literary selection. The course prepares the student to analyze literary selections, which are the indispensable first step of any rehearsal. The process of analysis described in this course emphasizes the interpreter’s relationship to the literature and the position the interpreter takes in recounting the experience. This course is a must for students pursuing a career in acting performance. Prerequisite: none.
TH 331 Acting II (3)
A study of role analysis and the problems and techniques of creating subtexts with special relation to the actor’s natural qualities. Prerequisite: TH 231 Acting I or permission of the instructor.

TH 337 Acting for the TV/Cinema (3)
Advanced work in the special problems of applying acting techniques to the demands of the modern media. Practicum experience designed for television and cinema. Prerequisites: TH 331, TH 332.

TH 338 Principles of Costuming (3)
The systematic study of form, line, balance, tone, shade, value, and pattern with reference to the human form and its costume. Not typically offered at Bennett but may be taken at Consortium schools. Prerequisite: none.

TH 339 Community Theatre (3)
Techniques in producing community theatre with adult and child actors are explored. Experience in arts management and promotion is required. Prerequisite: none.

TH 352 Playwriting (3)
A laboratory course in dramatic writing, including study and practice in writing for the modern stage. Prerequisite: none.

TH 330 Black American Theatre I (3)
A study of significant developments in the American Black theatre prior to 1900 through the 1950s as reflected through the major playwrights and theatre organizations. Prerequisite: none.

TH 333 Black American Theatre II (3)
A study of significant developments in the American Black theatre from the 1960s through the present day as reflected through the major playwrights and theatre organizations. Prerequisite: TH 330 or permission of the instructor.

TH 422 Directing (3)
Elementary principles of staging plays, practical work in directing a one-act play. Attention is given to the principles of selecting, casting, and rehearsing of plays. Prerequisite: completion of 18 hours of Theatre courses.

TH 423 Advanced Directing (3)
A consideration of rehearsal problems and techniques associated with full-length shows. In conjunction with the theatre problems, students’ direct projects selected from a variety of genres. Prerequisite: TH 422 or permission of the instructor.

TH 431 Acting III (3)
A study of the problems and techniques in periods and styles through intensive scene study and performance of Greek, Shakespearean, and Romantic works. Prerequisite: TH 331 Acting II or permission of the instructor.
TH 433 Children’s Theatre (3)

Various techniques used in producing Children’s Theatre with adult and child actors. Experience in scene design, lighting, costuming, acting, directing and promotion. Class work plus participation in the Children’s Theatre workshop required.
Prerequisite: none.

TH 434 Theatre Management (3)

The theories and practices of theatre management and administration as they pertain to publicity, box office printing, scheduling, grantsmanship, and fund-raising including computer applications. Prerequisite: none.

TH 435 Scene Design (3)

An exploration and investigation of the nature of scenic design. In addition to this, the course is designed to explore and analyze modern drama, modern playwrights, and modern plays. Offered through agreement with Greater Greensboro Consortium. Prerequisite: none.

TH 438 Musical Theatre (3)

Development of skills in energizing, concentration, and structuring, including concepts of physical, vocal, mental, and emotional energy. Concentrating concepts include conceptualization and imagination. Prerequisite: none.

TH 453 Modern Drama (3)

A study of significant developments in Theatre since 1900 as reflected through major playwrights and theatre.

TH 476 Theatre Seminar (3)

This course is designed to provide the senior-level student with an understanding of the various kinds of research as well as to prepare her for bridging her field of study with the necessary preparations for graduate schools and vocational entry positions. In-depth work in preparing students to pass the program examination and prepare a marketable project in her field of study will be executed. Prerequisite: completion of at least 24 hours of Theatre courses.

TH 490 Internship (6–9)

Off-campus, on-the-job observation and training of the students pursuing professional work in a variety of traditional and non-traditional careers appropriate to their academic program. Prerequisites: junior or senior standing and current résumé.

Speech Courses

SH 103. Public Speaking (3) F, S

An introductory course on the essentials of speechmaking, with emphasis on the organization and delivery of oral messages. Skill development in spontaneous speaking, short, organized presentations, and critical and appreciative listening. Prerequisite: none
SH 305. Argumentation and Debate (3) F
Decision making through argumentation with special emphasis on the analysis of issues, reasoning, and refutation. Introduction to principles of oral and written argumentation and debate. Prerequisite: SH 103

SH 310. Seminar in Organizational Communications (3) F
Designed to introduce major terms, concepts, and perspectives necessary for the application of communication theory to industrial and organizational settings. Emphasis on examining how organizational structure, processes, and culture are reflected by and created through communication. Prerequisite: junior/senior standing.

Cooperative Programs, Memorandums of Understandings

Cooperative Doctor of Chiropractic Program
Life University and Bennett College have established a Doctor of Chiropractic program leading to a Bachelor of Science degree in Biology from Bennett College and a Doctor of Chiropractic degree from Life University. Life University will admit to professional level status toward a Doctor of Chiropractic degree all students who complete the prerequisite requirements at Bennett College. Life University retains sole responsibility for establishing
the academic and other criteria that students must meet to fulfill its own entrance and graduation requirements and in evaluating student applications for admission.

Incoming students must meet all entry requirements for the Doctor of Chiropractic program. Acceptance into the chiropractic program does not guarantee successful completion of course requirements, leading to a degree of Doctor of Chiropractic.

All prerequisite coursework for admission to the chiropractic program must be completed with a grade of 2.0 ("C") or above on a 4.0 scale. In addition, the grade point average of the specific course requirements must average 3.0 or higher and the cumulative grade point average of all college courses must average 3.0 or higher. If the cumulative GPA averages below 2.50-3.0, the average of the best ninety (90) semester hours will be calculated. After successful completion of three years of courses at Bennett College, students will transfer to Life University for entry into the chiropractic professional program.

Bennett College will grant the Bachelor of Science degree in Biology to those students who satisfactorily complete three years of study at Bennett College and the first year of the Chiropractic Program at Life University.

**Master of Sport Health Science Program at Life University**

This program results in an M.S. degree in Sport Health Science from Life University. A prospective student must possess, at a minimum, an appropriate bachelor’s degree from Bennett College and have completed the articulated prerequisite requirements at Bennett College specified by Life University. Life University retains sole responsibility for establishing the academic and other criteria that students must meet to fulfill its own entrance and graduation requirements and in evaluating student applications for admission. Incoming students must meet all entry requirements for the M.S. degree program.

**The Early Assurance Program for Admission to the Brody School of Medicine at East Carolina University**

Through an agreement with the Brody School of Medicine at East Carolina University, a student who satisfies the admissions requirements may be admitted as a first-year student at Bennett College and as an Early Assurance Program Scholar. The selection of scholars includes an interview of applicants by the Brody School of Medicine. After four years of study in the Early Assurance Program, students will be eligible to be selected for a guaranteed position in the entering class for the M.D. program at the Brody School of Medicine.

Requirements for admission to the Early Assurance Program are:

1. High school graduate with a cumulative GPA of 3.5 on a scale where A=4.0.
2. A total minimum score on the Reading and Mathematics sections of the SAT of 1000.
3. Must be a North Carolina Resident.
4. Must satisfy the admissions requirements for Bennett College.
Duquesne University School of Law – Early Admission Program

Duquesne University School of Law and Bennett College has established a 3/3 program, beginning with the 2012-2013 academic year in which after three years work at Bennett College and subject to the conditions outlined below, a student will be eligible for admission to the Duquesne University School of Law for completion of the J.D. degree after three years (Day Division) or four years (Evening Division) of work as defined by the Duquesne University School of Law. Each student in this early admission program will be awarded a bachelor’s degree by Bennett College after successful completion of the first year Day Division program or the first three semesters of the Evening Division program of the Duquesne University School of Law.

The following eligibility requirements are:

1. A cumulative grade point average of approximately 3.5 for three years at Bennett College (90 credit hours).
2. Completion of all undergraduate curricular major field and liberal studies requirements at Bennett College.
3. A minimum LSAT score in the 60th percentile on the present LSAT. It is assumed that the student will take the LSAT in the Winter of her third year at Bennett College, however, by request, a student may defer taking the LSAT until the Spring of her third year.
4. Recommendation by a selection committee appointed by the Vice President for Academic Affairs, Bennett College, and the Director of Admissions of Duquesne University School of Law.

Eligible candidates for this program will be contacted by the Law School to schedule a mandatory interview before members of the Admissions Committee. Eligible candidates will not be contacted until all application materials, including the LSAT score(s), have been received.

Winston-Salem State University- Memorandum of Understanding (MOU)

Winston-Salem State University (WSSU) and Bennett College (BC) have established a Memorandum of Understanding (MOU) for the enhancement of minority student participation in:

- Healthcare Administration.
- Accelerated Bachelor of Science in Nursing.
- Occupational Therapy.
- Graduate Education in Physical Therapy; and
- Rehabilitation Counseling.

The goals of the Programs are to increase African American and other underrepresented minority enrollment and completion of undergraduate degrees in Nursing and graduate and/or professional degrees in Healthcare Administration, Occupational Therapy, Physical Therapy and Rehabilitation Counseling at WSSU. Both Parties are committed to transformative academic experiences for graduate and professional programs and promoting health professions diversity in North Carolina and nationally.

Bennett College intends to:

1. Provide a representative who shall serve as a liaison to ensure that BC is addressing concerns that are relevant to the efficient operation of the Programs.
2. Respond to all reasonable requests for information on the students and advise in a timely manner.
3. Actively participate in the recruitment efforts of the programs by annually recommending academically qualified junior and senior students who wish to go to graduate school and senior science major students who wish to continue in the accelerated nursing program.

WSSU intends to:

1. Guarantee 1-3 admissions spots to highly qualified Bennett College graduates who meet agreed upon competitive standards for admission to the individual programs, to include passing a criminal background check and drug screening test.
2. Offer the admission spot to another competitive candidate if the BC graduate does not comply with the rules of admission or submit required paperwork in a timely manner.
3. Arrange to connect BC student(s) with department representatives for advising. Where feasible, arrangements will be made for current WSSU students to mentor potential enrollees.

Microbiology, Genetics, and Immunology 3+2 Agreement Between Michigan State University and Bennett College

Preamble
The purpose of this articulation agreement is to provide a basis for a cooperative relationship between Michigan State University (MSU) and Bennett College (BC) to benefit students who desire to earn a Bachelor of Science (BS) in Biology and a Plan B (non-thesis) master’s (MS) in Microbiology and Molecular Genetics. This relationship arose out of discussions as part of the Alliance for Expanding Pathways to the Professoriate developed between faculty and administrators at MSU and several minority-serving institutions, including BC. We envision this partnership contributing to ongoing efforts to enhance diversity within MSU and the biology research profession, as well as providing an opportunity for BC biology students to find fulfilling and advanced research and education opportunities in the biology field, especially in microbiology, genetics, and immunology.

General Purposes
The purpose of this articulation agreement is to provide a basis for a cooperative relationship between MSU and BC to benefit students who desire to earn a BS in biology followed by a MS degree in Microbiology and Molecular Genetics from MSU. Under the 3+2 program, a student first completes 95 credits of course work at BC, after which they enroll at MSU to complete a minimum of 25 credits of coursework to obtain a BS degree in biology from BC. The student will complete a total of 30 credits of coursework at MSU to obtain a MS (Plan B) degree in Microbiology and Molecular Genetics. The BS degree will be conferred by BC, and the MS degree will be conferred by MSU. Students may share up to 9 credits of coursework (400-level or above) earned as an undergraduate toward the 30 credits required for the master's degree.

Specific activities to be pursued and implementation plans:
Activity 1. Recruiting BC students.
From MSU Department of Microbiology, Genetics, and Immunology (MGI), the director
graduate studies and the undergraduate advisor will share responsibility for this activity. They will prepare promotional materials, answer questions from interested students, encourage participation in the Summer Research Opportunities Program (SROP) at MSU and potentially travel to BC for recruiting visits. This will be supported at the staff level by the MGI Graduate Coordinator.

Activity 2. Advising of students at BC.
Designated BC biology faculty will identify and advise interested BC students on course selection while in residence at BC to ensure that they stay on track to meet requirements for both degrees (BS and MS).

Activity 3. Advising of students at MSU.
The undergraduate advisor and director of graduate studies from the Department of Microbiology, Genetics, and Immunology will share the responsibility of advising 3+2 students, along with the student’s research guidance committee, while in residence at MSU. This will include course selection, processing of any needed overrides, planning for summer semesters, monitoring research progress, and networking and career services. This will be supported at the staff level by the MGI Graduate Coordinator.

Activity 4. Cross-institutional communication during undergraduate study at MSU.
MSU and BC advisors will have shared responsibility to ensure that problems arising for students during undergraduate study at MSU (e.g., dropped classes, medical withdrawal, poor academic performance) are addressed collaboratively by both institutions. MSU advisors are responsible for making timely reports to the BC advisor on student progress. In the event a 3+2 student encounters problems during undergraduate study at MSU, MSU advisors will address them according to university policies and include BC advisors whenever possible in any intervention.

University units involved:
This agreement will involve the following MSU units: Department of Microbiology, Genetics, and Immunology, College of Natural Science, and The Graduate School. This agreement will involve the following BC units: Biology Department and Office of Academic Affairs.

Parameters of the agreement:
Students in the BC Biology degree track may transfer and apply a minimum of 25 credits earned as an undergraduate student in MSU’s Department of Microbiology, Genetics, and Immunology to complete degree requirements for a BS in biology from BC.

BC students are guaranteed admission to MSU under the following conditions:
  a. The student has submitted a complete non-degree application for admission to Michigan State University.
  b. The student has a minimum 3.0 grade point average on a four-point scale.
BC students will be admitted as non-degree students and coded accordingly by the Registrar until the initial 25 credits are completed fulfilling the BS Biology degree requirements. Students will then submit a graduate application and be reclassified as traditional graduate students.

Students can expect to graduate with a BS degree from BC under the following conditions:
a. They pass the required coursework as described in Addendum 1.
b. If, for any reason, a BC 3+2 student withdraws from MSU prior to completion of the credits required for the BS degree (Addendum 1), the student may return to BC to complete the BS degree by fulfilling credit, course work, and other requirements.

The student may transfer MSU semester credits to BC, provided a 2.0 or higher grade is earned in each class. Students can expect to graduate with a MS (Plan B) degree from MSU provided they complete the requirements described in Addendum 2. Briefly, this entails progress on a research project with a professor at MSU, and completion of a total of 30 credits of research and coursework (at least 16 credits must be 800-level or higher).

Once enrolled in the MS (Plan B) program at MSU, progress through the degree will be governed by the policies and academic regulations established for all MS (Plan B) students as detailed in the MGI graduate handbook. Most importantly, although the curriculum outlined in Addendum 2 can be completed in a single academic year, there is no specific requirement that students follow this timeline.*

*Addenda and the MGI graduate handbook are available for reference in the Office of Academic Affairs.

California Community Colleges

Bennett College enters into this agreement with the system wide Chancellor’s Office for 112 California Community Colleges and 72 Community College districts. The purpose of this agreement is to ensure acceptance of prior coursework and to facilitate the transfer of California Community College (CCC) students who have completed either of the following:

1. An Associate Degree Awarded by a California Community College with a minimum cumulative grade point average (GPA) of 2.5 or higher, that meets any one of the following requirements:
   a. The degree is an Associate in Arts for Transfer (AA-T) degree or an Associate in Science for Transfer (AS-T) degree. These degrees were designed to provide a clear pathway to a California State University major and baccalaureate degree, and they represent strong preparation for upper division coursework in a range of majors.
   b. The degree includes the completion and certification of the lower division Intersegmental General Education Transfer Curriculum (IGETC) used by California Community College students to prepare to transfer to the University of California and California State University systems; or,
   c. The degree includes the completion and certification of the lower division California State University General Education Breadth pattern; or,
   (OR)
   d. A minimum of 30 transferable semester units with a minimum cumulative grade point average (GPA) of 2.5 or higher.

In exchange for meeting one of the above conditions, CCC transfer students will be afforded the following opportunities:
I. GUARANTEED ADMISSION

CCC transfer students awarded an Associate Degree as defined above will be guaranteed admission to Bennett College at junior standing. Students will be made aware that additional prerequisites and graduation requirements may be required by Bennett College for certain majors. Only students who are in good standing at their last transfer institution will be considered.

CCC transfer students without an Associate Degree but obtaining a minimum of 30 transferable units as defined above will be guaranteed admission to Bennett College.

In either instance, students will be made aware that additional prerequisites and graduation requirements may be required by Bennett College for certain majors. Only students who are in good standing at their last transfer institution will be considered.

II. TRANSFERABILITY OF CREDIT

For CCC transfer students awarded an Associate Degree, Bennett College will accept a minimum of 60 semester units. For CCC transfer students without an Associate Degree but with a minimum of 30 transferable units, Bennett College will accept a minimum of 30 semester units.

Bennett College will accept CCC courses deemed transferable to the University of California and the California State University towards general education, major and/or elective credit. Units accepted for the CCC Associate Degree through CLEP, DANTES, IB, AP, Credit by Exam, and ACE will be applicable toward the bachelor’s degree. Bennett College reserves the right to award credit for major preparation based on college policy.

III. GENERAL EDUCATION REQUIREMENTS

Bennett College agrees to accept the completion of the lower division CSU General Education- Breadth pattern (CSU GE), the Intersegmental General Education Transfer Curriculum (IGETC) pattern, or a CCC AA-T or AS-T that includes either CSU GE or IGETC in lieu of its own lower division general education requirements. For CCC transfer students awarded an Associate Degree, no more than nine additional units will be required to fulfill Bennett College general education requirements.

IV. CATALOG RIGHTS

If Bennett College modifies the degree requirements or prerequisites, the student will be accommodated with equivalent coursework and not penalized in total units required for their bachelor’s degree.

V. STUDENT ADVISING

Bennett College will provide pre-transfer advising to community college students through online, onsite, and/or telephone advising. Bennett College’s Office of the Registrar will maintain MOU agreements with community colleges on its web site and will interact with community college Transfer Center Directors. In addition, faculty advising by discipline will be available to future transfer students prior to and once enrolled at Bennett College. Informational materials for potential transfer
students will be available at the community colleges to facilitate the transfer process.

Bennett College will participate in a minimum of one annual outreach activity to educate and inform California Community College students and faculty about Bennett College.

Activities may include the following:

a. Participation in California transfer conferences, transfer fairs, professional conferences (e.g., Umoja Community, Western Association for College Admission Counseling, etc.) and visits to community colleges to educate administrators, counselors, faculty, staff, and students about university admissions requirements, costs, etc.

b. Provision of onsite admissions to eligible California Community College students at transfer conferences, transfer fairs, Umoja Community conferences and during college visits; and,

c. Work with the California Community College transfer centers and the Umoja Community to outreach to all students. Additional efforts will be made to reach out to Science, Technology, Engineering and Mathematics (STEM) majors.

vi. HOUSING

Bennett College will provide priority consideration for campus housing during the first year if the housing fees are paid by the housing application deadline.

vii. SCHOLARSHIP OPPORTUNITIES

Bennett College will seek to develop transfer scholarships for incoming students who have a 3.2 or higher grade point average and meet all other criteria of the college, based on available funding.

vIII. DATA

Under this agreement, Bennett College will conduct an analysis of the California Community College transfer students to determine their progress and success. The analysis should include descriptive that profile the population and process measures, such as course completion and term persistence, as well as course of study. The success of transfer students is measured by achieved outcomes and includes degrees conferred, time to completion, and continuation towards an advanced education. No later than 90 days after the conclusion of an academic year, Bennett College shall provide the CCCCO with a written summary of the results of the analysis.

ix. MARKETING & COMMUNICATION

The CCCCO will work with Bennett College to develop an internal and external marketing plan to communicate and publicize the Chancellor’s support of this agreement to all CCC campuses. Dissemination may include print media, news releases, email, webinars, and social media distribution channels. The Transfer and Articulation Unit will assist in promoting this opportunity to each CCC and ensure that Transfer Center Directors understand the benefits of the program for students. Professional organizations and initiatives such as the Umoja Community, the Western Association for College Admission Counseling (WACAC), and the CCC Transfer Counselor Website grantee, will be encouraged to disseminate information about the HBCU MOU agreements.
Bennett College 2024-2025 Board of Trustees and Officers (as of 6/15/2024)

Board Officers

Dr. Pamela Jolly, Chair
Founder and CEO of Torch Enterprises Inc.

Debra Clark Jones, Secretary
Associate Vice President for Community Health, Duke University Health System & President, TEquity

Board Members

Jermon M. Bafaty
CEO Platinum Technologies

TBD
Ex Officio/ Non-Voting
Faculty Senate President Bennett College

John Coleman

Appendix I

Example Curriculum Patterns
for Degree Majors

The following curriculum patterns are meant to serve as examples of how students might progress through the major, general education and other requirements to degree completion. These example patterns are not prescriptive—they define one alternative to degree completion for each major. Students and advisors may define alternative paths or sequences of course enrollment to complete the degree.

Students and advisors should consult the respective catalog section for the major to reference that major’s specific degree requirements—core courses, required electives, etc.

Students and advisors should consult the General Education section of the catalog to reference those requirements of all students regardless of major.
